Introduction

Title and Registration Manual

The Title and Registration Manual is provided primarily as a reference guide for titling and registering vehicles in the State of North Carolina. Procedures, requirements, and laws are subject to change, and may supersede the information shown in this manual. This manual can also be found on the NCDMV website.

DMV Mission Statement

The DMV Team delivers quality motor vehicle services, promotes highway safety, and furnishes timely and accurate information by providing excellent customer service, enforcing motor vehicle laws, and maintaining the integrity of official DMV records.

Vehicle Registration Section Mission Statement

To deliver quality titling and licensing services, furnish timely, accurate information, provide excellent customer service, and maintain the integrity of official vehicle registration records.

Chapter 1: General Information

State Titling and Registration System

The State Titling and Registration System (STARS) was implemented on, December 2, 1996, and is used to title motor vehicles and mobile homes, as well as issue plates and registrations, handicapped placards, correspondence letters and maintain the history of each record.

Titling

Titling records the ownership and any liens of a vehicle. A new title number is issued with any change in vehicle ownership or lienholder, when a title is lost and a duplicate is applied for, corrections to the title are made, etc. Titles can also be cancelled, branded, and junked. Titles are printed on secure paper and mailed to the owner if there are no liens. Titles with lienholders that are enrolled in the Electronic Lien Titling program are electronically held but can be printed at the request of the lender through their Service Provider. Titles that are mailed are not to be forwarded by the post office and will be returned to the DMV as Unclaimed. Unclaimed titles will be noted on the customer's record and the customer can contact the Division and ask for a new title to be mailed. Printed titles are generally printed within 7-10 business days, if not sooner and are mailed, however, instant titles may be issued to applicable titles at the time of titling for an additional fee. Instant titles are issued by the State Office in Raleigh, but additional locations can be found on the website under License Plate Agency locations.

Registration

Registration controls access to the public roadways by issuing operating authority to vehicles by issuing license plates (with or without stickers) and a registration card. Vehicles that are titled or leased, owned by temporary residents, or operated within North Carolina and subsequent states may be registered if proof of compliance with North Carolina insurance laws is provided. There are many different types of license plates. Some examples are, automobile, truck, farm, trailer, moped, motorcycle, transporter, dealer, military, elected and appointed official plates, and personalized and specialty plates. Transporter and dealer plates are assigned to the customer, not a specific vehicle, and can be used on any vehicle. Generally, specialty plates can be requested on line, by mail or at a branch office. The requested plate will be mailed to the customer after order fulfillment.

Most registrations are valid for one year and can be renewed on line, by mail or at a branch office. Property taxes must also be paid at the time of renewal. NC Combined Vehicle Registration Renewal and Property Tax Notices are mailed or emailed as a reminder to renew and pay property tax. Plates and stickers can be replaced or returned to the DMV (turned in) by mail or at a branch office and a duplicate registration card can be ordered online, by mail or at any branch office. Plates can be transferred from

one vehicle to another if both vehicles are owned by the same customer; proper transfer with the DMV is required. An active plate can be exchanged with credit for one of a different plate category. The weight that a vehicle is allowed to carry can be changed. If the customer wants to terminate the insurance and remove it from the road while the plate is active, the plate must be returned to the DMV (turned in) before canceling the insurance on the vehicle.

Registration services can be denied because the liability insurance coverage has lapsed, county taxes are not paid, child support payments are not current, past due inspections, emission stops (fines), DWI offenses, etc.

Other Services

Other services include issuing handicapped placards, either "permanent" valid for 5 years or temporary valid for up to 6 months. Outstanding fees can be paid. Documents such as tax receipts and insurance forms can be collected and sent to headquarters for processing. Customers can be created if they are not on the database. Names and addresses can be changed. Four types of addresses are collected: residence, mailing, situs (vehicle location), and one-time addresses used for mailing titles or registrations. Certified documents are printed and released to qualified persons.

A Notary Public or a Magistrate may administer an oath. Officers and employees of the Division of Motor Vehicles designated by the Commissioner of Motor Vehicles are for the purpose of administering the motor vehicle laws authorized to administer oaths and acknowledge signatures. In North Carolina a notary is required to affix his seal or use a notary stamp and give the date of the expiration of his commission. A Magistrate designates his position by adding the word Magistrate to his signature, as he has no seal. Notary requirements for the different states may be found by referring to the data in the Out-of-State Section.

Notary Duties and Requirements

The purpose of acknowledgment is to verify and authenticate the execution of an instrument, in order that such instrument may be recorded, and to furnish prima facie evidence of its authenticity.

Acknowledgment is:

To describe the actual physical fact of a person appearing before a notary or other proper
official and declaring to such official that a particular written instrument executed by him is

Chapter 2 Basic Title Information

- genuine and has been executed voluntarily.
- To describe the certification by the notary or other official that such instrument has been acknowledged. Both personal appearance and the certification are necessary to constitute a valid acknowledgment by law.

In the first instance the notary "takes" the acknowledgment: in the second instance, he "certifies" it. The test of "personal presence" as laid down by the Supreme Court will not permit any of the following methods of taking acknowledgments: telephone conversations, telegrams, cables, letter, affidavits, or any other method. The person signing and the notary must be together in the physical presence of one another. In taking acknowledgments a notary must make sure that the person who appears before him is the person he claims to be. If a notary is not personally acquainted with the person, he should require sufficient proof to satisfy that he is that person. A notary is not authorized to perform notary duties in situations where he himself is a party to or has an interest in the subject matter of the instruments, which require notary action.

Documents

If an out-of-state dealer uses our titles or MVR-2's for assignments, they must be notarized as our documents require notarization.

North Carolina documents for registration are acceptable when notarized in a state that does not require the seal. Except MVR-1, MVR-4, NC titles, etc. without seal.

Example: South Carolina does not require a seal and expiration date of commission.

Chapter 3: Independent Title Documents

Manufacture Certificate of Origin (MCO)

Requirements for Registration of New Vehicles

For a new and unregistered vehicle, the following is required:

- 1. Documentary proof of ownership usually MCO
- 2. Certification of liability insurance which may be made on the title, MVR-1, FS-1, or FR-2
- 3. Odometer Disclosure Statement
- 4. A bill of sale to establish the highway use tax due G.S. 105-187
- 5. \$66.75 title fee
- 6. Highway use tax or sales tax
- 7. Vehicle Property Tax or Limited Registration Plate (LRP)
- 8. Need to complete a MVR-1 title application
- 9. Proper ID as required by G.S. 20-52(A)
- 10. Vehicles must have a current North Carolina inspection prior to issuance of a license plate.

Documentary Proof of Ownership

- 1. When application refers to a new and unregistered vehicle sold by a manufacturer, the application shall be accompanied with a MCO (written in English), properly assigned to the applicant.
- 2. When the application refers to a new and unregistered vehicle sold by a dealer, the application shall be accompanied, with documentary proof of ownership. Manufacturer's Certificate of Origin G.S. 20-4.01, 52.1

The **MCO** is a printed certificate showing the original purchaser from the manufacturer. The standard MCO forms appearing in this manual have been approved for North Carolina use. Forms that deviate somewhat from this are not to be rejected when the information on the document includes the following:

- 1. The date vehicle was transferred from the Manufacturer (No alterations or strikeovers permitted)
- 2. The name of the distributor, dealer, or person to whom issued (No alterations or strikeovers permitted)
- 3. The description of the vehicle:
 - a. Trade name
 - b. Year model (No alterations or strikeovers permitted)
 - c. Body type
 - d. Motor and serial number for motorcycles, motor scooters, 3-wheel vehicles (No alterations or strikeovers permitted)
 - e. Identification or serial number (No alterations or strikeovers permitted)

The manufacturer's name and address may be preprinted. Countersignature of agent may be rubber stamped or written in longhand. The information may be written in ink or typed. An authorized distributor may countersign the manufacturer's certificates. Distributors usually countersign for foreign car manufacturers.

A MCO showing <u>Not a Lien</u> is not referring to a valid lien against the new purchaser, but a floor plan lien between the manufacturer and the assigned dealer. A lien release if not required.

Assignment of Manufacturer's Certificate of Origin

- 1. If the assignment is to someone other than a dealer no further assignment is to be made.
- 2. If the assignment is made to an out-of-state distributor and the distributor has assigned to another, it may be assumed that the assignment is proper in that state, but a North Carolina distributor that is not a dealer may not assign.
- 3. The MCO assigned to a dealer must show the dealer's name to agree with his dealer's certificate number. A dealer changing his name after a MCO has been transferred or assigned, may to avoid confusion, use the next assignment section for reassignment from the former trade name to the new trade name just as though a transfer of ownership had taken place.

 If John Doe is shown as purchaser and he holds a dealer's license under the name of Doe Motor Company, he may not make an assignment as John Doe, trading as Doe Motor Company. Instead, John Doe must register as a consumer-purchaser, obtaining a North Carolina title.

When the assignment is to a dealer, the reverse of the MCO should be used to make further assignments. This also applies to dealers for small one- or two-wheel trailers (2500 pounds or less) who are exempt from the requirements of the dealer's licensing law. The law provides that any dealer transferring a new vehicle to a dealer shall, at the time of transfer, give such transferee the proper MCO assigned to the transferee. Ownership does not pass until this is done. Each subsequent sale between dealers requires an assignment of the MCO. Once all the assignments on the back of the MCO have been used, additional dealer reassignments may be made by executing Form MVR-2 and attaching it to the MCO. A dealer license is not required to sell trailers on MCOs if trailers weigh 2,500 pounds or less. A Dealer license is required to sell trailers that weigh 2,501 pounds or more.

- 4. The lien information shown on the back of the MCO must be stamped paid showing countersignature or carried forward to the purchaser's application for title.
- 5. The acknowledgment of any executed assignment of the MCO must show:
 - a. Signature of seller. Rubber-stamp signature not acceptable. (The Attorney General has ruled that a person holding a valid power of attorney from a dealer may execute the MCO, although G.S. 20-52.1(C) states: "The dealer shall execute")

The execution of the MCO by the person holding a valid power of attorney for such purpose has the same legal effect as the execution thereof by the dealer. However, when the MCO is executed by other than the dealer with a power of attorney, a copy of the power of attorney must be attached to the title

file. The power of attorney should be for the execution of the specific MCO and should refer to the vehicle identification number.

- b. Person appearing before Notary Public, if space provided.
- c. Date of acknowledgment
- d. Seal, signature of notary and date of expiration of commission
- e. County and state in which notarization

Manufacturer's Certificate of Origin – Altered or Improperly Assigned G.S. 20-39, 52.1

Any alteration or strikeover on the face of the certificate and it must be returned to the manufacturer for correction. This would include any alteration in the date, year model, motor number or identification number. Also, any alteration as to name of purchaser or transferee from the manufacturer requires a new certificate from the manufacturer.

- 1. When a dealer sells a vehicle and inadvertently makes an assignment of the wrong MCO, the dealer may not void the assignment but should submit the MCO to the Division. Also furnish the correctly assigned MCO and the Division will void the first assignment section of the incorrectly assigned certificate and designate the second assignment section as the section for the first assignment. The dealer and the designated buyer must furnish a notarized affidavit (Form MVR-28 Affidavit of Facts Concerning Alteration of MCO or Certificate of Title) that they did not purchase nor accept delivery of the vehicle described on the incorrect MCO. If a lien is shown on the incorrectly assigned MCO, a lien cancellation is required unless the exact same lien is shown on the correct MCO. If the original MCO has been destroyed and imaged by DMV, the dealer may use Form MVR-2 for assignment to the correct purchaser with affidavits.
- 2. An assignment of a MCO cannot be voided after sale upon return of the vehicle to the dealer. Purchaser must apply for a certificate of title and assign to dealer.

MH Mobile Home (Manufactured Home - A structure, transportable in one or more sections, which in the traveling mode is eight body feet or more in width, or 40 body feet or more in length, or, when erected on site, is 320 or more square feet; and which is built on a permanent chassis and designed to be used as a dwelling, with or without permanent foundation when connected to the required utilities, including the plumbing, heating, air conditioning and electrical systems contained therein.

Specialized Body Types

2 MCO's for Motor Homes

When a manufacturer sells a chassis to a motor home manufacturer to be used as a house car, two MCO's are required when titling vehicles in which the chassis and body are built by separate manufacturers, one for the body and one for the chassis. Both MCO's are to be assigned to the purchaser. The make and the year of the vehicle is determined by the body and the serial number will be determined by the chassis. If the trade name and serial number of the body are identified on the manufacturer's certificate of origin for the chassis number, only one MCO is required.

Customized Vans

Application is presented with 2 MCO's, one describing the van and one for the conversion kit. Vehicles of this type **are not** equipped with permanent living and sleeping facilities and **are not** house cars. If unable to determine the correct body style, we recommend the owner complete Form MVR-51.

Vans (1) MCO

- 1. Any vehicle having the outward appearance of a van and being used commercially would be registered as a truck and license plate issued for the desired gross weight.
- 2. A van used as a private passenger would be registered as a van.
- 3. A bus equipped to carry more than 15 passengers would be registered as a bus.

Vehicles with A Special Body Other Than House Car

When a manufacturer's certificate of origin shows a cab and chassis, cutaway or without indication of a body type, which has been assigned to a body builder, the body builder will affix a special body such as rescue equipped, firefighting equipment, refrigerated body, etc. It is not necessary for the special body builder to furnish a MCO for the special body; however, a bill of sale is required. We register by make year model and identification of the chassis.

Custom Built Motor Vehicles and Trailers

A motor vehicle completely reconstructed or assembled from new or used parts. The vehicle will be registered showing make as "Custom Built" and year built will be the year model. The following is required:

- 1. Application for title, Form MVR-1, completed in full and signed before a notary.
- 2. Affidavit for Customer Built Vehicle, Form MVR-55 (notarized statement explaining how the vehicle was assembled from new and used parts).
- 3. Inspector's report
- 4. Odometer reading is required.
- 5. Furnish certificate of title or MCO for the frame, engine, and transmission as proof of ownership or file an indemnity bond. Any component part (engine, transmission) will require a bill of sale or a letter from a manufacturer/company from which it was purchased to show ownership of those parts.
- 6. Title fee of \$66.75
- 7. 3% highway use tax based on the total bills of sale for the entire purchase of new and used parts and labor.

Modified Utility Vehicles

The modified utility vehicle is a motor vehicle that is manufactured OR upfitted by a licensed manufacturer, dealer or person or business otherwise engaged in vehicle manufacturing or modification for off-road use and must meet the following statutory requirements:

- 5. Vehicle Property Tax or Limited Registration Plate (LRP)
- 6. The license fee is the same as a fee for a private passenger vehicle. The vehicle will receive a PVA plate, NOT a motorcycle or moped.
- 7. The body style will be MU
- 8. Requires a NC safety inspection prior to titling and registering.
- 9. Requires a Modified Utility Vehicle Affidavit (MVR-59) that will be completed and signed by the licensed manufacturer, dealer, or person or business otherwise engaged in vehicle manufacturing or modification for off-road use.
- 10. Manufactured assigned vehicle identification numbers (VIN) will be accepted unless it has been altered, incorrectly assigned, or missing. If the VIN is needed, License and Theft will issue a NCU number which is assigned through the same process as other NC VINS.

Additionally, these vehicles are only to be operated on streets and highways where the posted speed limit is 55 mph or less; provided, a modified utility vehicle may not be operated on any street or highway having four or more travel lanes unless the posted speed limit if 35 miles per hour less.

- 2. Owner(s) Name and Address

3. Lien Release

a. A title with a lien is mailed to the lienholder to hold until the lien is paid. Electronic titles are not printed unless electronically requested by lienholder. The lienholder shall within 10 days deliver the title to the person legally entitled upon payment of the lien. Titles may not be held by a lienor as a means of collecting open accounts.

Different Methods to Release a Lien:

- (1) Lien release is required if a lien is shown on the face of the title. The lien release must include a countersignature and date of release. If the lien is released on the correct line, then the name of the lienholder is not required.
- (2) The lienholder may reassign interest in the lien to another lienholder and then that lienholder would release interest in the vehicle.
- (3) Repossessions occur when the recorded lienholder repossesses the vehicle from the registered owner.
- (4) Transfer of equity occurs when the recorded lienholder transfers the lien from one owner to another owner for the same vehicle. The lien date would remain the same.
- (5) A lien appearing on the face of the title not marked paid and the same lienholder is shown on the title or title application, the lien on the face of the title does not have to be marked paid.
- (6) A lien, on an out-of-state title mailed to the lienholder does not require a lien release if the lien is transferred to a new owner. A title with lien mailed to the owner requires a lien release.
- (7) If it is impossible to obtain a lien release, the owner may furnish any evidence showing the lien is satisfied. A signed notarized statement is required from the owner explaining why they are unable to furnish a lien release. Division will send the lienholder a registered letter at last known address. If the title is for a mobile home, a court order instructing the Division of Motor Vehicles to release the lien must be surrendered before the lien will be released.

- (8) A lien with a corporate lienholder that has dissolved, ceased to do business, or out of business for more than 3 years is considered null and void.
- (9) An original lien contract, chattel mortgage, deed of trust, etc. Is acceptable if stamped "paid" or "lien satisfied" showing lienholder's name. A countersignature is not required.
- (10) A change in the lienholder's name may show successor to (name) or former name in lien release.
- (11) EMERGENCY LIEN RELEASE INSTANT TITLES AVAILABLE AT APPLICABLE LPA'S Effective 03/02/21, LPAs that issue instant titles have been given access to print instant titles for records where a lien has been released via the emergency lien release method. This method allows for the LPA to remove the EPH hold code off the title record and print the title the same day that a lien is satisfied. The customer will be able to purchase the instant title at any LPA instant title location for an instant title fee of \$105.75 with proper ID. Additionally, an authorized individual can go to any instant title LPA location to request an instant title to be printed if they have an MVR-69 properly completed and notarized. A customer has three calendar days to pick up the title after an emergency lien release has been issued by the lienholder. If the title is not picked up within the three calendar days, it will be printed in a batch process and mailed to the vehicle owner or a specified mailing address.

