Microstation Title Sheet Cell Change

Roadway Design has revised the Microstation title sheet cell and the NCDOT Workspace has been updated accordingly. The Design Data on title sheet has been revised. This revision consists of changing the Design Hour Factor from "DHV" to "K" to match future traffic forecast provided by the Transportation Planning Unit. To reduce rework and avoid confusion during the plan checking and printing process, the use of the new title sheet is not mandatory until the January 2014 letting (October 15, 2013).

Please share this information with any personnel in your Business Unit that utilize the NCDOT plan sheet cell libraries.
