A MESSAGE FROM THE COMMISSIONER OF THE NORTH CAROLINA DIVISION OF MOTOR VEHICLES

The mission of the North Carolina Division of Motor Vehicles is to deliver quality motor vehicle services, promote highway safety, and furnish timely and accurate information. We accomplish these goals by providing excellent customer service, enforcing motor vehicle laws and maintaining the integrity of DMV records.

Thanks to the increased vigilance of our drivers, traffic crashes decreased by 2.2 percent from 2008 to 2009, and the number of fatalities decreased 8.2 percent during the same time. Although this is encouraging, other statistics are not. The number of motorcyclists killed in 2009 went up 4.1 percent over last year. We must look out for motorcycle drivers on our roads and safely share the road with them. It is also very disturbing that seat belt and child restraint use in crashes involving children aged 0-4 and 4-11 decreased by 2.4 percent and 3.8 percent, respectively. This shows why it is so important to mentor our children on the importance of safety and

abiding by the law.

While the Division of Motor Vehicles and its many partners continue to make strides in promoting safe driving on the highways, too many drivers ignore the rules of the road and cause problems – some of them deadly – for all of us.

As you use these statistics, it is the Division's wish that you join the crusade for highway safety by educating yourself and your fellow motorists about the disastrous consequences of motor vehicle crashes.

Sincerely,

A handwritten signature in black ink that reads "Michael D. Robertson".

Michael D. Robertson
Commissioner

DRIVER DISTRACTION

The National Highway Traffic Safety Administration (NHTSA) defines distracted driving as any non-driving activity a person engages in while operating a motor vehicle. Such activities have the potential to distract the person from the primary task of driving and increase the risk of crashing.*