NOTE: If the customer does not do the instant lien release, the the lien holder will release the lien electronically and the title will be mailed to the customer at no additional fee.

4. Assignment of Title Registered Owner

Each assignment should include the seller and purchaser's hand printed and signed signature, notarization, date of purchase, and odometer reading if the vehicle is 20 years old or newer (applies to model year 2011 and newer).
- A vehicle registered in joint ownership requires both sellers to sign releasing their interest in the vehicle; however, only one owner needs to complete odometer certification.
- c. An alteration in the assignment will void the assignment. In this event, affidavits from all parties and a new assignment will be required.

5. Odometer Disclosure

In connection with the transfer of a motor vehicle, the transferor (seller) shall disclose the mileage to the transferee (buyer) in writing on the title or the document used to reassign the title. Lessor to lessee would use the same procedure. This written disclosure must be signed by the transferor, including the printed name, and shall contain the following information.

- a. Certification by the transferor (seller) that to the best of his knowledge the odometer reading:

Out-of-State and MVR-57

North Carolina Address on Out-of-State Registration G.S. 20-4.4

The law prohibits residents in North Carolina from operating within North Carolina a vehicle with license plates from another state. For this reason, every person who holds an out-of-state title or registration card with a North Carolina address must establish that he was not a resident of North Carolina at the time of registration. If he is a resident of North Carolina, he must state he has not operated the vehicle within North Carolina. If he fails to do this, he must obtain a North Carolina title and pay all taxes due before selling the vehicle.

When the application for registration is for a vehicle registered in another state, district, or territory the following is required. When an out of state title is jointly registered and joined by the word "or" or "and/or", either owner may execute the transfer on the title from joint to single ownership. When jointly registered on an out of state title and joined by the word "and", both owners must sign when transferring ownership from joint to single. Additionally, the maximum highway use tax (HUT) that will be charged for these joint to single out of state title transfers will be \$250.00 and the odometer will NOT require an ONC brand. See section 3 for individual state information.

If the lien has not been paid, the original North Carolina title, with lien released, would be required.

Antique vehicles, 1980 model year or older coming into North Carolina from another state will be required to obtain an examination through the License and Theft Bureau within one year of applying for title and registration. If an examination is not submitted within that year, registration will be denied, and the title application will be cancelled.

The following title services are not allowed when the original title status is an MVR-57.

Leased Vehicles G.S. 20-40.1,50

Leased vehicles requiring registration in North Carolina must also be titled in North Carolina, even if the lessor is a non-resident. A plate and registration may be obtained in either the lessor's or lessee's name depending on the lease agreement. If a plate and registration is required in the lessee's name, the form MVR-330 must be completed by the lessee and lessor to verify the ownership, length of lease, name of the lessee and certification of liability insurance. If the vehicle is already titled to the lessor in another state, the out of state title is required at the time of title and registration. If the out of state title cannot be furnished, the lessee must provide a copy of the out of state title along with a power of attorney from the lessor. The system will issue a 57-title number, which indicates the Division is waiting for the out of state title to be surrendered before printing the North Carolina title.

Assignment of Serial Number for Trailers (MVR-15)

All trailers must be identified with serial numbers. Trailers manufactured by the factory are given an identifying number. Trailers without serial numbers cannot be registered unless:

- 1. Ownership is established and proper ID has been furnished as required by G.S. 20-52(A)
- 2. If an out-of-state registration is furnished showing homemade trailer without a serial number, an NCX number will be issued to title and license the vehicle.
- 3. The NCX number is stamped on the rear axle and on frame near towing attachment.

MVR-15 is an assigned trailer identification number. The person who built the trailer or to whom the trailer was sold, prior to obtaining a serial number, must title in their name before selling. The MVR-15 is used as proof of ownership in lieu of regular title documents. It cannot be used by a purchaser attempting to obtain a new number because he does not have or cannot obtain the certificate of title.

Homemade trailers will show the make as homemade and the year built will be the year model.

The MVR-15 contains 5 sections, which must be completed.

- 1. Section A completed by the owner.
- 2. Section B completed by the owner signing in the presence of a notary.

- 3. Section C is the assignment of trailer identification number completed by a DMV Agent
- 4. Section D is the certification by an authorized representative of the North Carolina of Motor Vehicles, License and Theft Bureau or NC State Highway Patrol certifying that the assigned number has been properly cut or stamped on the rear axle and on the front frame near the towing attachment.
- 5. Section E includes a permit allowing the trailer to be moved without a license plate, for the sole purpose of having the serial number cut on the trailer and being inspected.

Once the serial number is assigned and affixed to the trailer, the MVR-15 must be submitted with Form MVR-1, \$66.75 title license fee and vehicle property tax or Limited Registration (LRP) if being operated and highway use tax based on the value of the vehicle.

If the serial number on the vehicle needs to be replaced, the North Carolina title should be submitted with Forms MVR-5 and MVR-15.

Example: Boat trailer serial number erased due to salt water; a serial number can be assigned by using MVR-15.

If MVR-15 is lost after a number was cut on the vehicle, duplicate Form MVR-15 must be obtained in order to title and/or license the vehicle.

If an out-of-state registration is furnished showing the make of the vehicle as homemade, without a year model and serial number, it is presumed that they register trailers without requiring title. To title and license the vehicle in North Carolina furnish the following:

- Proper ID as required by G.S. 20-52(A)
- 2. Out-of-state registration
- 3. Obtain an assigned serial number.
- 4. MVR-15 properly completed and certified by law enforcement.
- 5. MVR-1, Title Application
- 6. \$66.75 title fee
- 7. Highway use tax based on the value of the vehicle.

- 12. The same procedures will apply for retention of the bond.

If a vehicle is titled in a dealer's name for resale purposes only, the dealer would pay \$25.50 title fee and no highway use tax.

Note regarding mobile homes: A customer who cannot provide proper title documentation for a mobile home should obtain two appraisals. Signed and Hand Printed Signatures on Odometer Disclosure

Vehicles sold in North Carolina require the seller and buyer to sign and hand print their names; however, Odometer Disclosure Statements (Form MVR-180) that are received showing a computer generated, typed or hand printed name are acceptable if the signature instead of "hand printed" will also be allowed. If computer generated, it should comply with rules and statutes set forth by the North Carolina Secretary of State Notary rules and statutes. Each state's interpretation of hand printed on the odometer disclosure is different.

Truth in Mileage Regulations

Form MVR-180, Odometer Disclosure, and Power of Attorney

Any Power of Attorney, either general or specific, acceptable for transfer or registration of a vehicle can be accepted for signature on Form MVR-180, Odometer Disclosure or other conforming odometer statement. A Power of Attorney can be accepted on an MVR 180 if it causes the transferor (seller) and transferee (buyer) to become the same person. In this circumstance, however, a brand will be placed on the title, Odometer Not Certified (ONC).

Odometer Not Certified (ONC)

- Indemnity Bond and cannot obtain odometer statement from seller, applicant certifies odometer reading on MVR-1 and brand – Odometer Not Certified (ONC.)
- 2. Un-recovered theft Obtain affidavit and brand Odometer Not Certified (ONC.)
- 3. Government Seizure The purchaser must declare the mileage on MVR-1 and brand Odometer Not Certified (ONC.)
 - On the Government Form 97, odometer statement required unless it is determined that the vehicle was seized.
- 4. By use of Power of Attorney, other than MVR-63A, buyer and seller are the same.

Joint Ownership

It has been ruled that in the case of joint owners, either party may sign the Odometer Disclosure Statement. Only one signature is required.

Affidavit of Heirs, Form 317

Only one heir is required to sign the odometer disclosure statement. The individual shown on line 7 ofForm 317 cannot be that party.

Out of State Title Brands

Always bring forward brands shown on out of state titles.

Vehicles without Odometer

Obtain an affidavit from applicant – Do not brand.

Transferring Ownership from Proprietorship to Corporation or Personal Name

Odometer disclosure statement not required unless buyer and seller are different people. Show reading declared and do not brand unless indicated or prior brand shown.

Alterations on Odometer Disclosure Statement

Alterations or erasures in odometer information or vehicle identification number are not acceptable. Please use good judgement when a change in address or buyer and seller sign on wrong line.

Unable to Write

When the buyer or seller cannot write his name, an X is acceptable for his signature.

MCO

The MCO has an assignment to the dealer who places the vehicle in operation. This would require odometer reading only, no odometer statement. *When MCO is assigned to an individual separate odometer statement is needed.

If mileage in assignment is different on MCO and MVR-1, show higher mileage.

Court Order

A court order transferring ownership, odometer statement is not required. A court order requiring an assignment of title, odometer statement is required.

Gross Vehicle Weight Rating (GVWR) over 16,000

Vehicles in excess of 16,000 pounds do not require a disclosure statement.

Mileage Discrepancy or Alterations

- 1. If less than 1,000 miles do not question, accept odometer disclosure statement. Show mileage declared and brand accordingly.
- 2. If over 1,000 miles ask for Odometer Disclosure Statement, affidavits between parties where discrepancy occurred and a statement from the owner that the division will be held harmless in any action regarding the odometer disclosure. If the title has been issued, the title, MVR-5 and

\$25.50 would be required to correct the mileage.

Not Actual Mileage (NAM)

1. Brand Changes:

When title branded – brand can be changed to agree with current odometer statement unless brand is not actual mileage.

a. Vehicles over 10 years old (regardless of the date of sale) indicating odometer broken, mileage unknown, mileage discrepancy, not actual mileage.

Show last mileage – brand – Not Actual Mileage (NAM.)

- b. If over 10 years old and odometer broken with no mileage given show) Not Actual Mileage (NAM.)
- c. Advise the customers about the law regarding repair.

Need odometer statement declaring reading on the odometer head.

Show reading on odometer head and brand – Not Actual Mileage (NAM.)

d. An odometer statement indicating broken – show mileage and brand – Not Actual Mileage (NAM.)

Exceeds Mechanical Limits (EML)

Head on the odometer displays only 5 digits (reading exceeds 99,000 and odometer shows 5,000, show as 5,000 EML)

Odometer Not Certified (ONC)

Does not reflect the actual mileage and should not be relied on. ONC can be changed when a vehicle is sold. The odometer of the sold vehicle is verified by the seller and the buyer.

Powers of Attorney G.S. 20-39

A registered owner may appoint an individual, corporation or a representative of a corporation as power of attorney to act on their behalf.

Power of Attorney May Be Used When:

Power of attorney properly assigned in the presence of a notary public by the owner of a vehicle; or in the transfer of a vehicle and of an assignment of the owner's certificate of title and bill of sale provided the authority is so granted in the power of attorney. The original power of attorney must accompany the document executed. A copy of a power of attorney, which grants unlimited authority to another, may be accepted in lieu of the original.

- 1. A Manufacturer's Certificate of Origin may be assigned for a dealer by power of attorney
 - provided the power of attorney form shows the vehicle make and identification number and is attached to the Manufacturer's Certificate of Origin and the title application.
- 2. Any power of attorney, either General or Specific, acceptable for transfer or registration of a vehicle can be accepted for signature on odometer disclosure statement. The power of attorney cannot be accepted if it causes transferor (seller) and transferee (buyer) to be the same person.

Types of Power of Attorney Documents

Standard Power of Attorney

- 1. Valid when the person granting the power of attorney is able to make decisions and conduct their own business affairs.
- 2. Becomes nullified when a person granting power of attorney can no longer act on his own behalf.

Durable Power of Attorney

- 1. "Durable" power of attorney continues in effect when the person granting the power of attorney is unable to make decisions or act on their own behalf.
- 2. The Durable power of attorney will indicate date it becomes effective:
 - a. Document may show "This power of attorney shall not be affected by my subsequent incapacity or mental incompetence," meaning it is in effect now and will continue after incapacitated or;
 - b. Document may show "This power of attorney shall become effective after I become incapacitated or mentally incompetent", meaning it can only be used after incapacitated.

General/Unrestricted Power of Attorney

Grants full power for one individual to act for another. Copies are acceptable. A double power of attorney is acceptable providing the first power of attorney is a general power of attorney. Limited Power of Attorney

Grants limited authority to another in all matters specified in the power of attorney. Copies are acceptable.

Specified/Restricted

Grants limited authority for a specific vehicle identified in the power of attorney. Requires original power of attorney.

Any power of attorney acceptable for transfer or registration of a vehicle can be accepted for signatures on an odometer disclosure statement. Power of attorney can be accepted if it causes transferor (seller) and transferee (buyer) to be the same person. If the division accepts these documents as being the only documents that the buyer can produce, a brand will be placed on the title, Odometer Not Certified (ONC.)

Secure Power of Attorney (MVR-63A)

A "secure" power of attorney is a power of attorney, that conforms to the federal regulations pertaining to odometer disclosures. An original secure power of attorney is required. It is printed with certain security features, which deter or detect counterfeiting and/or reproduction and will allow alterations to be visible to the naked eye. Form MVR-63A must be used in the following situations and may not be used in any other circumstances:

- 1. The owner's title is not available because it is held by the recorded lienholder.
- 2. The owner's certificate of title has been lost.

In completing Form MVR-63A, the seller/transferor must declare the odometer reading at the time of sale in "Part A" in the same manner on the title if the title were available. All information must be shown in "Part A", such as actual mileage or indication why it is not actual mileage, names hand printed, signed and dated. The seller/ transferor should also appoint the buyer/transferee as his or her attorney-in-factto apply for title or apply for duplicate title and complete the odometer declaration when the title becomes available.

The person granted the power of attorney must then transfer this information onto the North Carolina title when it becomes available. If the vehicle is sold before the title becomes available, the dealer may sell the vehicle by having the purchaser complete "Part B" of the form acknowledging the odometer declaration made by the dealer. The dealership has the authority to acknowledge the odometer reading in the assignment of title on behalf, so that a North Carolina title may be obtained.

When the title becomes available the dealer who has been granted power of attorney on the "secure" power of attorney must transfer the odometer certification onto the certificate of title. The dealer must then complete Part C, certification on the bottom of the form, indicating that the dealer has transferred all of the odometer information on the title document as it was shown in Part A of the form.

The dealer granted a power of attorney by Form MVR 63A must submit the form to the Division with an application for title, all required documents and fees.

A dealer can use Form MVR-63A to make odometer disclosures on vehicles to be sold out-of-state without having to clear title in the dealer's name. All out-of-state transactions involving the use Form MVR-63A require the original form with the original signatures.

When a vehicle with a lien recorded through the ELT process is sold to a dealer, the owner must complete Form MVR-63A because the owner does not have possession of the title. However, once the title is received by the dealer, it is clear of lien, which causes a problem with the acceptance of the Secure Power of Attorney. If the dealer attaches a statement to the title advising the vehicle was subject to a lien recorded through the ELT process and you determine the out -of-state title was issued clear of lien after the date of sale, it is acceptable to use the Secure Power of Attorney for the assignment of title.

Part A: Appoints <u>Buyer</u> as POA to apply for a title or duplicate.

Allows buyer to certify odometer when title comes in

Part B: If sold before the title becomes available, <u>dealer</u> may sell if <u>buyer</u> completes this section.

Allows dealer to acknowledge odometer so title can be obtained.

Part C: Dealer must transfer information to title when it becomes available.

Dealer completes Part C to certify that information was transferred to the title.

Dealer submits MVR-1 and all other docs and fees to DMV

General Rules

- 1. A person appointed as power of attorney and the person countersigning for the dealership can be the same person.
- 2. Part A and C, or Part A, B and C; of the Form must be completed but never Part B and C only. A secure power of attorney cannot be used with a Manufacturer's Certificate of Origin.
- 3. The secure power of attorney can be used with any North Carolina title but only when title is lost, or lien is recorded against the vehicle.
- 4. The person appointed as power of attorney must personally sign his or her name and/or handprint; however, the person's name giving the authority can be typed, printed, or computer generated. This applies to all types of power of attorneys. If computer generated, it should comply with the North Carolina Secretary of State Notary Rules and Statutes.

Example: John Adams gives power of attorney to Mary Smith, Mary must personally sign and/or hand print her name; however, John Adams' name can be printed, signed, typed or computer generated. The emphasis is on the person appointed and not the grantor.

Questions and Answers

- 1. Can a standard power of attorney be used to sign a secure power of attorney? No, exception – general power of attorney.
- Can a secure power of attorney be used from dealer to dealer?
 No, only from seller to dealer and dealer to buyer when the title is lost or physically held by the lienholder.
- 3. Can a dealership be appointed as power of attorney? No, only an individual with the dealership.
- 4. If the person appointed as power of attorney and making certification on the secure power of attorney dies before completing the title, is the power of attorney form still valid?

 No, the secure power of attorney becomes null and void.
- 5. What happens if a salesperson or title clerk is appointed as power of attorney for a dealership on secure documents and the appointed individual leaves the dealership before the title is completed?

 The secure power of attorney becomes null and void. If unable to locate the former owner, the new purchaser must file an indemnity bond to title the vehicle.
- 6. If an error is made on the secure power of attorney, will it be acceptable?

 No, requires a new secure power of attorney. The only error allowed is in the address.
- 7. If a title is in joint ownership, are both owners required to sign the secure power of attorney? Yes, both owners must sign secure power of attorney, however, only one owner has to verify the odometer reading. The secure power of attorney allows for transfer of ownership so bothsignatures are required on the secure power of attorney. A secure power of attorney cannot be used from dealer to dealer.

ECOURTS

North Carolina courts are transitioning from paper to digital filing system. This process will allow customers to file and receive a new electronic version of court orders from the Clerk of Court portal. Please see the attached example forms currently processed through the Division. Signatures will now be electronic, and seals will not be raised on court orders filed/approved using this new process.

