A MESSAGE FROM THE COMMISSIONER OF THE NORTH CAROLINA DIVISION OF MOTOR VEHICLES

The mission of the North Carolina Division of Motor Vehicles is to deliver quality customer support through professional driver and motor vehicle services while promoting highway safety and protecting accurate and secure information. We accomplish these goals through value-based actions and integrity across all DMV functions.

The Division, in conjunction with the North Carolina Department of Transportation and our numerous partners, work tirelessly to promote public safety, security and customer service. We encourage all motorists to practice safe driving habits and contribute to our objective of drastically reducing motor vehicle crashes and the severity of injuries on our roadways. Unfortunately, many drivers continue to generate dangerous situations by disregarding the common rules of the road.

In 2013, reportable traffic crashes increased by 3.1 percent from the previous year. Fortunately, the number of fatalities decreased by 0.2 percent. There was a decrease of 8.1 percent in the number of motorcyclists killed, and the number of pedal-cyclists killed fell by 17.4 percent. The number of pedestrians killed in motor vehicle crashes also decreased by 9 percent.

However, there is still more work to be done. The number of motor vehicle crashes involving teen drivers increased by 1.7 percent, while crashes involving speeding teen drivers increased by 4.2 percent.

We invite you to become an active participant in making our highways safer by educating yourself about the devastating results associated with motor vehicle crashes. As you learn about these statistics, spread the word to all you know.

Please visit our website, www.ncdot.gov/dmv, for more information on motor vehicle laws and the ways you can improve your driving. This publication is available online at <https://connect.ncdot.gov/business/DMV/Pages/Crash-Facts.aspx>

Thank you for your help in making North Carolina a safer place to drive, cycle and walk.

Sincerely,

A handwritten signature in black ink that reads "Kelly J. Thomas". The signature is written in a cursive, flowing style.

DRIVER DISTRACTION

The National Highway Traffic Safety Administration (NHTSA) defines distracted driving as any non-driving activity a person engages in while operating a motor vehicle. Such activities have the potential to distract the person from the primary task of driving and increase the risk of crashing (<http://www.nhtsa.gov/Research>).

Driver Distraction is a self-reporting contributing circumstance. Therefore, the data collected may not reflect the severity of this issue. In 2013, 22.4% of the crashes in North Carolina involved a driver that was distracted.

Based on reportable crashes only, and includes vehicle types passenger car, pickup, light truck, sport utility, and van. Cases where extent of injury or belt usage is unknown or unable to be determined are excluded. "Belt" includes these categories: lap belt, lap and shoulder belt, shoulder belt, and child restraint. Information includes data for the period January 1 through December 31, 2013.

This ranking of cities is based on several factors including reported crashes, crash severity, crash rates, and populations. For a complete listing of factors and data, contact Brad Robinson, PE with the Traffic Safety Systems Management Unit in the Department of Transportation.

Note: In 2013 VMT (Vehicle Miles of Travel) data for larger cities became available, therefore crash rate calculations based on this data have now become a part of the rankings process for cities with populations greater than 10,000. As a result, some city rankings were more affected by this change than others. The cities denoted with ** moved a minimum of 10 spots (upward or downward) in the 2013 rankings.
