**American Association of
Motor Vehicle Administrators**

Information on NMVTIS Salvage, Junk and Insurance Total Loss Reporting Services

Entities must use a Reporting Service (*also called a Data Consolidation Service*) to report vehicles to NMVTIS. Once they register with one of the four Reporting Services (see listing below) they will be issued an **ID number,** also referred to as a **Reporting ID,** which they must use when they report vehicles to NMVTIS.

There are **four** NMVTIS Reporting Services available (see listing below). The first service is a free service; however, it offers only single-vehicle-at-a-time reporting via the Internet. The second service also offers free single-vehicle-at-a-time reporting as well as large batch reporting. If you have larger volumes of vehicles to report, it would be best to use either service 2, 3 or 4. **Please note, that there may be fees charged for these services.**

Approved Third Party Data Consolidators for Auto Recyclers, Junk Yards, and Salvage Yards

Please contact data consolidators for more information on reporting methods and technical specifications.