An owner dies intestate (without having made a will) and no Administrator qualifies:

Release by Heirs Form MVR-317

All heirs shown in Number 6 on Form MVR-317 must sign in the presence of a notary. The name shown on line 7 must be titled in their name before selling, unless form shows vehicle assigned to NC dealer. An assignment on title is not required if form identifies vehicle. The clerk of Court Office must complete the reverse side of form. Secure Form MVR-317 must be used since transfer of ownership is involved.

Form MVR-317 is acceptable without the signatures of the children if the deceased died intestate (no will) and the net property does not exceed \$15,000 in value. If the Clerk of Court does not refer to G.S. 29-14 or verify that signatures are not required, signature of all heirs would be required.

When an MVR-4 is used with Form MVR-317, all heirs must sign the front of the MVR-4 (Application for Duplicate Title) in the presence of a notary if the vehicle is being transferred to a disinterested party. If the transfer is to one of the heirs, that heir completes the front section of the form, signing for the deceased owner.

Summary Administration

A Summary Administration is an estate where surviving spouse is the sole beneficiary and is responsible for the debts of the deceased. When a decedent dies testate or intestate with the surviving spouse as the sole heir, the surviving spouse may file a petition for Summary Administration with the Clerk of Superior Court of the county where the decedent resided at the time of death. This procedure is available if the decedent died partially testate, provided the surviving spouse is the sole heir under the will and is also the sole person to whom the property has been granted.

This procedure is not available if the decedents will provide that it is not available or if the will to the surviving spouse is in trust rather than outright.

The presentation of a certified copy of the order shall be sufficient to transfer to the spouse of any property or contract owned by the decedent at the time of death including the title and license to a motor vehicle registered in the name of the decedent. The person paying, delivering, transferring, or issuing property pursuant to the order is discharged and released to the same extent as if the person dealt with a duly appointed personal representative of the deceased.

An application for Probate and Petition for Summary Administration is not acceptable as an Order of Administration. The application must be submitted to the courts for the Order of Summary Administration to be issued.

Death Certificate

WHEN THE DEATH CERTIFICATE MAY BE USED WHEN TRANSFERING A TITLE

Joint Tenants with Right of Survivorship (JTWROS)

Titles are issued with right of survivorship, but the title must specifically provide for this and after the name of one of the joint owners should appear JTW ("As Joint Tenants with Rights of Survivorship.") as long as both owners sign the MVR-1. When a title is issued showing "JTW", a death certificate is sufficient proof to allow the survivor to transfer the title. Also acceptable are Letters of Administration or Affidavit of Heirs. The title will print showing only "JTW" after the name.

NOTE: A Death Certificate can be used to removed a deceased owner's name from a title of a mobile home, if, it is jointly titled in the names of both spouses.

Altered Assignments and Alterations on Documents

2 Items Constitute the Sale of a Vehicle

- 1. Proper assignment of the title document
- 2. Delivery of the vehicle

6 Items Constitute the Proper Assignment of a Title Document

- 1. Purchaser's name and address
- 2. Date of sale or date of delivery
- 3. Seller's Signature

- 4. Odometer reading
- 5. Notarization
- 6. Damage Disclosure Statement

Affidavit of Facts Surrounding the Incorrect Assignment of a Manufacturer's Certificate of Origin or a Certificate of Title (Form MVR-28) is used when an alteration has been made in the assignment of any title document.

If an assignment is made in error on the title document and has not been notarized, affidavits from the seller/purchaser are not required; however, if a lien is shown, an affidavit from the lienholder is required.

Minor alterations acceptable without affidavits (MVR-28)

- 1. First name shown as Patsy, marked through and name corrected to Patricia (with statement on margin, Patsy is nickname.)
- 2. Title shows J.C. Harris, marked through and name shown as John Charles Harris (with statement on margin, one and same initials.)
- 3. Changes in address
- 4. License plate number to be transferred.
- 5. Last name spelling of sound alike names Louis or Lewis, Reaves or Reeves, Brown, or Browne

If an assignment is made to husband and wife or two different owners, it is not acceptable to rule through one name. To remove one name from the assignment you must have MVR-28 voiding the assignment and new assignment from the seller to the purchaser.

When an MVR-28 is received to void an assignment on an MCO, Title or MVR-2, the altered assignment is not acceptable to transfer ownership. A statement from the notary is not sufficient. A new assignment will be required in addition to the affidavits.

Alterations in the Assignment on Title Documents

If a seller signs (in error) on the purchaser's line.

- 1. A line may be drawn through the wrong name.
- 2. Purchaser's name entered above.
- 3. Seller signs in correct place.

A notarized assignment has been made and delivery date shown.

1. The purchaser must title in their name.

Alteration in the acknowledgment requires a statement of facts signed by the notary. Alteration in the sale date requires a statement of facts by both the seller and purchaser.

Titling Vehicles in Trust

A <u>Trust</u> is a person or agent, such as a bank, holding legal title to property in order to administer it for a beneficiary.

A **Grantor** is the person who requests trust.

A **Trustee** is the person who administers the trust.

According to the US IRC a Trust may or may not be a separate entity for tax purposes. To determine the Highway Use Tax that is due at the time of transfer the customer must advise whether the Trust is a separate entity. A trust is capable of owning property through a trustee. An Express Trust is a Trust which is created by a properly executed written instrument that outlines the terms and conditions of the Trust. Even though the identity of the owner and the trustee may be one and the same with regard to the Trust, in many cases they are two entities. Thus, when property is transferred, the legal ownership has changed.

If the Trust Agreement has several trustees, all must sign Form MVR-1. The Trust must specify if only one trustee can sign for all trustees, in order to accept only one signature on Form MVR-1. The trustee of a trust holds legal title to property, which is held in trust. Therefore, the trustee is the legal owner of the property, and the title must show the name of the trustee. Vehicles titled in the name of an individual requesting a correction to the name of a trust are not acceptable.

Example: John Robert Doe, Jr. to the Health Trust will be registered as John Robert Doe, Jr. Trustee.

The trustee or receiver of an estate that possesses a vehicle acts in lieu of the owner listed on the title.

Living Trust

Is a legal document that gives instructions on how property will pass to survivors. While living the grantor (the person requesting the Living Trust agreement) may transfer ownership of property to the trust yet maintain control.

A <u>Revocable Living Trust</u> includes instructions concerning what the Trustee can do with the assets (i.e., invest, give to the Grantor for living expenses, name a successor Trustee if the original Trustee dies, and what to do with the funds if the Grantor dies.) When the Grantor of a Revocable Living Trust dies, the assets in the Revocable Living Trust are not part of the Grantors' estate and are not subject to probate.

The transfer of a vehicle from the owner to the trustee of the Trust constitutes a transfer of title in every case. The division requires a copy of the front and back page of the Trust. The only means of identifying the Trust or the authority of the trustee to act on behalf of the Trust is the Trust agreement itself. Therefore, the front and back page of the Trust serves to identify the Trust and the Trustee.

Vehicle Being Transferred into The Name of a Trust Requires:

- 1. An assignment of the title
- 2. Front and back page of the Trust to ensure that:
 - a. Trust is valid.
 - b. The trustee is in fact authorized to act on behalf of the Trust.

- 3. \$66.75 title fee
- 4. 3% Highway use tax based on computer value of the vehicle (unless accompanied by form MVR-613, "Highway Use Tax Exemption Certification", stating transfer is being made to a non-separate entity or entity whose existence is disregarded under US IRC, then up to \$40.00 Highway Use Tax would be due) If MVR- 613 "Highway Use Tax Exemption Certification", states the transfer is being made to a revocable trust from an owner who is the sole beneficiary of the trust, then no Highway Use Tax would be due.
- 5. Plate cannot be corrected to the Trust.
- 6. License fee and Vehicle Property Tax or Limited Registration Plate (LRP)

Example: John & Sally Smith, trustees of the Smith Revocable Living Trust U/A dated October 10, 1998. Once issued the title will print as:

Smith Revocable Living Trust U/A dtd. 10/10/98

John Smith, Trustee Sally Smith, Trustee

Note:

A North Carolina Title issued in the name of a Trust or Trustee does not require a copy of the front and back of the trust when the vehicle is being sold. Research of the records is required to verify that the trust copies are on file and that the person signing is authorized by the Trust.

Guardian

One who is legally responsible for the care and management of a person is considered by law to be incompetent to manage his own affairs. Evidence of guardianship from the Clerk of Court is required. A copy is acceptable.

Custodian

One who guards or maintains records. Evidence of custodian is required. A copy is acceptable.

- 1. If the seller is living, the Division does not need papers appointing custodian.
- 2. If the seller deceased, the Division requires papers appointing custodian.
- 3. When registering or selling the vehicle, only the custodian's signature is required.

Deficiency Judgment

The Clerk of Court's Office issues a deficiency judgment when a deficiency exists in an estate. A deficiency judgment is acceptable to register or sell a vehicle if the applicant named on the document, is the surviving spouse. If the applicant is not the surviving spouse, Form MVR-317 or administration papers are required. The vehicle must be identified on the form.

Chapter 7, 11, 13-Bankruptcy

Transfer Upon Order in Bankruptcy

A Vehicle Sold as A Result of a Bankruptcy Will Require the Following Documentation:

- 1. Papers appointing Receiver or Trustee or Order of Appointment of Receiver.
- 2. Receiver or Trustee executes Section A if title is available.
- 3. If the title is not available, the receiver or trustee must advise and execute a bill of sale for the purchaser.
- 4. A true copy of the Order of Sale (Trustee can certify to being a true copy) or,
- 5. Order of Referee approving sale.
- 6. All liens must be released by the trustee.
- 7. If possible, obtain an odometer disclosure form.
- 8. If the vehicle was registered in North Carolina, a letter of cancellation is written to the registered owner with a copy to any recorded lienholder.

If bankruptcy is being filed under Chapter 7, it is not necessary to request number 5, which is the Order of Sale. A Chapter 7 Bankruptcy gives the trustee the authority to sell assets without a court order.

A Layman's View on Bankruptcy

Chapter 7 is a straight liquidation and involves the selling of one's assets to pay debts. A party may file for bankruptcy voluntarily; however, involuntary proceedings may be brought against the owner by creditors, unless a farmer. An individual or a business may use a Chapter 7 bankruptcy.

Under Chapter 7 bankruptcy, the owner must furnish the court a list of what is owned, and all debts owed. The court orders the assets to be sold, distributes the money it raises to the creditors and determines who is to be paid first.

Chapter 11 is a re-organization for companies that want to stay in business. The company must file a disclosure statement outlining the business' financial condition and plans for reorganization. The plan is then voted on by the creditors and confirmed by the court. Regular payments are then made on the debt. This procedure does not require a court appointed trustee.

Chapter 13 is also known as the Wage Earner's Plan and must be used by individuals only. Must have a stable, regular income and a limited amount of debt. The goal is rehabilitation. Regular payments will be made through a court appointed Trustee.

Limited Liability Companies -LLC

The Limited Liability Company, or LLC, is an unincorporated association that offers an advantageous combination of limited liability and special tax treatment. A well-designed LLC combines the best features of both corporations and partnerships by:

- 1. Allowing owners to be natural persons or partnerships, corporations, or other entities.
- 2. Providing limited liability to its owners.

- 3. Permitting its owners to participate in the management and control of the LLC's business without jeopardizing their limited liability; and
- 4. Being classified as a partnership for tax purposes, which allows an LLC to avoid paying taxes on its income by passing through to its owners their proportionate share of the LLC's income, expenses, gains, deductions, and credits; these owners will report such items on their personal tax returns.

Title transfers being made to limited liability companies should be processed in the same manner as corporations in determining whether to grant a partial exemption from the Highway Use Tax under G.S. 105-107.6(b) (2.)

- 4. If not on loan, the school will title or lease vehicle and pay appropriate fees.

NC Title Canceling to Real Estate

To cancel a title for a mobile or manufactured home as real property, an affidavit (Form MVR-46G, Cancellation of Mobile Home Titles) must be presented to the Division of Motor Vehicles. The affidavit must be signed by the owner and any existing lienholders and must declare that the property has been listed with the Register of Deeds. The registered owner indicates on the face of the title "wheels and axles removed". The title is submitted to the Division without fee.

NCGS 20-109.2(a1) enables customers to cancel manufactured home titles to real estate without physically surrendering the titles. This means that an indemnity bond is not required to title mobile homes in the new property owner's name when canceling titles to real estate under this provision.

In the event that a customer that is not listed on the title record as owner request to cancel the title to a manufactured home under this provision, they must provide the following:

- 1. Tax record showing the manufactured home is listed for ad valorem taxes as real property in the name of the owner of the real property on which the manufactured home is affixed.
- 2. Completed MVR-46G.

When a court order is presented instructing the Division of Motor Vehicles to cancel a mobile home to real estate, the MVR-46G would not be required.

- 2. Inspector's report for verification of VIN # only
- 3. A notarized affidavit from the owner stating that the mobile home is no longer real property.
- 4. \$25.50 title fee

Chapter 4

If an original lien release is unable to be provided by the lienholder, an MVR-6B will be provided to the customer to assist in the release of the security interest on a manufactured home. The form will be filled out by the customer and once received by the Division a certified letter will be generated to the lienholder to receive a lien release by the Division. If a lien release is not received by the Division within 15 days of notification, then the Division will review and release the lien.

Reassignment of North Carolina Title and MCO

- 1. Dealer's name must match.
- 2. Assumed name must be filed with License and Theft Section of DMV.
 - Example: MCO shows trade name of vehicle as Hyundai and assignment by manufacturer to dealer shows vehicle sold to Anywhere Motors Hyundai; however, assignment on reverse side of MCO shows Anywhere Motors Incorporated. The assignment should show as Anywhere Motors Incorporated/DBA Anywhere Motors Hyundai.
- 3. Form MVR-2 must be used by North Carolina licensed dealers to make reassignments on North Carolina certificates of title and manufacturer's certificate of origin, provided there has been a proper assignment of the North Carolina title or manufacturer's certificate of origin to the dealer. The first assignment should be made on the North Carolina title and/or MCO, and then additional assignments may be made on the title or the MVR-2 (Dealer's Reassignment Form.) An out-of-state dealer using our MVR-2 or North Carolina title must sign and/or countersign in the presence of a notary.

Reassignment On Out-of-State Titles

- 1. Form MVR-2 must be used by North Carolina licensed dealers to reassign out-of-state certificates of title that have been properly assigned to the reassigning dealer.
- 2. Similar forms from other states will be recognized in North Carolina for reassignment of the document described in the same manner as their use are permitted in their state.
- 3. If out of state dealers use our titles or MVR-2's for assignments, they must be notarized, as our documents require notarization.

Reassignment By an Insurance Company

Insurance companies licensed in North Carolina by the Commissioner of Insurance may use Form MVR-2 in the same manner as dealers for vehicles acquired as part of an insurance settlement and ownership to the vehicle is being taken by an insurance company for the purpose of salvage or resale. In all such instances, a specific signed statement is required from the insurance company which states that the company is a North Carolina licensed insurance company, and that acquisition of vehicle is part of an insurance settlement. This may be typed on the margin or separate document.

Reassignment By State Board of Education to County Board of Education

The State Board of Education may reassign North Carolina titles and manufacturer's certificates of origin to County Board of Education without obtaining title in their name. County Board of Education may also reassign to the State Board of Education. A stamped signature is acceptable from the Board of Education in the assignment of a North Carolina title and manufacturer's certificates of origin.

Penalty Fee

If a purchaser of a vehicle, previously registered in North Carolina, fails to make application for transfer within 28 days from the date of delivery or notary date, whichever is later, the owner will be subject to a late penalty of \$20.00 (If the 28th day falls on a Saturday, Sunday, or a holiday observed by the Division, the 29th will be the application date.) Title transfers received through the mail by the Division must be postmarked within 28 days to avoid the penalty. The penalty also applies to vehicles purchased from dealers or re-possessors.

A penalty fee is determined by counting the 1st day after notary, purchase, and/or sale date in the assignment to the applicant.

Penalty Fee Is Due Only On North Carolina Title Transfers and Duplicate Title Transfers Penalty Fee Is Not Due If Transfer Is From:

- 1. Single to joint
- 2. Joint to single
- 3. Joint to joint
- 4. One owner remains the same.
- 5. Transfer upon Inheritance, Bankruptcy, Salvage
- 6. Dealers or re-possessors clearing title in their name.
- 7. Title document reassigned to out-of-state dealers; out-of-state dealer reassigns to North Carolina purchaser.
- 8. Proof of ownership is MCO, or out-of-state title and last assignment is made to a North Carolina dealer.

Instant title fee \$105.75 (front side of MVR-4 is \$25.50) and transfer to purchaser (reverse side of MVR-4 is \$105.75 for an instant title). Instant titles will be issued on the 16th day.
- 3. Highway use tax will be assessed against the new purchaser.

A mandatory 15-day waiting period is required before the title can be issued in the new purchaser's name.

Title Corrections and Substitute Title (MVR-5)

Form MVR-5 may be used for corrections of a title already issued or for issuance of a substitute title. A substitute title is when the alterations are such as to render the original title void for the purpose of reassignment. To issue a substitute title the following is required.

- 1. North Carolina title
- 2. Title fee of \$25.50
- 3. Form MVR-5 signed by the registered owner in the presence of a notary declaring the changes or alterations and Form MVR-28 Affidavit of Facts.
- 4. Odometer reading is required on all vehicles 20 years old or newer.
- 5. Owner (s) must check the block on the form indicating disclosure of personal information or not.

Title Corrections

MVR-5, NC title, odometer reading, and proof of liability insurance required for:

- 1. Name changes due to marriage, divorce, or naturalization.
 - a. Naturalization papers should be inspected and returned. Do not copy naturalization papers or submit them to Division.
- 2. Name changed by permission of court, requires a copy of the court order.
- 3. Correction of title due to an error in the original title.
- 4. Correction of a lien requires confirmation by the incorrect lienholder.
- 5. Change in body style describing the changes made to the vehicle.
- 6. Change of name by a male due to marriage acceptable without presenting a court order authorizing the change.