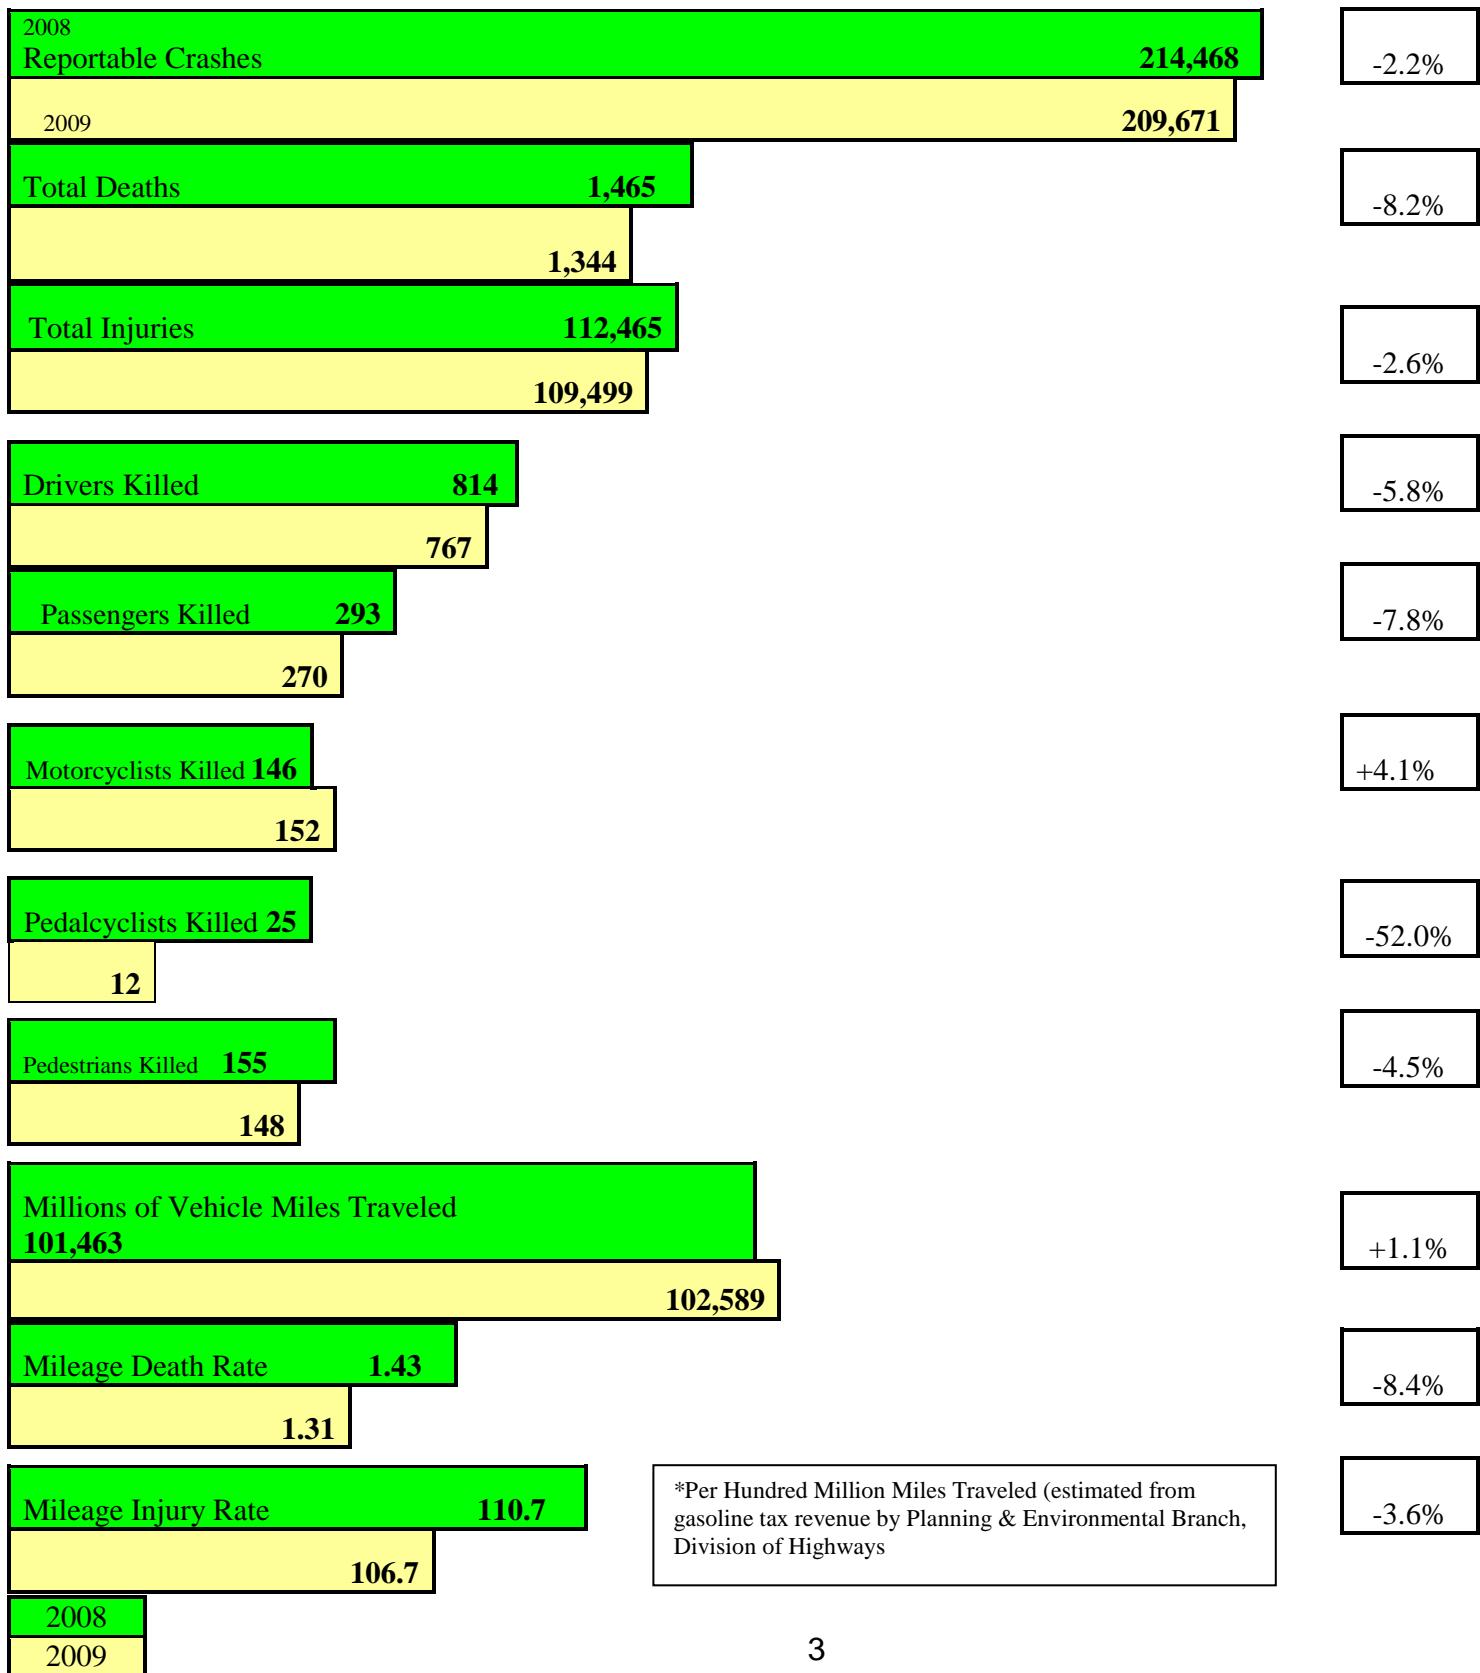

Driver Distraction is a self-reporting contributing circumstance. Therefore, the data collected may not reflect the severity of this issue. In 2009, 1.2% of the crashes in North Carolina involved a driver that was distracted.** ([*http://www.nhtsa.gov/Research](http://www.nhtsa.gov/Research)**)

- B -- Other visible injuries such as bruises, swelling, limping or any painful movement
- A -- Bleeding members, distorted member or any condition that required victim to be carried from the scene
- K -- Killed

Based on reportable crashes only, and includes vehicle types passenger car, pickup, light truck, sport utility, and van. Cases where extent of injury or belt usage is unknown or unable to be determined are excluded. "Belt" includes these categories: lap belt, lap and shoulder belt, shoulder belt, and child restraint. Information includes data for the period January 1 through December 31, 2009.

Note: Belt Use is the use reported by the investigating officer. There is evidence that this reported belt use rate exceeds the actual use rate. During 2009, the observed belt use in North Carolina averaged 83 percent as a result of the "Click It or Ticket" campaign.
