Traffic Crash Statistics**

A MESSAGE FROM THE COMMISSIONER OF THE NORTH CAROLINA DIVISION OF MOTOR VEHICLES

The mission of the North Carolina Division of Motor Vehicles is to deliver quality motor vehicle services, promote highway safety, and furnish timely and accurate information. We accomplish the goals by providing excellent customer service, enforcing motor vehicle laws and maintaining the integrity of official DMV records.

This Division and its many partners continue to make strides in promoting safety by encouraging drivers to change their habits and assist with the national goal of reducing the number of motor vehicle crashes and the severity of injuries on our state highways. However, many drivers still create dangers by ignoring the rules of the road.

In 2010, traffic crashes decreased by 7.7 percent and the number of fatalities decreased by 1.6 percent compared to those in 2009. We saw two areas of concern in the crash statistics obtained in 2010. The number of motorcyclists killed in 2010 increased by 13.2 percent over last year's numbers. And, the number of children (0-4) who were not restrained in child seats and were killed in crashes increased 47.7 percent compared to 2009.

As you use these statistics, it is the Division's sincere wish that you become an active participant in making our highways safer by educating yourself about the disastrous consequences of motor vehicle crashes. Spread the word to all you know. Thank you for your help in making North Carolina a safer place to drive, bicycle and walk.

DRIVER DISTRACTION

The National Highway Traffic Safety Administration (NHTSA) defines distracted driving as any non-driving activity a person engages in while operating a motor vehicle. Such activities have the potential to distract the person from the primary task of driving and increase the risk of crashing (<http://www.nhtsa.gov/Research>).

Driver Distraction is a self-reporting contributing circumstance. Therefore, the data collected may not reflect the severity of this issue. In 2010, 1.2% of the crashes in North Carolina involved a driver that was distracted.

Based on reportable crashes only, and includes vehicle types passenger car, pickup, light truck, sport utility, and van. Cases where extent of injury or belt usage is unknown or unable to be determined are excluded. "Belt" includes these categories: lap belt, lap and shoulder belt, shoulder belt, and child restraint. Information includes data for the period January 1 through December 31, 2010.

Note: Belt Use is the use reported by the investigating officer. There is evidence that this reported belt use rate exceeds the actual use rate. During 2010, the observed belt use in North Carolina averaged 89.8 percent as a result of the "Click It or Ticket" campaign.