If a title is being corrected due to a name change, the customer must change their name on their driver's license prior to submitting a change request for title. A vehicle registered in joint ownership changing name due to marriage etc., requires only the signature of the person with the name change and not both owners.

In the event the title is being held by a recorded lienholder, the registered owner must furnish all documentation, fees and the Division will recall the title from the recorded lienholder unless the title is held electronically.

RULES AND REGULATIONS CONCERNING CHANGES OF MOTORS, BODIES, FRAMES, ETC.

- 1. A certificate of litle follows the vehicle rather than the motor. When another motor is placed in a vehicle, an application for correction of the certificate of title should be filed with the Division of Motor Vehicles. (Exceptions: The V-8 Ford, Mercury and Lincoln products are not assigned motor numbers. Therefore, the change of motor will not affect the identification numbers located on the frame and will require no notice to the division. The registration of vehicles manufactured in 1954 and subsequent years is by the identification number (serial number), consequently, when motors are changed in these vehicles, a notice to the Division of Motor Vehicles is not required.)
- 2. If the replacement motor is a new one, a bill of sale covering the purchase of it should be attached to the application for correction; and if the motor is used and currently registered in North Carolina, the title properly assigned to the applicant is required for cancellation or correction, depending on the disposition of the body and chassis from which the motor was removed. If the motor is used but not currently registered in North Carolina, a bill of sale is required to establish ownership.
- Body changes require a correction of the certificate of title. When one body is removed and another factory-built body is used to replace It, the certificate of title for both vehicles should accompany the application for cancellation or correction, depending on the disposition of the chassis and motor from which the body was removed.
- 4. The certificate of title for a vehicle in which a motor Is being placed must accompany the application for correction. If the certificate of title is lost, an application for a duplicate certificate of title must accompany the application for correction.

NOTES

- Note A If the registered owner's name has been changed by permission of the courts, a certified copy of the court order, authorizing the change, must accompany the application.
- Note B Firm and trade names may be corrected when the ownership remains principally the same. The incorporation of partnerships and proprietorships requires a transfer of the title and a correction of the registration plate record.
- Note C If the application is to correct an error in the motor or serial number(s), it is recommended that a pencil rubbing be made and attached to the application.
- Note D A change in the name of the lienholder requires a confirmation by the llenholder whose name is recorded incorrectly.
- Note E If the application is to correct the identification number(s) due to a change of a motor or a body, give the former number(s) replaced, the date and the source of purchase of the motor or body used for replacement and whether purchased new or used.
- Note F An assignment of a certificate of title by an owner(s) can be voided only if no sale occurred. An application for a substitute title must be accompanied by affidavits, signed by all parties concerned, that no sale was made.

Lien Recordings (MVR-6)

North Carolina is the recording house for liens on motor vehicles and notice is given to all interested parties either electronically or by certificate of title. Also, included are mobile homes not converted to real estate.

A lien or security interest is an interest in a vehicle created by a security agreement that secures payment or an obligation. Security interest includes:

- 1. Chattel mortgage
- 2. Conditional sales contract
- 3. Chattel deed of trust
- 4. Interest of a lessor

A promissory note is not a valid lien.

MVR-6 (Rev. 9/21) North Carolina Division of Motor Vehicles

LIEN RECORDING APPLICATION

APPLICATION MUST BE FILED WITHIN 20 DAYS OF DATE OF SECURITY AGREEMENT OR LIEN DATE WILL BE PERFECTED BY THE DIVISION TO THE DATE OF RECEIPT OF APPLICATION.

This application must be accompanied with the certificate of title unless it is in the possession of a prior lienholder. The Division, upon receipt of the application, will procure the title from the prior lienholder for the purpose of recording the new lien and will return the title to the first lienholder and notify the subsequent lienholder(s) that additional lien(s) has been noted on the certificate of title.

Specific Rules for Lien Recordings

- 1. MVR-6 must be legible and free of alterations.
- 2. Vehicles registered in plural ownership require the signature of all owners.
- 3. Mobile home sections require lien-recording application for each section. The lien must be against the complete vehicle, not just one section.
- 4. It is permissible for an owner to hold a lien against his vehicle. This normally occurs with leased vehicles.
- 5. If a vehicle is owned jointly, one of the joint owners may hold a lien against the vehicle.
- 6. Applications submitted **by a lender with a NCDMV issued ID number** may be signed by each owner or authorized representative **electronically without notarization**. A lender that has a NC DMV issued ID number no longer is required to submit the contract when recording a lien when the customer failed to sign the actual lien recording application (MVR-6).
- 7. All existing manufactured homes with a lien over 30 years old that is recorded with or without a maturity date and the lienholder has NOT renewed the lien prior to the expiration date, the lien will automatically expire and can be removed by the Division without proof of affidavit or sending the letter and aging 15 days.

Power Of Attorney Submitted With MVR-6

The power of attorney form must state for mortgage or lien recording.

General power of attorney can be used to record a lien without stating "for recording or encumbrance of a lien."

Perfecting Lien Dates

Any title application or lien recording application not received within 20 days, the lien date will be perfected or changed to the date the application was received by the Division. All liens are recorded in order of priority.

Example: Title application or MVR-6 shows:

1st lien dated 6-1-20 to Anytime Bank

2nd lien dated 7-1-20 to Finance Company Application or MVR-6 is received on 7-6-20.

The priority of the lien dates will cause the 1st lien to become the 2nd lien and the 2nd lien to become 1st lien. The title will be issued showing:

1st lien 7-1-20 to Finance Company

2nd lien 7-6-20 to Anytime Bank

Usually, the first lienholder will resubmit title with both liens marked paid, new MVR-6 declaring liens and fee of \$25.50. This is to ensure that first lienholder is shown as first.

A lien perfected in another state is valid in this state if the lien remains in effect and the lien is recorded in this state.

Lien Recording with NC Title

- 1. An application for recording of lien (MVR-6) properly completed (indicating lien date, lienholder's name, and address), signed and notarized.
- 2. North Carolina title
- 3. Fee of \$25.50

Lien Recording without NC Title

Title held by first recorded lienholder:

- 1. Application for lien recording MVR-6
- 2. Fee of \$25.50
- 3. Division will recall title from the recorded lien holder unless the title is held electronically

Change of Name and Recording of Lien

- 1. North Carolina title
- 2. MVR-5 declaring name change (show the incorrect and correct name) and lien information.
- 3. Fee of \$25.50

Lien Recording and Title Lost

- 1. MVR-6 declaring the lien signed by the owner in the presence of a notary.
- 2. MVR-4 completed in the same name as the original title, signed and notarized.
- 3. Affidavit of first lienholder, if lien on the original title, indicate disposition of the original title
- 4. If lien recorded:
 - a. Furnish lien release.
 - b. If lien not satisfied, do not release the lien.
- 5. Fee of \$25.50
- 6. Fifteen-day mandatory waiting period

Title issued to owner and lien left off by dealer, lienholder, or owner

- 1. MVR-6 signed by owner.
- 2. Title
- 3. Fee of \$25.50

If owner will not sign MVR-6 for lienholder and lien was omitted

- 1. MVR-6 completed in owner's name and signed by lienholder.
- 2. Copy of lien contract signed by owner only required if the lienholder <u>does not</u> have a NCDMV issued ID number.
- 3. A lender that has a NCDMV issued ID number no longer is required to submit the contract when recording a lien when the customer failed to sign the MVR-6
- 4. Affidavit by lienholder stating why the owner did not sign the MVR-6
- 5. FEE of \$25.50

Temporary Lien Filing (MVR-6T)

Statute creates a procedure for a dealer to notify the division that they have sold a vehicle for which a title or Manufacturer's Certificate of Origin was unavailable and to record the purchaser's lien prior to proper ownership documents being submitted. The dealer will submit a fee of \$10.00 and the proper form to the division in the purchaser's name, indicating the lien. The security interest created under the agreement shall automatically expire 60 days after the date of the creation of the security interest if the dealer does not finalize the service through the division. The Temporary Lien Filing fee does not reduce the normal title fee due at the time of finalization.

Certificate of Repossession (MVR-3)

Repossessions occur when the recorded lienholder repossesses the vehicle from the registered owner. Form MVR - 3 must be completed when a vehicle is repossessed by the lienholder. The repossessor must make an assignment on the title to the purchaser. The repossessor may title in their name as repossessor or sell the vehicle.

If the recorded lienholder assigns the title to a dealer, the dealer will complete the MVR-3 and make the assignment on the title document.

1. Lienholder shown as Anytime Bank and Anytime Bank assigns their lien to My Used Cars, then My Used Cars would complete the MVR-3 and make the assignment on the title document to the purchaser.

If a vehicle is repossessed, the lien should not be released. When a vehicle is repossessed after the lien is released, the lienholder must furnish a statement indicating that the lien was released in error. If the MVR-3 indicates that the lien was released the same date as the repossession date, the Division will accept this as it would be considered paid by repossession. No lien release is required from the second lienholder if the first lienholder repossesses the vehicle. In case of repossession by the second lienholder a release from the first lienholder is required. A first lien may be released and a second carried forward or a second lien may be released and the first carried forward.

Floor Plan Lien – Repossessions (MVR-2A)

Lending institutions may repossess vehicles on a floor plan lien by reassigning titles or Manufacturer's Certificate of Origins and submitting the following documents:

- 1. Manufacturer's Certificate of Origin, North Carolina title, or Out of State title
- 2. Copy of Uniform Commercial Code Filing
- 3. MVR-3 (Certificate of Repossession)
- 4. MVR-2A Reassignment by the lienholder to purchaser
- 5. MVR-1 completed by the purchaser or if a dealer; dealer may reassign on Form MVR-2.

The repossessor may title in his name or sell to someone else. The original lien contract is not required. Vehicles that are on a floor plan lien which are purchased by innocent parties are not subject to repossession by the floor plan lienholder. Refer any such issues to Raleigh.

Title Issuance in Repossessor's Name

- 1. \$25.50 repossession title fee
- Up to \$40.00 Highway Use Tax (must complete MVR-613, Highway Use Tax Exemption Certification)

Lien Removal (MVR-8)

A lien is normally released when a sale occurs, and the lien is properly released. Registered owners may have their lien removed with the following:

- 1. MVR-8 was completed by the registered owner.
- 2. Lien marked paid on the title or separate valid lien release.
- 3. Fee of \$25.50

The title will be issued clear of lien and mailed to the registered owner.

A second lien may be removed without removal of the first lien. The release of the first lien automatically makes the second lien first.

***When a title comes back unclaimed, there is no additional fee required for an unclaimed title when a better address is furnished. An unclaimed title request with a lien release furnished, requesting title and removal of lien, requires a \$25.50 fee. The lien release properly completed is adequate. An MVR-8 is not required in addition to the lien release.

If the title is being held electronically, once the lien has been satisfied, DMV will be notified by the lienholder to remove their lien and issue a title.

The following procedure should be followed to allow a lienholder to remove a lien, when the lien is satisfied, and the owner cannot be located:

- 1. Obtain MVR-8, affidavit for removal of lien signed by the lending institution.
- 2. Obtain affidavit from lienholder that owner cannot be located.
- 3. Obtain North Carolina title with lien marked "Paid" and lien release signed by the lienholder's representative.
- 4. Collect \$25.50 fee for lien removal.
- 5. Assign new title number and have title generated clear of lien.

The following procedure should be followed to allow an owner to remove a lien, when the lien is satisfied, and the lienholder cannot be located:

- 1. If it is impossible to obtain a lien release, the owner may furnish any evidence showing the lien is satisfied. A signed notarized statement is required from the owner explaining why they are unable to furnish a lien release. Division will then send the lienholder a registered letter at last known address. If the title is for a mobile home, a court order instructing the Division of Motor Vehicles to release the lien must be surrendered before the lien is released. Pursuant to G.S. 20-58.4 or G.S. 20-109.2, the perfection of a security interest in a manufactured home that is perfected by a notation on the certificate of title shall automatically expire 30 years after the date of the issuance of the original certificate of title containing the notation of the security interest, unless a different maturity date is stated on the title.
- **2.** A lien with a corporate lienholder that has dissolved, ceased to do business or out of business for more than 3 years is considered null and void.
- **3.** An original lien contract, chattel mortgage, deed of trust, etc. is acceptable if stamped "paid" or "lien satisfied" showing lienholder's name. A counter signature is not required.

Names on Military Registrations

A military or foreign registration is issued only in the name of the military member; however, in cases of joint ownership, proper care must be taken to protect all owners and any lienholders.

Joint Ownership/Single Ownership

- 1. If we receive a military registration and application for title in one name but MCO or title submitted shows joint ownership, a new MVR-1 signed by both owners required.
- 2. If we receive a military registration and MVR-1 in joint ownership but the MCO is in single ownership, it is permissible to process the application in both names.

Highway Use Tax on Military Registrations

A military registration in the owner's name requires \$250.00 maximum highway use tax. If the military member purchased the vehicle overseas for delivery in the United States, 3% of purchase price from the bill of sale.

Notarization is <u>not</u> required from foreign countries; however, a completed assignment or a bill of sale is required.

Liens on Military Registration

- 1. Social Security number is the account number for liens obtained through a Federal Credit Union.
- 2. Most loans are obtained through branch offices located throughout Europe. The main office is in the United States, except for a foreign lienholder.
- 3. Military registration will indicate either "Y" or "1" in the lien section indicating a lien against the vehicle. This would require an MVR-1, application for title, declaring the lien or furnish a lien release.

Leased Vehicles(Military)

- 1. A military registration issued in lessee's name will not indicate that the vehicle is "leased." If the vehicle is leased, the lien section will show "leased." A copy of the title documents will be required to establish ownership of the vehicle. An MVR-330 (Application for a Registration Plate or the Transfer of a Registration Plate) must be submitted signed by the lessor and the lessee.
- 2. Canadian registration issued in lessee's name will be in three parts:
 - a. Vehicle
 - b. Plate
 - c. Insurance

Alterations to Motor Vehicles and Trailers

It is a felony to alter or remove manufacturer's engine or serial number or any other distinguishing number or identification mark of a vehicle, nor shall any person place or stamp any engine, serial, or other number or mark upon a vehicle, except a number assigned by the Division G.S. 20 -109.

Motor Changes

Motor numbers are the numbers assigned to identify 1953 and older model vehicles. Ford, Studebaker, Lincoln, and Mercury vehicles 1953 and older were assigned a serial number to identify their vehicles. Prior to 1954 the primary identifying numbers on V-8 Ford, Lincoln and Mercury automobiles were located on the frame and the changing of a motor would not affect this number. A change of frame would necessitate a correction of title. 1953 and older model vehicles registered in North Carolina are titled showing the motor and the serial number of the vehicle. A change in motor affects the vehicle identification number.

1954 and later model vehicles are registered by a serial number. A change in the motor would not affect the vehicle identification number. The brand "Motor Change" will be shown on the North Carolina title.

The certificate of title follows the vehicle and not the motor. A certificate of title is not issued for motors only. A change in the motor for 1953 and older models would require:

1. North Carolina title in the owner's name for the motor removed.

- 2. MVR-5 (Application for Correction of Title or Substitute Title)
- 3. Inspector's report indicating changes made in changing the motor and verification of motor numbers.
- 4. \$25.50 title fee
- 5. Title in the name of the owner for motor being replaced or file an indemnity bond for the vehicle

A Corrected Title Is Required When:

- 1. Installing a New Motor G.S. 20-69, 70
 - a. Motor with existing motor number:
 - i. Form MVR-5 Application for Correction or Substitute Title
 - ii. Certificate of Title in the name of the owner or file an indemnity bond.
 - iii. Bill of sale for replaced motor.
 - iv. Inspector's report
 - v. \$25.50 title fee
 - b. Motor without motor number:
 - i. Form MVR-5, Application for Correction or Substitute Title
 - ii. Inspector's report
 - iii. Certificate of title in the owner's name or file an indemnity bond.
 - iv. Bill of sale for replaced motor
 - v. \$25.50 title fee

After title work is received, motor number will be assigned to the vehicle and Form MVR-101 (Assignment of Special Engine Numbers) mailed to the inspector. The motor number with a <u>prefix of NC</u> will be stamped or cut with dies into the engine block in a legible and workman like manner. The inspector will inspect the vehicle and verify that the identification number is intact.

- 2. Installing A Used Motor G.S. 20-69, 70, 109
 - a. Install motor with existing motor number
 - i. Form MVR-5, Application for Correction or Substitute Title
 - ii. Inspector's report
 - iii. Certificate of title in the owner's name for motor removed
 - iv. Certificate of title in the owner's name for replaced motor or bill of sale
 - v. \$25.50 title fee
 - b. Install motor without motor number
 - i. Form MVR-5, Application for Correction or Substitute Title
 - ii. Inspector's report
 - iii. Certificate of title in the owner's name or file an indemnity bond
 - iv. Bill of sale for replaced motor
 - v. \$25.50 title fee

Motor numbers will be assigned to the vehicle and Form MVR-101 (Assignment of Special EngineNumbers) mailed to the inspector when title work is received. The motor number with a prefix of NC will be stamped or cut with dies into the engine block in a legible and workman like manner. The inspector will inspect the vehicle and verify that the identification number is intact.

Motor numbers which have been altered or removed will not be registered in North Carolina if there is theft or fraud involved. It is a violation to alter the manufacturer's engine or serial number or other distinguishing number or identification mark of a vehicle, nor shall any person place or stamp any engine, serial, or other number or mark upon a vehicle unless a number is assigned by the Division.

Frame or Body Change

A frame or body change is when either the frame or body is removed and placed on another frame or body. The issuance of a title will depend upon how much of the running works (transmission, motor, front and rear axles) remain intact and if the vehicle is road worthy. If a body or frame change is made, the title is branded RECONSTRUCTED.

