# A MESSAGE FROM THE COMMISSIONER OF THE NORTH CAROLINA DIVISION OF MOTOR VEHICLES

The mission of the North Carolina Department of Transportation, Division of Motor Vehicles is to deliver outstanding motor vehicle services, promote highway safety and furnish timely and accurate information to the citizens of this great state. We accomplish the goals in our mission statement by providing excellent customer service while enforcing motor vehicle laws and maintaining the integrity of official DMV records.

The Division of Motor Vehicles and its many partners continue to make strides in promoting safety by encouraging drivers to change their habits and assist with the national goal of reducing the number of motor vehicle crashes and the severity of injuries on our state highways. In spite of this effort, many drivers still ignore the rules of the road creating problems for all of us.

In 2004, there was a 1.4% increase in the number of fatalities, but a 3% decrease in the number of traffic crashes reported. A crash occurred every 2.3 minutes and a person was killed every 5.6 hours on our state highways. There were 1,574 lives lost in 1,415 fatal crashes. The leading cause in most of these fatal crashes was speeding. Failure to yield the right of way and inattention are cited as the two most common contributing circumstances.

As users of this crash facts book, I challenge you to help us improve this situation. A single life lost, a single injury or a single casualty loss is one too many. Educate yourself on the tragic consequences of motor vehicle crashes, and then help educate others.

The Secretary of the Department of Transportation, Lyndo Tippett and I remain deeply committed to improving highway safety, and we appreciate your role in making North Carolina a safer place to drive, bicycle or walk.

Sincerely,

A handwritten signature in black ink that reads "George Tatum".

George Tatum  
Commissioner

#### LEGEND:

- O – No Injury.
- C – Complaint of pain without visible signs of injury or momentary unconsciousness.
- B – Other visible injuries such as bruises, swelling, limping or any painful movement.
- A – Bleeding members, distorted member or any condition that required victim to be carried from the scene.
- K – Killed.

Based on reportable crashes only, and includes vehicle types passenger car, pickup, light truck, sport utility, and van. Cases where extent of injury or belt usage is unknown or unable to be determined are excluded. "Belt" includes these categories: lap belt, lap and shoulder belt, shoulder belt, and child restraint. Information includes data for the period January 1 through December 31, 2004.

Note: Belt use is the use reported by the investigating officer. There is evidence that this reported belt use rate exceeds the actual use rate. During 2000, the observed driver belt use in North Carolina averaged 83 percent as a result of the "Click It or Ticket" campaign.