A Title Correction Would Be Required If:

- 1. a motor vehicle is altered by the installation of another body
- 2. the vehicle identification number disagrees with the numbers on title.
 - a. Factory Made
 - Form MVR-5, Application for Correction and Substitute Title (2) Inspector's report
 - ii. Certificate of title in the owner's name for body removed
 - iii. Certificate of title in the owner's name or indemnity bond for replaced body (5) \$25.50 title fee
 - b. Homemade Body
 - i. Form MVR-5, Application for Correction and Substitute Title
 - ii. Certificate of title for body removed and body replaced in owner's name (3)\$25.50 title fee

If the vehicle is being operated with the chassis and motor installed in another body, the owner must apply for correction of title. If unable to furnish title for the body, the vehicle must be bonded.

Glider Kit G.S. 20-53, 54, 57

A glider kit is a kit of component parts, which includes a body, chassis, and complete front suspension used to reconstruct large trucks registered with the body style of a tractor. The documents required to issue a title when a glider kit has been used to reconstruct a vehicle are the following:

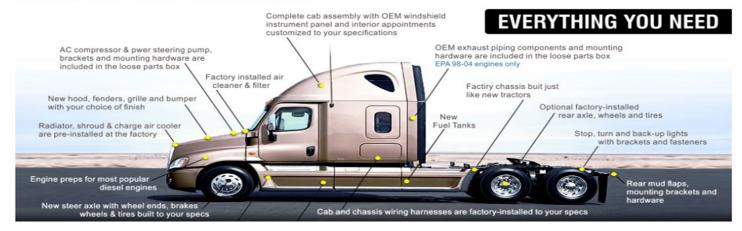

- 1. Title in the owner's name for the wrecked vehicle
- 2. Bills of sale for new or used parts
- 3. Manufacturer's Certificate of Origin for glider kit
- 4. Form MVR-5, Application for Corrected/Substitute Title, explaining the changes
- 5. Inspector's report

- 6. Form MVR-1, Application for Title
- 7. \$25.50 title fee and highway use tax (3% of the purchase price on all replaced parts and truck)

The title for the wrecked vehicle will be canceled. The reconstructed vehicle will be registered showing the year, make and Vehicle Identification Number from the MCO. Some manufacturers do not show a year model on the certificate of origin. In this event, the year of completion is shown as the year model. The North Carolina title will be branded "Reconstructed."

GLIDER KITS

THE NEXT BEST THING TO A NEW TRUCK

- 1. Correction of title (Form MVR-5)
- 2. Inspector's report
- 3. Certificate of title in the owner's name for frame and cab or file an indemnity bond
- 4. \$25.50 title fee

Custom-Built Motor Vehicles G.S. 20-39, 53

A custom-built vehicle is completely reconstructed or assembled from new or used parts. The vehicle will be registered showing the make as Custom-Built, and the year the vehicle was built will be the designated year model. The North Carolina title will be branded "Specially Constructed Vehicle."

- 2. North Carolina "Inoperable Vehicle" Title

Assigned Numbers

1. Assigned NCS Number Issued for Automobiles and Trucks*

NCS serial plate is attached to Form MVR-31. The identification number is assigned to the owner by the Division and mailed to the inspector. The owner must affix the serial plate on the vehicle. The inspector certifies that the number has been attached or riveted to the vehicle in a legible and workman like manner. The Form MVR-31 must be returned to the Division.

The documents required to issue NCS number are the following:

SPECIAL TITLES

NCMS numbers are assigned to motorcycles without identification numbers. The number is assigned on Form MVR-31A. The inspector must request serial number by forwarding proper title documents and fees. The MVR-31A is mailed to the inspector to ensure that the number is affixed in a legible and workman like manner. The Form MVR-31A must be returned to the Division.

The documents required to issue NCMS number are the following:

A customer may visit their local License and Theft office. An Inspector will assign a serial number.

A customer desiring an instant (one day) title must pay all fees and title will be issued reflecting the assigned serial number. The serial plate will be mailed to the inspector. The title will be issued once the serial number plate has been affixed to the vehicle.

It is a felony to alter or remove a manufacturer's engine or serial number or any other distinguishing number or identification mark of a vehicle; nor shall any person place or stamp any engine, serial, or other number or mark upon a vehicle, except a number assigned by the Division.

Custom/Issue Assigned Numbers Out of State DMV's

All states have a method of issuing serial numbers for vehicles. Some states will use prefixes or suffix to identify the state with the serial number.

Example: 1992 Chevrolet and Virginia title shows 1992 Chevrolet with serial number as TEX4328190. This is an assigned serial number from the State of Texas. A North Carolina title will be issued showing serial number as TEX4328190. This is a sampling of assigned serial numbers.

Salvage Vehicles G.S. 20-109.1, 71.3, 348

A salvage vehicle is a vehicle that has been damaged by collision or other occurrence to the extent that the cost of repairs exceeds 75% of its fair market value.

Within 10 days' notice must be given to the Division for salvage vehicles, when the insurance company or authorized agent has paid a claim on a vehicle:

- 1. Damaged by collision or other occurrence to the extent that the claim paid exceeds 75% of the fair market value.
- 2. When loss or damage occurred in North Carolina.
- 3. When the sale of the salvage vehicle occurred in North Carolina.

The certificate of title or the comparable ownership document is issued by the jurisdiction where the vehicle was last registered. The certificate of title, whether NC or out of state, must be properly assigned to the insurance company by the vehicle owner.

It is unlawful and constitutes a misdemeanor if:

- Any transferor (seller) who knows or reasonably should know that a motor vehicle has been involved in a collision or other occurrence to the extent that the cost of repairing that vehicle exceeds twenty five percent (25%) of its fair market retail value and vehicle is 5 years old or newer.
- 2. Any transferor (seller) that fails to disclose in writing to transferee (buyer) for any vehicle that is or was regardless of vehicle age:
- a. A flood vehicle
- b. A salvage rebuilt vehicle
- c. A theft recovered vehicle
- d. A reconstructed vehicle
- e. A salvage vehicle

Failure to disclose any of the above information will result in civil liability with possible monetary penalties.

Notarization is not required on a salvage title nor power of attorney when reassigning the vehicle over to the insurance company's name. A division issued substitute power of attorney can be used but is optional.

Surrender of titles to salvage vehicles.

Not withstanding any other provision of law, with respect to a vehicle described in this subsection, the following shall be exempt from the requirements of notarization, including exemption from the notarization of electronic signature requirements of G.S. 20-52(c):

- a. The transfer of ownership on the certificate of title.
- b. Any power of attorney required in connection with the transfer of ownership to the insurer.
- c. Any required odometer disclosure statement.
- d. The application for a salvage certificate of title.
- e. The transfer of ownership on the salvage certificate of title issued.
- f. Any statement pursuant to subdivision (2) of subsection (b) of this section.
- g. Any statement on the salvage certificate of title issued.

KENTUCKY RED BORDER TITLES AND PARTS ONLY REMINDERS

This is a reminder that North Carolina does not accept Kentucky red border titles for conversion to any form of NC issued title due to the previous history of junk-type branding as outlined by NCGS 20-71.3(g).

Kentucky will accept vehicles that have previously been branded "Certificate of Destruction," "Junk," "Scrap or "Parts Only/Non-Rebuildable" from other states and convert them to the attached example of salvage title.

Notice the Kentucky title has the heading "May Not Be Eligible For Titling In All States." N.C.G.S. 20-71.3 (g): "Any motor vehicle that has been branded in another state shall be branded with the nearest applicable brand specified in this section, except that no junk vehicle or vehicle that has been branded junk in another state shall be titled or registered."

Salvage Titles may be blue, or red. Blue indicates the insurance company owns the vehicle.

authorized by law – GS. 20-71.3

Note: Any motor vehicle that has been branded in another state shall be branded with the nearest applicable brand specified in this section. However, no junk vehicle or vehicle that has been branded junk in another state shall be titled or registered.

Damage Disclosure Statement G.S. 20-71.4(a), 348

A damage disclosure statement is required on any motor vehicle 5 years old and newer with more than 25% damage. The North Carolina Salvage Title Law has been amended to require damage disclosure at the time of transfer. Effective October 1, 1990:

1. It shall be unlawful and constitute a Class 2 misdemeanor for any transferor to fail to disclose in writing who knows that:

- a. A motor vehicle up to and including five model years old has been involved in a collision or other occurrence to the extent that the cost of repairing that vehicle exceeds twenty five percent (25%) of its fair market retail value at the time of the damage; or
- b. The motor vehicle, regardless of age, is or was, a flood vehicle, a reconstructed vehicle, or a salvage motor vehicle, transferor must disclose that fact in writing to the transferee prior to the transfer of the vehicle. Failure to disclose any of the above information will also result in civil liability under G.S. 20-348. The commissioner may prepare forms to carry out the provisions of this section.
- It shall be unlawful for any person to remove the title or supporting documents to any motor vehicle from the State of North Carolina with the intent to conceal damage (or damage which has been repaired) occurring because of a collision or other occurrence. Violation of this statute constitutes a Class 2 misdemeanor.

An Example of When a Disclosure Statement Would Prove Beneficial:

Registered owner assigns title to dealer. Dealer obtains damage disclosure statement signed by seller and dealer.

- 1. Dealer resells vehicle, reassigns title and dealer and buyer both complete damage disclosure statement.
- 2. Later, the buyer determines that the vehicle was previously damaged.
- 3. The buyer contacts the dealer who determines from damage disclosure statements that the vehicle was intact and not damaged. However, dealer does contact previous owner who declared on damage disclosure that the vehicle had not been damaged to the extent that 25% of its fair market retail value.
- 4. The seller (previous registered owner) determines that the vehicle has been damaged, repaired and seller was not made aware.
- 5. Dealer would then have recourse against seller for selling damaged vehicle.

The damage disclosure statement on the title, MVR-2 and MVR-4, will question if the vehicle has been a flood vehicle, a reconstructed vehicle, or a salvage vehicle.

Failure to disclose damage will result in civil liability under G.S. 20-348, which is three times the value of the vehicle plus legal fees.

A separate Damage Disclosure (MVR-181) is needed if the title in question does not have the appropriate blocks checked or the disclosure statement is missing. However, an MVR-181 is not required if the ownership document submitted is an MCO.

Documents Required to Issue a Salvage Title

- 1. Registered owner assigns certificate of title to insurance company.
- 2. A damage disclosure statement is required on any motor vehicle.
- 3. \$25.50 title fee
- 4. Odometer disclosure statement (MVR-180)
- 5. If the vehicle has been burned to the extent that the reading cannot be obtained, odometer is broken, or is a theft-recovered vehicle, then an Odometer disclosure affidavit (MVR-183) would be required to be filled out.

MVR-40, Salvage Title, is issued and mailed to the Insurance Company.

Effective 2003, all MVR-40, North Carolina Salvage Titles are printed with the "Total Loss Claim" notation.

The "Total Loss Claim" notation is not a brand. It is an information notation and cannot be removed. The registration card will also be issued with the "Total Loss Claim" notation. This is only displayed on North Carolina Salvage titles not out of state titles that are brought into North Carolina.

A preliminary and final inspection is required on motor vehicles six model years old and newer. An inspector's report (VIN Verification Report) required on all out of state salvage vehicles more than six (6) model years old for vehicle identification number verification. A regular NC title cannot be issued until an inspection of the vehicle has been completed. On a vehicle more than six model years old, which does not have the affidavit of rebuilder/owner, the title will be branded Salvage Rebuilt or the applicable brand specified by G.S. 20-71.3. The rules for salvage vehicles older than six years changed to allow the rebuilder to furnish affidavits regarding the cost of repairs. The rebuilder will use the same affidavits used by License and Theft officers. The title would not be branded unless the cost of repairs exceeded 75%. A vehicle titled in another state and damaged by collision or other occurrence and having been repaired will be branded Salvage Rebuilt or applicable brand.

Requirements for Processing Titles on Rebuilt Salvage Vehicles

- 1. Salvage title with ownership properly tracing
- 2. Preliminary and final inspection for vehicles six-year-old and newer
- 3. Rebuilder's affidavit stating NADA value, repairs made, cost of parts replaced, amount of hours to repair vehicle and rate per hour.
- 4. If the cost to rebuild vehicle does not exceed 75% of its fair market retail value and repairs were made without replacing any part, which contains vehicle identification assigned by the manufacturer, an unbranded title may be issued (This applies only to North Carolina Salvage Certificate.)
- 5. If for any reason a vehicle that is 6 years old and newer does not receive a preliminary inspection the title is automatically branded Reconstructed.
- 6. Applicant's application for title (Form MVR-1 completed in full)

8. Appropriate fees (\$66.75 title fee, highway use tax, license fee and vehicle property tax or limited registration plate (LRP))

- 9. Proper ID as required by G.S. 20-52(A)
- 10. Proof of liability insurance
- 11. A damage disclosure statement is required on any motor vehicle.
- If a vehicle is 6 model years or newer, the Pre-Inspection, Affidavit of Rebuilders, and Final Inspection reports are required on vehicle branded rebuilt or other applicable brands.
- If the vehicle is 6 model years or newer with one report, the North Carolina title will be branded as "Reconstructed' and the out of state title the brand will be brought forward.
- If the vehicle is more than 6 model years or older, no reports are required.
- The date of sale will determine if the vehicle requires all three reports because the model year changes on January 1st of each year.
- An Inspector's report is no longer required on out of state salvage vehicles that are titled in an insurance company's name and that are more than six years old

Note: If a title is received from another state showing a brand the Division will issue a North Carolina title branded Salvage Rebuilt or applicable brand. The Division will not remove any brands prior to issuance of title. The Division will not honor any title submitted with the brand of NON REBUILDABLE unless the title shows it can be rebuilt in their state. Once DMV has issued a branded title for a motor vehicle, all subsequent titles for that motor vehicle shall continue to reflect the branding.

A rebuilt salvage vehicle must have liability insurance, safety inspection and be properly registered before obtaining a license plate. A temporary 10-day license plate may be issued prior to titling provided an inspector's report is furnished.

Individuals not licensed as North Carolina automobile dealers may not transfer ownership of a vehicle on the North

Carolina Salvage Motor Vehicle Certificate (form MVR-40) or any other state's salvage motor vehicle certificate. Individuals not licensed as motor vehicle dealers that wish to transfer ownership must convert the salvage certificate to a standard North Carolina motor vehicle title to reassign ownership. If the Salvage title is assigned to the purchaser prior to May 1st, 2015, the Division will process the title according to prior policy. All assignments on or after May 1st, 2015, will be subject to the new policy and procedure. In addition, a title transferred from the insurance company to an individual on a North Carolina Salvage Title (MVR-40) must be titled in the buyer's name only unless a dealer purchases the vehicle for resale. The dealer can reassign on MVR- 2 Dealer's Reassignment of Title to a Motor Vehicle.

Prior to May 1, 2015, an individual may reassign a vehicle sold in salvage condition without obtaining a title by utilizing a Form MVR-2 Dealer's Reassignment of Title to a Motor Vehicle with a notarized statement between seller and buyer vehicle sold "As Is Condition" with complete vehicle description. If the MVR-2 is reassigning the MVR-40 to another individual, that assignment would be the final assignment unless the last assignment was made to a North Carolina dealer.

Unregistrable Titles

NCGS 20-52 has been amended by adding Section 20-52.2 which authorizes the Division to create and issue an unregistrable certificate of title. This title will be issued for Out-of-State vehicles only that have:

- Been declared a total loss.
- The occurrence that damaged the vehicle occurred within the boundaries of this State.
- The vehicle has remained within this State continuously since the occurrence of the loss.
- The owner of the vehicle has accepted an offer of an amount in settlement of the total loss from the insurance company.
- The insurance company, or its agent or contractor, has made a written request for the title from the vehicle owner and any lienholders of record at the addresses contained in the records of the state of registration. The written request must be delivered by certified United States Postal

Service mail or by another commercially available delivery service providing proof of delivery.

• The owner and lienholder have failed to deliver the title for more than 30 days from the receipt of the written request, or the written request has been returned as undeliverable.

The owner (insurance company) of an eligible vehicle may apply for an unregistrable certificate of title by submitting an application for Unregistrable Title form MVR-4D to the Division, along with all required documentation.

A vehicle issued as a unregistrable certificate of title under NCGS 20-52.2 is no longer eligible for titling or registration for highway use, provided that the Division may rescind the issuance of an unregistrable certificate of title if it determines the title was issued in error.

Any vehicle that has been issued an unregistrable certificate of title may only be sold for parts, scrap, or recycling.

The requirements and limitation for issuing the title fall under NCGS 20-109.1A.

The Application for Unregistrable Title Form (MVR-4D) and supporting documents will only be processed by the NCDMV Special/Salvage Unit and used motor vehicle dealers whose primary business is the sale of salvage vehicles on behalf of insurers.

To receive an unregistrable certificate of title the vehicle must be declared no longer eligible for titling or registration for highway use.

1. An application for an unregistrable certificate of title under this section shall be made on a form provided by the Division, and the Division may require a notarized affidavit attesting under penalty of perjury that the conditions of subsection (a) of this section have been met.

The form shall be accompanied by

- evidence of a total loss payment in the form of either a copy of a claims check or a screenshot from the insurance company's claim system showing a payment was made and
- b. evidence of delivery of notice to the vehicle owner. Any company, agent, or contractor that has applied for an unregistrable certificate of title under this section shall maintain a record of any supporting documentation for a period of three years. The fee for an unregistrable certificate of title pursuant to this section shall be twenty-one dollars and fifty cents (\$25.50).

2. If an out-of-state registered vehicle has been damaged in this State and an insurance company, its agent, or its contractor takes possession of the vehicle with the permission of the owner, the company's agent or contractor taking possession of the vehicle shall have a towing and storage lien on the vehicle for any amount accrued in the possession, towing, and storage of the vehicle. This lien is superior to any other liens on the vehicle. If the insurance company subsequently denies coverage or otherwise fails to reach a settlement with the owner, the company, or its agent or contractor may make written demand that the owner or lienholder retake possession of the vehicle upon payment of any towing or storage fees accrued by the agent or contractor. If the owner or lienholder fails to satisfy the lien and take possession of the vehicle within 14 calendar days of the written demand, the agent or contractor may apply for an unregistrable certificate of title in the name of the agent or contractor for purposes of selling the vehicle to recoup any towing or storage fees accrued by the agent or contractor. The application shall be on a notarized form provided by the Division attesting by the applicant that the requirements of this section have been completed. Included with this form shall be evidence of delivery of notice to the vehicle owner. The written demand required by this subsection must be delivered by United States Postal Service mail or by another commercially available delivery service providing proof of delivery.

3. Any owner, lienholder, or subsequent purchaser harmed as a result of an unregistrable certificate of title being issued pursuant to this section or harmed by the sale of any such vehicle following issuance of the same, shall have no cause of action against the Division, and the Division shall not be liable to any such persons in any matter related to actions taken under this section.

Vehicles Purchased from Motor Vehicle Dealers

Vehicles purchased from dealer are subject to use tax amounting to 3% of the purchase price (including retailer's cost of property sold, materials used, labor or service cost, interest, losses, charges necessary to complete the sale, destination/delivery/freight fees, dealer service, preparation and closing fees) plus any administrative/document fee as well as all accessories attached to the vehicle at the time of delivery less any trade in credit. A bill of sale must accompany each application for title, showing the purchase price, less trade-in-credit and net trade difference. The bill of sale must indicate the vehicle description and identification number of the trade-in-vehicle. Highway Use Tax should be charged for any accessory added to a vehicle at the time of sale that increases its value. If an item is listed on the Bill of Sale under a heading of ACCESSORIES, it should be calculated with the sales price for the collection of HUT. If an item is listed on the Bill of Sale and does not specify whether it is an additional warranty or service type contract, this too shall be added to the sales price for the collection of HUT. Should a dealer question the additional charge of HUT, please advise them to specify whether the item is an accessory which adds value or if it is a warranty or service type contract and to list these items differently and clearly labeled on their bill of sales.

If a dealer states he is giving a vehicle to his spouse or child, the vehicle is not exempt from highway use tax. A bill of sale is required, and tax is due on the original purchase price of the vehicle. On a used vehicle the tax is due on the fair market value of the vehicle.

Casual Sales

Vehicles not purchased from a licensed dealer are subject to 3% highway use tax on value schedule provided by the Division. Where there is a trade between two parties a bill of sale signed by both parties and setting out the trade credit is required. Tax is due on the value less trade credit.

Transactions for Which Tax Is Not Due

- 1. When purchaser returns a motor vehicle within 90 days after purchase and receives a replacement vehicle.
- A person who applies for North Carolina title that is currently titled in another state but was
 formerly registered in North Carolina where application is made within one year of the prior
 application for North Carolina title. In the event the credit is applicable, a refund will be
 processed.
- 3. Federal Credit Unions, American National Red Cross, Farm Credit Bank, and all Federal Agencies are exempt from highway use tax when titling in their name.

Clarification on Highway Use Tax Gift Exemption

- 1. Dealer gives vehicle to spouse or child. If a dealer states that he is giving a vehicle to a spouse or child, the vehicle is not exempt from highway use tax. A bill of sale is required, and tax is due on the original purchase price of the vehicle.
- 2. Company or corporation gives vehicle to spouse or child. If a company or corporation advises that the vehicle is a gift to spouse or child, the vehicle is not exempt from highway use tax. Tax is due on the computer value of the vehicle.

Highway Use Tax on Out of State Vehicles Residents

1. Exemptions do not apply on vehicles where an assignment is made on an out of state title. Highway use tax is due on the value of the vehicle.

Example: An out of state resident assigns title to son and indicates vehicle is a gift. Son is not exempt from highway use tax. Tax is due on the value of vehicle.

- 2. Exemptions do not apply between husband and wife or parents/step/children on out of state title when transferred to North Carolina resident.
- 3. All transactions involving a vehicle titled out of state 90 days prior to registering in North Carolina will be taxed on vehicle value, with maximum of \$250.00 being assessed. If owned less than 90 days before applying for North Carolina Title, tax credit against the highway use tax due will be allowed for amount of tax paid to the other state upon submission of proof of payment. Proof of payment is the Dealer Bill of sale to show the HUT was collected and a receipt from that states DMV or Dept of Revenue showing the tax was collected/paid there. Vehicle purchsed from a Dealer If the vehicle was titled in North Carolina after 90 days of purchase from a dealer, no credit would be allowed. Full highway use tax would be due on the purchase price (see Page 2) plus any administrative/document fee as well as all accessories attached to the vehicle at the time of delivery, less any trade-in credit.

Federal Agencies

American National Red Cross, Farm Credit Bank, all Federal Credit Unions and Federal Agencies are fully exempt but are not listed under G.S. 105-187.6.

Leased Vehicles

If the leasing company elects to report tax to the Department of Revenue, Form MVR-608 is required on each application for title. Once an election is made, (either tax paid or MVR-608 submitted), the election is irrevocable.

Vehicles Purchased from a Leasing Company

Firms or persons engaged in the business of renting, leasing, and selling of motor vehicles in North Carolina are defined as retailers for the purpose of highway use tax levy. Therefore, when they sell a vehicle, they should provide a bill of sale and tax is due on the purchase price. These retailers are not required to be licensed dealers – Ryder, Hertz, World Omni, or Salem Leasing, etc. are retailers and must provide a bill of sale when selling and the tax is due on the selling price.

Trade-In Allowance on Leased Vehicles Paid on Gross Receipts

Allow trade-in allowance on leased vehicles when Highway Use Tax is being paid on gross receipts through the submission of Form MVR-608. Effective on titles issued on/or after October 1, 1995.

Mobile Homes

Tax would be paid to the selling dealer, 2% not to exceed \$300.00. Casual sales after October 1, 1989, highway use tax not due.

Vehicle Purchased from Dealer

An applicant, who has purchased a vehicle from a dealer and is unable to furnish a bill of sale, must pay 3% of computer value.

Traded Vehicles

If bills of sale indicate both vehicles are of equal value, then no tax is due from either party.

If one vehicle is of higher value than the other, the person getting the higher valued vehicle pays 3% of difference in values and person getting lower value vehicle pays no tax.

Vehicles Acquired by Will or Intestacy

A vehicle that is acquired by will or intestacy is fully exempt from the highway use tax; however, if a vehicle is purchased from an estate highway use tax would be due. Indicate on the margin of the MVR-1 "gift" or inheritance when exempting applicant from highway use tax. The determining factor is whether monies are exchanged for the vehicle. Purchaser would need to complete MVR-613 showing exemption.

Bill Of Sale Shows Purchase Price as \$1.00, \$.01 or \$0.00

Nominal Leased Vehicle Buyout

\$1 Buyout – May also be referred to as a nominal (\$0) or (\$1) dollar-buyout lease. In addition to the bill of sale the lease contract indicating that at lease buyout cost of the vehicle will be \$1.00 or less is required.

Tax will be assessed based on the computer value of the vehicle or furnish a corrected bill of sale showing fair market value.

Tax on Buses

Need a bill of sale to determine the highway use tax. All buses with a weight of 26,001 pounds and up would have a maximum tax of \$2000.00, effective January 1, 2016.

Tax on Motor Vehicle Body

A motor vehicle body, which is mounted on a motor vehicle chassis prior to application for certificate of title for the vehicle, is a part of the motor vehicle subject to the Highway Use Tax. The tax is paid to the Division at the time of application for title with a 3% Highway Use Tax.

However, when a motor vehicle body is purchased to be placed on a motor vehicle chassis for which a certificate of title has previously been issued, the body manufacturer or dealer is liable for collecting the sales tax on the motor vehicle body only.

Rebates and Discounts

Rebates are paid to the customer at a later date and therefore not subtracted from the sales price. Discounts are issued by the dealer at the time of sale and can reduce the sales price.

United States Government Standard Form 97

- 1. Vehicles purchased overseas by military personnel with military registration are taxed at 3% not to exceed \$250.00.
- 2. Vehicles purchased overseas without a registration being issued no maximum tax due. 3% of the Bill of Sale price will be collected.

Volunteer Fire Departments or Volunteer Rescue Squads

To be exempt, they must not be a part of a local government and cannot have more than two paid employees and must be exempt from income tax under General Statute 105-130.1.1. To verify their exemption, the division would need a signed statement. Purchaser would need to complete MVR-613 showing exemption.

Vehicle Sold to Indians for Delivery On/Or Off the Reservation

Enrolled Eastern Band of Cherokee Indians, who live on the reservation, are no longer required to pay highway use tax. This exemption applies to vehicles delivered on or off the reservation. To verify if the customer qualifies, please request to view the customer's Tribal Enrollment Certificate (Enrollment number is located on reverse side of card.) This exemption only applies to the Cherokee Indians.

Purchaser would need to complete MVR-613 showing exemption.

Vehicle Won in A Raffle

1. A MCO is assigned to the business/organization holding a raffle; the business must title the vehicle in their name before assigning it to the person who won the vehicle.

- 2. If the MCO has not been assigned and the dealer handling the transaction will agree to make an assignment to the winner, this is acceptable with a notarized affidavit explaining that the vehicle was won in a raffle.
- 3. The winner can then apply for title paying tax on the value of the vehicle; tax is due at 3% of computer value.

Even Trade

This is only applicable when the value of each vehicle is the same. No tax would be due. The value would be determined by the computer value schedule for casual sales. The trade value for a dealer sale would be determined by the bill of sale and trade allowance price.

Trade Down for Vehicle of Lesser Value

If the value of vehicle being traded were greater than the vehicle being registered, no tax would be due. The value would be determined by the computer schedule for casual sales. The trade value for a dealer sale would be determined by the bill of sale and trade allowance price.

Example:

Vehicle being registered values \$4000

Vehicle being traded values \$5000

No tax is due

Trade Up

If the value of the vehicle being traded were less than the vehicle being registered, tax would be due on the difference at 3%. The value would be determined by the computer schedule for casual sales. The trade value for a dealer sale would be determined by the bill of sale and trade allowance price.

Vehicle being registered valued \$5000

Vehicle being traded valued \$4000

Difference in fees \$1000 x 3 % = \$30.00 Tax Due

Salvage Vehicles

The builder owes tax on the vehicle unless the builder is a licensed dealer, tax would be 3%.

Tax is due on 3% of the computer value.

Chassis and Glider Kit (HUT)

- 1. Combine the purchase price or value of the vehicle and the glider kit and tax as one unit, tax would be 3%.
- 2. If an owner has title for a vehicle and purchases a glider kit or body, tax is due on glider kit or body, tax would be 3%.
- 3. If a vehicle has a gross weight of 26,001 pounds or more the maximum amount of highway use tax collected will be \$2000.

Small Trailers

If purchased from a North Carolina dealer, tax is due at 3% of purchase price shown on bill of sale. If casual sale, tax is calculated at 3% of computer value. Trailers purchased from retailers such as Sears, K-Mart, Lowe's, Wal- Mart or Roses a bill of sale is not required. Tax is due on computer value. If not in the division value schedule, use sale code "V" and key purchase price shown on cash register receipt.

Repossessor Applying for Title in Their Name

If a lien is properly recorded, tax is not to exceed \$40.00. However, if the lien is not properly recorded, tax is 3% of computer value. Repossessor would need to complete MVR-613 showing partial exemption for tax.

Change of Name (HUT)

When the ownership remains the same and change is in the owner's name, tax is not due. This includes change of name by marriage, divorce, or court order.

Once made, an election is irrevocable.

- 2. Motor vehicle dealers when titling their service vehicles
- 3. By lessor and/or lessee when titling a motor vehicle, which was leased prior to October 1, 1989, for a definite period of time, thereby subjecting the gross receipts derived to the Sales Tax, and not the Highway Use Tax.

The refund request must be submitted to the Division within 30 days of receiving the replacement vehicle or refund of the purchase price.

Manufacturers of utility sedans, couriers, sedan delivery, handyman, jeep type vehicles, vans, maxi-vans, etc. design these vehicles. In addition to these are station wagons with the seat removed, and the regular passenger cars that have been altered inside to prohibit the transportation of passengers. Administrative Hearings G.S. 20-316

Effective January 1, 2018 – Hearing fees apply to ALL LI Hearings

NC GS20-316. Divisional hearings upon lapse of liability insurance coverage

NC GS20-4.03 Administrative Hearing Fees

Add the administrative code: 19A NCAC 03K .0101 Assessment of Administrative Hearing Fees

Any person whose registration plate has been revoked under GS 20-311 may request a hearing; any request for an administrative hearing before the Division must be in writing and accompanied by the total applicable administrative hearing fee charged by the Division (NC GS20-4.03). Upon receipt of such a request, the Division shall, as early as practical, afford an opportunity for hearing. Individuals who believe they cannot afford the hearing fee may apply for indigence. Hearing and indigence forms are available online at: www.ncdot.gov/dmv/forms. Hearing requests may be mailed to: Division of Motor Vehicles, Attn: Liability Insurance Unit, 3108 Mail Service Center, Raleigh, NC 27697-3108.

When requesting a hearing, and when the hearing is scheduled, if the license plate is valid and the vehicle being operated while the hearing is pending, the owner must have current insurance on file (FS-1). If proof of active coverage is present and valid registration, the vehicle may be operated. The standard license plate will not be issued when requesting a hearing on an expired plate that is revoked. The Division will issue a temporary plate at full license fee for 60 days pending the hearing decision. The registered owner must provide evidence to show a lapse in coverage was not his fault. Evidence presented may be receipts, records, documents, and current insurance policy.

If the Hearings Officer establishes that liability coverage has been continuous or if any lapse in coverage is not reasonably attributable to fault or neglect on the part of the insured, he may rescind the Order of Revocation or allow the penalty to be paid. If the Hearing Officer upholds the revocation and the individual has a temporary plate or regular license plate that plate must be surrendered for a period of thirty days. The 30 days will not start until the plate is turned in or from the date the plate expires.

Only one hearing is required with one hearing fee when scheduling a hearing for multiple vehicles with the same customer ID number. Also, upon cancellation of a hearing, the customer will only receive a refund of \$10.00, as long as the hearing is cancelled 10 days prior to the scheduled hearing.

Hearing requests may be mailed to: Division of Motor Vehicles, Attn: Liability Insurance Unit, 3108 Mail Service Center, Raleigh, NC 27697-3108 or hearing can be requested online.

Form <u>HF-002</u> Rev-09/21 Cancellation of Liability Insurance G.S. 20-309(e)

When liability insurance is cancelled or a vehicle is removed from the policy, the insurance company submits notice of cancellation (Form FS-4.)

A cancellation notice is not required if the company issues a new policy at the same time the old policy cancels. When a notice of termination (Form FS-4) is received the insurance records are researched to determine if a certificate of insurance (Form FS-1) has been filed, plate surrendered, or other action taken which would offset the FS-4. If not, a Notification of Termination of Liability Insurance Coverage (Form FS-5) is mailed to the registered owner, on the 31st day, showing insurance cancelled.

The FS-5 letter indicates that compliance is required within 10 days of notice being sent to the customer. By way of an administrative decision, the customer is allowed an additional 20 days for mailing and processing: giving, 30 days total.

The customer is to notify the division to:

- 1. Provide proof of continuous coverage (FS-1). The FS-1 must be submitted electronically. Or
- 2. Surrender the license plate, if no current insurance exists and pay the civil penalty if the lapse occurred during the time the vehicle was in possession of the valid registration **Or**
- 3. Pay a civil penalty and show proof of current coverage (FS-1) if a lapse has occurred if an active plate is present or attempting to secure a valid registration plate.

If a lapse did occur, the vehicle owner must respond either yes or no to the two assessment questions indicated on the Notice of Termination of Liability Insurance (FS5).

- 1. Did you knowingly operate or allow another person to operate the above vehicle without liability insurance coverage?
- 2. Was the above vehicle involved in an accident during the lapse?

If the customer responds "YES" to either of the questions; the license plate will be revoked and must be turned in for 30 days effective immediately or request a hearing. Personal checks, certified checks, money orders or by mail are accepted methods of payment for a hearing.

FS-20(ReceiptforSurrenderedLicensePlate)

When an active (not expired) license plate is turned in, a receipt (Form FS-20) is issued. Surrendered plates are retained and accounted for in accordance with administrative procedures.

Note: A license plate must be surrendered before liability insurance is cancelled on the vehicle.

Penalties

A penalty occurs if:

- 1. Operating a vehicle without liability insurance
- 2. A false statement that liability insurance is in effect.
- 3. Failing to provide liability insurance information when requested.

Monetary Penalties G.S. 20-309 (e)

If a lapse did occur, the owner may pay the civil penalty and the penalty can be collected at any stage. If the vehicle is to be operated and/or has valid registration, current insurance must be on file.

- 1. After July 1, 2008, the civil penalty assessed varies based on the number of prior paid lapses an individual has had within a three-year period. Your first lapse with no prior paid lapses will have a civil penalty of \$50.00.
- 2. A second lapse with one prior paid lapse will have a civil penalty of \$100.00. Three or more lapses with two or more prior paid lapses will have a civil penalty of \$150.00.
- 3. A \$50.00 restoration fee is due, if the plate went under revocation and is to be collected upon renewal of the registration or issue of a new plate.

A Notice of Revocation (FS-7) is a letter generated on the 30th day if the file is not cleared. A restoration fee of \$50 is applied to the file. This fee is only due at the time of renewal or issuance of a new plate for the vehicle.

A FS-44 <u>does not</u> generate correspondence to the customer. Law enforcement's system "DCI" is notified that the plate is revoked, which allows any form of law enforcement to pick up the plate or remove the plate from the vehicle. **There is no further aging beyond the FS-44.

Surrender of Plates by customer or by request of the Division:

- 1. Owner may relicense on the 31st day after the plate is surrendered.
- 2. Proof of current insurance must be presented (FS-1), the restoration fee is due and proper plate fee and vehicle property tax or limited registration plate (LRP) before relicensing.

Example: Plate surrendered 4-1-04, eligible to relicense 5-2-04 (after 31st day), fees due are restoration fee, license fee, vehicle property tax or limited registration plate (LRP) and proof of liability insurance.

Spouse Living Separate and Apart from Registered Owner

- 1. Separation papers or notarized affidavit from the spouse and two other individuals living outside the home stating the spouse lives separate and apart from the revoked owner prior to the insurance termination date. The separated spouse must obtain insurance before operating the vehicle.
- 2. Restoration or service fee not due.
- 3. 30 day waiting period is waived.

A Vehicle Titled in Joint Ownership; License Plate Revoked

- 1. A title cannot be transferred to a spouse, a child of the owner or from child to parent (if the plate has been revoked) until 30 days after the plate is surrendered.

- 3. In case of death of a registered owner, title can be transferred to a spouse living together (prior to death), to a child of spouse or a child of the owner as long as the vehicle was in single ownership.

Interest accrues at a rate of 5% for the remainder of the month following the date in which the registration renewal sticker expired and 3/4% beginning the second month following the due date and for each month thereafter until the taxes and fees are paid.

When purchasing a new plate vehicle property tax will be due or a limited registration plate (LRP) can be given. A limited registration plate allows the vehicle property taxes to be deferred for 60 days. A limited registration plate will have a temporary (T) year sticker that will expire at the end of the second full month if the vehicle's property taxes are not paid in full. Payment of vehicle property taxes for a limited registration plate must be made to the DMV to validate the year sticker for the remainder of the year. Interest will be charged on late vehicle property tax payments for a limited registration plate ata rate of 5% beginning the first month following the due date and 3/4% beginning the second month and each month thereafter until the taxes are paid.

Limited Registration Plates (LRP) that have expired more than 12 months must be paid before the system will allow any registration services. If a customer has an LRP plate that is expired more than 12 months, the customer will be blocked from doing any registration services for the vehicle the LRP plate is issued to until the fees for the expired LRP plate are paid. Once the expired LRP tax fees are paid, a receipt only (registration card) will be printed. Stars will display the LRP plate status as "LRP Expired – Paid (date of the expired LRP). For LRP plates that have been turned in, the plate status will show as "PLT TURN IN (FS20) (date the plate was turned in).

Property Tax Exempt

The following motor vehicles are exempt from paying their vehicle property taxes to the DMV:

- 1. Motor vehicles that are exempt from registration pursuant to G.S. 20-51
- 2. Manufactured homes, mobile classrooms, and mobile offices
- 3. Semitrailers or trailers registered on a multiyear basis
- 4. Motor vehicles owned or leased by a public service company and appraised under G.S. 105-335
- 5. Motor vehicles registered under the International Registration Plan
- 6. Motor vehicles issued permanent registration plates under G.S. 20-84
- 7. Self-propelled property carrying vehicles issued a (3) three-month registration plate at the farmer rate under G.S. 20-88
- 8. Park Model Recreational Vehicles.

Effective September 2013, DMV began collecting vehicle property tax at the time of renewal and issuance of a new plate; prior to this date the vehicle property tax was collected by the individual counties. All delinquent accounts resulted in a block being placed against the plate record. To remove the tax block:

- 1. MAV2 for the proper vehicle and tax year must be presented (faxed copies are acceptable) or
- 2. County tax office can remove

A license plate issuance is required before County Tax offices can adjust any property tax values for customers disputing property taxes due on a vehicle that they are initially titling/registering from a casual sale (individual to individual).

Therefore, customers disputing property tax values have a choice to either pay the taxes and then request a prorated refund from the applicable Tax County or they can purchase a Limited Registration Plate (LRP). If a LRP is issued, the customer must request an adjustment from the applicable Tax County and then submit the new tax amount due to the Division. County Tax offices cannot adjust property taxes on a vehicle until a license plate has been issued in the name of the customer.

Please be reminded not to collect any property taxes under Misc./Doc. Fees. When taxes are taken this way there is no actual service being performed for the vehicle in question, therefore; no bill is being generated in the VTS system for the money to match up to.

Upon renewal of this registration, the taxes paid are for the full 12 months preceding your new expiration date.

Appealing Value / Exemptions - The property tax value for a registration renewal is based on the January 1 value and your assigned renewal month. The owner may file a written appeal of the appraised value or submit an application for exemption with the county tax office within 30 days of the due date shown on the front of this notice. Taxes are to be paid on the motor vehicle when they are due and are subject to a full or partial refund if the appeal is decided in the owner's favor.

License Plate Transfers - If after payment of this notice, an owner transfers the license plate shown on this notice to another motor vehicle during the active registration period, no refund of taxes is due. Property Tax Refund

When a registered owner transfers a vehicle to a new owner or moves out of state and registers in another jurisdiction the owner should surrender the NC plate to NCDMV. Owner may request refund from their county tax office within one year of surrendering plate. The county tax office will determine the prorated amount if any refund is due to the customer.

Vehicle and Plate Stops

Bad Debt Stop

The Bad Debt Stop will be placed against any customer who owes money to any section of DMV. Once the stop is placed, it will prohibit all services for that customer from being performed by any section of the Division until the money is collected. The first phase will be used to collect returned check fees.

Bad Credit Warning

A credit warning occurs when the customer has previously given a bad check. The Division will allow only cash services or "no service." If "no service" they must clear their stop by contacting Fiscal through the DMV CALL CENTER telephone at (919) 715-7000 or (919)707-4260. A cash only customer can pay with cash, money order, or certified/travelers check.

Child Support Stop

The county places a stop against an individual failing to pay child support. Only the Department of Human Resources can clear the stop. The stop will not allow the issuance of a license plate, driver license or transfer of license plate.

Correspondence Stop

Vehicle Stop:

- 1. Stop placed against the VIN (vehicle identification number).
- 2. Indicates a problem with title document, application, lien, etc.

Plate Stop:

- 1. Stop placed against the plate
- 2. Indicates a problem with the plate

The stops may or may not allow the transaction to be completed. If allowed the license plate agency can continue the service.

County Tax Stop

Effective September 2013, DMV began collecting vehicle property tax at the time of renewal and issuance of a new plate; prior to this date the vehicle property tax was collected by the individual counties. All delinquent accounts resulted in a block being placed against the plate record. To remove the tax block:

Page | 208

- 1. MAV2 for the proper vehicle and tax year must be presented (faxed copies are acceptable) or
- 2. County tax office can remove

Plate cannot be transferred to another vehicle until MAV-2 (County Tax Receipt) is received to clear the stop.

Dealer Stop

The dealer previously titled a vehicle for resale purposes only, paid a dealer title fee of \$25.50 and nohighway use tax. The dealer is now requesting a license plate for the vehicle.

- 1. Must pay an additional \$45.25 to equal \$66.75 title fee.
- 2. Pay highway use tax based on computer value or bill of sale.
- 3. A customer cannot use a bond to register a vehicle involved in an out-of-trust case.

DWI Customer Stop

The DWI law effective December 1, 1997, requires that a vehicle being driven by a person in violation of G.S. 20-138.1 or G.S. 20-138.5 (driving while license is revoked because of a prior DWI) be seized and stored at a place designated by the county school board. The seized vehicle may or may not be owned by the driver. When the case goes to court, if the defendant is found guilty, the court may order the vehicle to be sold.

The court will place stops on that vehicle, regardless of the owner, as well as all vehicles that the defendant owns, which will cause pick up orders to be issued for the plates.

Customers with pending DWI/Felony Elude may perform all plate registration services. Automatic programming has been requested to allow these services, however, in the meantime please contact the STARS Help Desk to allow registration service. No court documents will need to be presented for this service. No title changes, including correction or junk title may be made while in the pending status, however, a lien recording with a lien date before the seizure date can be performed.

DWI Registered Owner Stop

A DWI Registered Owner stop occurs when a driver is convicted of DWI. The stop is applied and cleared only by the county Administrative Office of Courts. The stop will remain until the court renders a decision and the vehicle is either returned to the owner or is sold by the School Board. No registration service will be allowed. Customer cannot perform a title service but may perform lien recording, correction, or junk title services.

Title Held Pending DWI, Felony Speeding to Elude Stop

A Title Held Pending DWI Stop is applied when the vehicle is seized before the defendant goes to court. The charging officer submits Notification to the Division of Motor Vehicles of Seizure and Impoundment of Vehicle through DCI. Once received DMV License and Theft Bureau places a stop against the vehicle that was being driven at the time the offense occurred. No registration services will be allowed. No title services other than lien recording (lien date must be before seizure date), correction or junk title may be performed. The County Administrative Office of Courts that placed the stop can only clear stops. Any questions concerning Title Held DWI Pending Stops should be directed to DMV License and Theft Bureauat (919) 615-6035 or the county.

Emission Stop

North Carolina law (20-183.2) requires an annual safety/emission inspection of all gasoline burning 1996 or newer model vehicles registered or required to be registered in an emission county. Each vehicle that does not meet the carbon monoxide or hydrocarbon standards will be required to be repaired or receive a waiver. The system will track the inspection of vehicles and as a result, fines and penalties will be levied against owners that do not have the emissions test for their vehicles performed within four months of their compliance deadline.

The bar code on the registration card is used by the inspection station to scan the bar code and then it will match the vehicle with database. <u>Emission counties:</u> Alamance, Buncombe, Cabarrus, Cumberland, Davidson, Durham, Forsyth, Franklin, Gaston, Guilford, Iredell, Johnston, Lincoln, Mecklenburg, New Hanover, Randolph, Rowan, Union, and Wake.

A motorist that has permanent plates (i.e., county, state vehicles, etc.) and fails to have the vehicle emission inspection performed will receive a reminder letter from **DMV License and Theft Bureau** 90 days prior to the inspection due date. If the vehicle is not inspected or does not pass inspection within four months of the inspection due date, an <u>Emission Stop will be placed against that vehicle</u>. The stop has two components:

- 1. Emissions Block on the Vehicle This block is placed against the vehicle until it passes inspection and will stop most titling and registration functions for that vehicle.
- 2. Emissions Penalty The penalty is \$50.00 for 1996-year model vehicles and newer. The owner must pay the penalty whether or not the vehicle is inspected.

The following procedures may be allowed without having the vehicle inspected and paying the civil penalty are:

Lien Recording

Lien Recording with Duplicate

Title Correction (only if a lien on the vehicle)

Title Correction with Duplicate Title (only if a lien on the vehicle)

Transfer Services

Duplicate Title (only if a lien on the vehicle)

Junk Title

Reissue Unclaimed Title (only if a lien on vehicle)

The vehicle may be sold, and the purchaser would not be subject to the penalty, but the vehicle would still be required to pass a safety/emission check. The new purchaser may purchase plates for the vehicle unless it is a gift. If the vehicle is transferred as a gift (to spouse, child, parents, etc. and exempt from highway use tax,) the block and penalty transfer to the purchaser and the new owner becomes responsible for the penalty.

- 1. If vehicle has been wrecked or inoperable:
 - a. License plate should be turned in and copy of plate receipt surrendered
- 2. If vehicle moved to a non-emission county:
 - a. Mail copy of your new registration to the Division or
- 3. If vehicle sold, junked, or moved out of state:
 - a. Advise to whom, address and date

If the customer fails to have the vehicle inspected additional penalties may be assessed to the vehicle.

If customers have questions regarding Emission Stops, they may call the customer line at 877-421-0020.

Pending DWI, Felony Speed to Elude Stop

A Felony Speed to Elude Stop is applied when the vehicle is seized before the defendant goes to court. The charging officer submits Notification to the Division of Motor Vehicles of Seizure and Impoundment of Vehicle through DCI. Once received DMV License and Theft Bureau places a stop against the vehicle that was being driven at the time the offense occurred. No registration services will be allowed. No title services other than lien recording (lien date must be before seizure date), correction or junk title may beperformed. The County Administrative Office of Courts that placed the stop can only clear stops. Any questions concerning Felony Speed to Elude Stops should be directed to DMV License and Theft Bureau at (919) 615-6035 or the county.

Global Stop (Civil Penalty Past Due Stop)

Effective August 14, 2017, the Division of Motor Vehicles will enforce the amended version of G.S. 20-311, which provides that the "failure of an owner to pay any penalty or fee assessed pursuant to this section (lapse in financial responsibility) shall result in the Division withholding the registration renewal of any motor vehicle registered in that owner's name." Therefore, for all lapses in financial responsibility that become active on or after August 14, 2017, the Division will deny all registration services for any motor vehicle owner or owners who fail to timely pay any penalty or fee pursuant to G.S. 20-311. This applies to all ownership types regardless of whether the motor vehicle is owned solely or jointly. Titling services will not be affected by this.

Inspection Stop

An Inspection Stop occurs when the license plate has expired, and the vehicle has not been inspected within 90 days of the plate expiration date. The vehicle must pass a safety or safety/emission inspection before plate can be renewed.

Insurance Stop

An FS-4 (Notice of Termination) is received from an insurance company showing cancellation of liability insurance. The Division will then send out a FS-5 letter "Notification of Termination of Liability Insurance Coverage".

The FS-5 letter indicates that compliance is required within **10 days** of notice being sent to the customer. By way of an administrative decision, the customer is allowed an additional **20 days** for mailing and processing: giving **30 days total.**

FS-5 sent to owner requesting either:

- Provide proof of continuous coverage (FS-1)
 Or
- 2. Surrender the license plate, if no current insurance exists and pay the civil penalty if the

lapse occurred during the time the vehicle was in possession of the valid registration Or

3. Pay a civil penalty and show proof of current coverage (FS-1) if a lapse hasoccurred – if an active plate is present or attempting to secure a valid registration plate.

If a lapse of liability insurance occurs during the 15-day grace period, a civil penalty will still be due.

A Notice of Revocation (FS-7) is a letter generated on the 30th day if the file is not cleared. A restoration fee of \$50 is applied to the file. This fee is only due at the time of renewal or issuance of a new plate for the vehicle.

A FS-44 <u>does not</u> generate correspondence to the customer. Law enforcement's system "DCI" is notified that the plate is revoked, which allows any form of law enforcement to pick up the plate or remove the plate from the vehicle.

If an FS-1 is received showing an effective date on or before date of termination, then the insurance filewill be cleared. A plate cannot be transferred if the vehicle the plate is currently on has an insurance stop.

If a lapse did occur, a civil penalty must be paid. After July 1, 2008, the civil penalty assessed varies based on the number of prior paid lapses an individual has had within a three-year period. The first lapse with no prior paid lapses will have a civil penalty of \$50.00. A second lapse with one prior paid lapse will have a civil penalty of \$100.00. Three or more lapses with two or more prior paid lapses will have a civil penalty of \$150.00.

Passing Stopped School Bus Stop

A Passing Stopped School Bus Stop is applied when the registered owner of a vehicle has failed to pay any civil penalty imposed by any school board in North Carolina for a violation of passing a stopped school bus. The Division shall refuse any registration or transfer of registration when notified by the local school board of education of this violation. The local school board of education applies these stops and is the only one that can clear them. Any questions concerning Passing Stopped School Bus Stop should be directed to the local school board of education.

Titling services will not be affected by this stop.

Listed below are the only registration transactions that will be allowed for the vehicle in STARS:

State Highway Patrol Customer Stop

The North Carolina General Assembly passed legislation under Session Law 2016-87, House Bill 1044, Section 4 under 20-54 that gives the NCDMV the authority to refuse registration or certificate of title. The Division shall refuse registration or issuance of a certificate of title or any transfer of registration upon any of the following grounds: The Division has been notified by the State Highway Patrol (SHP) that the owner of the vehicle has failed to pay any civil penalty and fees imposed by the State Highway Patrol for a violation of Part 9 of Article of this Chapter. If a customer has failed to pay any civil penalty and fees imposed by the State Highway Patrol an SHP Customer Stop will be placed against the customer's ID#. The State Highway Patrol is the only agency that can place or remove the SHP Customer Stops. If a customer has any questions about a stop, the customer will need to contact the NC Department of Public Safety, State Highway Patrol Cash Management Unit at 919-715-8193.

Stolen/Stopped Vehicle

A stop occurs when the vehicle is sold by a mechanic or lien storage sale, sold at public auction, judicial proceedings etc. A stolen vehicle stop is placed against a vehicle record when the vehicle is stolen. The agency placing stolen stops must remove the stop. Any questions concerning stop/stolen vehicles should be directed to the DMV License and Theft Bureau (919) 861-3141.

Toll Violation Stop

Toll violation stops will be applied to any registrant who owes money for passing through toll roads in North Carolina. The North Carolina Turnpike Authority will apply and remove the stops for non-payment of those fees. Registration renewal services will not be allowed on any vehicle with a toll violation stop until the stop has been cleared. Any questions concerning a toll violation stop or for removal of a toll violation stop, please contact the North Carolina Turnpike Authority at 1-877-769-7277 or www.ncquickpass.com.

A plate not used on a vehicle should be returned for cancellation. Local government owned vehicles are also eligible to purchase a private auto license for \$6.00.

Chapter 11: Trucks

Commercial/Permanent Plates G.S. 20-88

Private passenger and property hauling vehicles are those vehicles owned, operated, and used solely for personal or private business purposes and are not engaged in transporting passengers or goods for compensation.

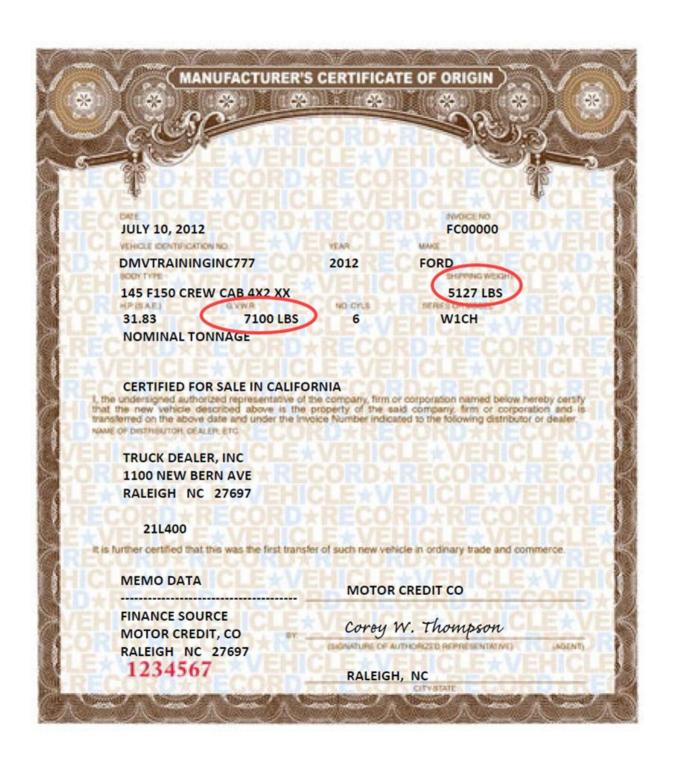

When such vehicles are commercially operated regularly in transporting property, license fees are based on the owner's declared gross vehicle weight (GVW) from 7,000 pounds to 80,000 pounds. Gross vehicle weight is defined by statute as the empty weight of the vehicle plus the heaviest load to be carried including thedriver.

Small Trucks with Declared Gross Vehicle Weight (GVW) -4,000, 5,000 or 6,000 Pounds:

- 1. Not classified for commercial licensing
- 2. Issued the First in Flight or First in Freedom plate
- 3. May not legally park in loading zones

It is important to determine how the owner will use such vehicles to indicate on the title application the proper class of license. Civil penalties for failure to comply with registration requirements can be severe. Vehicles operating with insufficient license weight as required under G.S.20-99 (a), may be assessed fines ranging from \$10.00 to \$7,000 per vehicle violation.

Effective January 1, 2003, all vehicles with a declared weight of 7,000 to 26,000 will be issued a commercial plate showing the word "Weighted." Vehicles weighing 26,001 through 80,000 pounds will be issued a new permanent truck plate.

- 2. Permanent For-Hire Truck (PFT)

- 3. A renewal notice will be mailed each year for the appropriate fees.

Farm Trucks G.S. 20-50, 88 (1) (2)

A farmer is defined as an individual who raises, grows, and produces farm products on a farm in North Carolina, not less than ten (10) acres in area, and not engaged in the business of buying farm products for resale. The applicant's sole occupation is not limited to farming, but the truck or truck-tractor, licensed at the farm rate, cannot be used for any other purpose, or in any other occupation in which that person might be engaged.

1. Farmer Affidavit (Form MVR-9) must be completed in full when licensing a vehicle for the first time.

Farm Products

Farm products are all products produced on the farm owned or controlled by the farmer who is engaged in a general farming operation. All products would include animals, pulpwood, stove wood, logs, lumber and flower bulbs or other nursery products grown, produced, or processed by the farmer.

Farm Supplies Defined

Farm supplies are any supplies of whatever nature, which the farmer might transport for use on his farm. This includes hired workers or employees, who may be transported without charge for work on his/her farm.

Use of Farm Plates Restricted

Farm plates must be used exclusively for transporting the applicant's own farm products, raised, and produced on his farm and farm supplies necessary to the farming operation. The term "his farm" means the farm under his direct management, supervision, control, or custody and does not necessarily mean that title to the land must be vested to him. Farm plates cannot be on trucks transporting farm products for neighbors, farm products purchased for resale or products or supplies of any nature hauled for compensation or for-hire.

Farm Truck Plates

- 1. Fee is determined on monthly basis.
- 2. Owner must initial weight.
- 3. Form MVR-9, Farm Affidavit, required with all questions answered in the affirmative.

Farm Plates Expire

- 1. Farm plate purchased in May will expire one year of purchase.
- 2. 3-month farm plate purchased May will expire July 31 with no days of grace.

Month Farm Plate

- 1. Expiration date is the end of the 3-month period, no grace period.
 - a. The 3-month farm plate issued May 4 expires July 31 with no days of grace (July monthsticker issued.) Customer will pay a 3 month fee.

Weight G.S. 20-88

The license fee determined by gross weight, which is the empty weight and maximum load to be transported (including the empty weight and maximum load of any trailer or semi-trailer that is to be pulled.) The weight of trailers is not included when operated with a truck that is licensed for 6000 pounds or less, and the combined gross weight does not exceed 9000 pounds.

Passenger and property carrying vehicles used commercially require a minimum weight of 7000 pounds. Property carrying vehicles maximum weight is 80,000 pounds.

Reduction and Increase of Weight

The registration card issued for trucks and truck-tractors shows the weight in even thousand pounds. During the license year an owner may transfer a plate to a previous vehicle for the weight originally on the vehicle with payment of \$25.50 transfer fee. The licensed weight can be increased anytime by surrendering the registration card and payment of additional fees. A refund is not issued when weight is decreased on a truck or truck tractor.

Weight Increase/Weight Decrease

- 1. License plate and expiration date will stay the same
- 2. License fee is determined on monthly rates at the time weight is increased
- 3. Customer must complete Form MVR-618 (Statement of Weight Declaration)
- 4. If credit allowed is more than the cost of license, a refund will not be issued

Pro-ration of Fees G.S. 20-95

Truck license plates are issued on a full year basis (except for 3-month farm truck plates). Truck license fees are no longer due on a quarterly basis. See attached rate chart (MVR-34). Effective January 1, 2006, truck license fees are no longer due on a quarterly basis. Fees are based on full year (Except when equipment is added to an IRP account during the year the fees are pro-rated depending on when the account expires).

- 1. Bills of sale tracing to first owner, if possible, or bills of sale from last two owners with the last bill of sale being notarized.
- 2. A vehicle brought from a foreign country requires an inspector's report.

- 1. The license fee is determined by the gross weight of the combination of the truck and vehicle pulled.
- 2. A rollback must be titled as a truck.
- 3. May issue IRP or For Hire Plates or be issued commercial plates for private use.

Federal Heavy Vehicle Use Tax (FHVUT) G.S. 20-88(j)

Proof of payment of the Federal Heavy Vehicle Use Tax must be presented to the Division at the time of licensing a motor vehicle if the registered weight is 55,000 pounds or more. Heavy Vehicle Use Tax Form 2290 is due August 31st for any vehicles in use in July. The tax applies only to highway motor vehicles that are at least 55,000 pounds taxable gross weight registered for highway use and used on a public highway.

The tax period is July 1 through June 30. The tax is incurred when a taxable vehicle is first used on any highway during the period. If the vehicle is first used in July, a full year's tax must be paid. If the vehicle is first used in a month after July, a partial-year tax must be paid. This tax is paid in advance.

If a vehicle is sold during the tax period, the first owner remains liable for any unpaid federal heavy vehicle highway use tax. If tax has been paid, the first owner upon selling the vehicle can contact the IRS (Internal Revenue Service) for a refund. The subsequent owner is also liable for any unpaid federal heavy vehicle highway use tax if the vehicle is registered and used in the tax period.

The tax is suspended for vehicles used 5,000 miles or less on public highways during a tax period and for agriculture vehicles used 7,500 miles or less. If the vehicle is sold during the tax period before it has been used 5,000 miles, the former owner is not liable for the tax if they supply the new owner with a statement showing the following:

- 1. Former owner's name, address, and taxpayer identification number
- 2. Vehicle identification number
- 3. Number of miles the vehicle was used during the tax period
- 4. Odometer reading at the time of sale
- 5. Name, address, and taxpayer identification number of the new owner

If, after the sale, the use of the vehicle exceeds 5,000 miles (including the miles used by the first owner), the new owner is liable for the entire tax. If the former owner does not provide the above statement to the new owner, they are equally liable for the tax.

Different Situations When FHVUT Would Be Required:

- 1. If a vehicle weights 55,000 or more pounds Schedule 1, 2290 Form is required.
- 2. A business owning 21 or more vehicles weighing 55,000 or more pounds, must have Form 2290 (Form may indicate "21 vehicles.")
- 3. A vehicle being purchased with a GVW of 55,000 pounds or more, the owner has 60 days to register with IRS and send the Schedule 1, 2290 to the Division. When licensing the vehicle, the customer will receive a letter advising of requirements for FHVUT.
- 4. An increase in weight to 55,000 or above requires the form prior to weight increase.
- 5. If the owner has owned the vehicle for more than 60 days and has not listed with IRS (Internal Revenue Service,) the owner must obtain the Schedule 1, 2290 before transferring the plate.
- 6. A new owner must apply for an "EIN" number (employee identification number) Form SS-4 which is obtained from the IRS office.

Proof Of Payment

1. An original, fax, or copy of Schedule 1 portion of Form 2290 listing the vehicle being licensed (unless the schedule 1 covers more than 21 vehicles) receipted by the Internal Revenue Service.

- 2. A copy of Form 2290 with Schedule 1, as filed with IRS, with a copy of front and back of canceled check- covering payment of tax to IRS or validated receipt for payment from local IRS Office.
- 3. A confirmation page showing tax was paid electronically or copy of Form 2290 with Schedule 1 showing stamped E-File.

- 1. Schedule 1, 2290 must show correct fiscal year.
- 2. The serial number of the vehicle is required on the form and not the tax identification number.

Highway Fuel Tax Registration

An application for highway fuel tax registration is required for:

- 1. 2-axle vehicle with a gross weight or registered gross vehicle weight over 26,000 pounds.
- 2. 3 axle vehicles with 26,000 pounds or more regardless of weight, or
- 3. Vehicle used in combination when the weight of the combination exceeds 26,000 pounds.

Thirty-Day Permit for Nonresident G.S. 20-83

Owners of motor vehicles duly registered in a state or territory which is not allowed exemptions under the reciprocity provision desiring to make occasional trips into and through North Carolina may secure a thirty-day permit for one- tenth of the annual fee. This privilege is also extended to non-residents who wish to operate within the state for a period of thirty days. Should the operation exceed the thirty-day period, liability for license shall accrue for the weight indicated on the permit or additional weight as of the first date of operation and the amount paid for the thirty - day permit may be applied to the license fee. Under no circumstances can a thirty -day permit be renewed.

The number of permits obtained for any vehicle shall not exceed one in a calendar year. The issuance of a thirty - day permit is contingent upon the proper registration of a vehicle in the state of residence of the owner, and the registration certificates would be required as evidence of registration. Thirty-day permits may be secured from any of the Division of Motor Vehicles' License and Theft offices or from the Division.

There is no special application form for a thirty-day permit—regular receipt books are used. The receipt must show a description of the vehicle, license number, the date of issuance, the type of operation, and the gross weight if it is a property carrying vehicle, and the fee. Proof of liability insurance, including insurance company name and policy number are required.

Partial Payments or Drafts G.S. 20-94

Registrants may execute a draft for one half of their license fee, if the full amount equals more than \$200.00, and if the Commissioner of Motor Vehicles is satisfied with the required statement from their financial institution.

- 1. Half of the payment may be deferred until six months from the month of renewal upon execution of a draft in an amount equivalent to one-half plus a carrying charge of (3%) three percent. Any owner whose gross license fee amounts to more than \$200.00, but not more than \$400.00 may also be permitted to sign a draft during the license renewal period.
- 2. Any owner who executes a draft for one-half of his license fees cannot surrender plates in payment for the draft.

Intrastate For-Hire Operations

DEFINITION: Transporting Property or Passengers for Compensation by Motor Vehicle <u>WITHIN THE</u> STATE of North Carolina.

Intrastate For-Hire Operations have two categories.

- 1. REGULATED by North Carolina Utilities Commission or DMV
- 2. EXEMPT from regulations

Intrastate Regulated For-Hire

Federal Legislation of 1995 deregulated all **INTRASTATE FOR HIRE** operations with two (2) exceptions. These are:

Household Goods Movers
Picking Up and Delivering (household goods)
Passengers - Regular Route & Irregular Route
Picking Up and Discharging passengers along the route

Household Goods Mover Definition:

Carriers paid to move personal effects and property used in a dwelling. Also includes property to be used in a dwelling when the householder has purchased such property from a factory or store with intent to use in his dwelling and the householder or another party has requested the carrier and paid the transportation charges to the carrier for moving these goods.

Carriers who are householder goods retail delivery are used in connection with transportation, which means property or goods from a factory or store purchased by a householder with intent to use in his or her dwelling and the transportation is arranged and paid for by the householder or another party.

EXCEPTIONS: This does <u>not</u> include property moving from a factory or store when the seller is providing the transportation of the property for the householder. This does <u>not</u> include the contents of a mobile home when it is being moved.

Passengers: regular route & irregular route passengers on a bus or other passenger carrying body style listed in the FOR-HIRE VEHICLE USE/BODY STYLE MATRIX in Section 2.7.

EXCEPTION: This does **not** include passengers transported by Intrastate Charter operations.

Intrastate Regulated For-Hire Regulating Agencies

North Carolina Utilities Commission Regulates:

Movers of Household Goods/Furnishings

Loading & unloading within North Carolina. A C# is issued for this type of operation as proof of authority to engage in this business.

Examples

- 1. House holder is moving from Raleigh to Greensboro and hires DeHaven's Transfer & Storage of Raleigh, Inc. to transport the property in his house to the new residence in Greensboro.

International Registration Plan G.S. 20-86.1

PURPOSE AND PRINCIPLE

Effective with licensing year 1977, North Carolina became a member of the International Registration Plan.

The International Registration Plan is a registration reciprocity compact among 48 states of the United States, District of Columbia, and Provinces of Canada (Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland, Nova Scotia, Ontario, Quebec, Prince Edward Island and Saskatchewan) providing for payment of license fees on the basis of fleet miles operated in various jurisdictions. The unique feature of this plan is that even though license fees are paid to the various jurisdictions in which fleet vehicles are operated, only one (1) license plate and one (1) cab card is issued for each fleet vehicle when registered under the Plan. A fleet vehicle is known as an apportionable vehicle.

It is the purpose of this agreement to (1) grant full intrastate and/or interstate reciprocity to proportionally registered vehicles owned and/or operated by registrants of member jurisdictions, provided the registrant has proper intrastate and/or interstate authority from the appropriate regulatory agency or is exempt from regulation by the regulatory agency; and, (2) to provide for the continuance of interstate reciprocity granted to those properly registered vehicles owned and/or operated by registrants of non-member jurisdictions.

In the concept of one plate per vehicle rule, license fees will be computed according to percentage of mileage in each jurisdiction for the preceding year (See definition of preceding year.)

General Information for Apportioned Registration

Under the International Registration Plan, North Carolina registrants operating apportionable vehicles into or through one or more member jurisdiction shall file each year with the North Carolina Division of Motor Vehicles a uniform application for each apportionable fleet. All applicants for apportioned registration shall make application in such manner on forms, as the Commissioner shall furnish. A complete vehicle description of power units, and other information as required shall be listed on each application. If fleet(s) of apportioned vehicles operate in certain jurisdictions, the applicant shall list semi-trailers, full trailers, and auxiliary axles in addition to the power units.

Permanent apportion plates are issued to tractors and trucks with a weight greater than 26,000 pounds. All trailers are issued permanent apportion plates unless requested. Chapter 12: Reciprocity and Other States

Reciprocity Guidelines

The State of North Carolina is authorized by law (G.S. 20-4.1 thru G.S. 20-4.12) to exempt nonresidents from the North Carolina licensing requirements for motor vehicles for the same time and to the same extent as like exemptions are granted by other jurisdictions to residents of North Carolina.

- 1. Members of armed services returning from overseas are allowed 60 days to obtain home state license for their passenger vehicles that are properly registered by a foreign jurisdiction. When returning from an assignment in another state where there has been a proper registration of the vehicle, North Carolina license is required upon expiration of such plate.
- 2. Residents of North Carolina who are carrying on a business in another state may operate into and through North Carolina (interstate) a vehicle which is based and properly licensed in the base-point state.
- 3. When a resident carrier of this State interchanges a properly licensed trailer or semi-trailer with another carrier who is a resident of another state, and adequate records are on file in this office to verify such interchanges, the North Carolina licensed carrier may use the trailer licensed in such other state the same as if it were his own during the time the nonresident carrier is using the North Carolina licensed trailer.

NOTE: For states that do not title vehicles, the following applies: If the registration nor copy of title can be provided, two consecutive proofs of ownership and a notarized affidavit is acceptable.

Non-Residents of North Carolina (Passenger Cars)

1. Visitors-Tourists-Students:

Full reciprocity (meaning complete exemption from North Carolina registration) is granted to nonresident visitors, tourists, and students. This includes visitors, tourists, and students from foreign countries.

2. Commuters-Residents of South Carolina, Virginia, and Tennessee:

Residents of South Carolina and Virginia who work in North Carolina but who maintain their residence and domicile in their home state, to which they return each day or each weekend, are

Page | 292

permitted to use home state plates. Residents of Tennessee working in North Carolina must commute daily to be exempt from North Carolina license.

3. Salesmen:

Salesmen entering North Carolina from other states and establishing a residence or headquarters are subject to the same reciprocal provisions as other nonresidents. The basing of a vehicle in this state by a nonresident firm or corporation for the use of a representative who is a resident or who has established a residence or headquarters in North Carolina to represent such firm would make the nonresident subject to the registration of such vehicle in North Carolina.

4. Members of the Armed Services:

Under the Soldiers and Sailors Civil Relief Act, nonresident servicemen are relieved from the payment of motor vehicle license taxes and fees levied by the states in which they may be stationed, "provided that the license fee or excise tax required by the state, territory, possession, or District of Columbia of which the person is a resident or in which he is domiciled has been paid." This in effect means that a valid operator's license and registration plate is required from North Carolina (the state of residence) or from the home state (the state of domicile.)

Servicemen transferring to North Carolina with their cars not properly registered in their home state, but properly registered in the state where stationed at the time of registration must, upon expiration of the plate then in effect, either register in North Carolina or in the home state. A serviceman may not legally license his car in any state just because he is a member of the military but, only in his home state or in the state where he is stationed.

Members of the armed services returning from foreign duty have 60 days in which to exchange foreign tags for home state plates or obtain North Carolina license plates.

5. Teachers:

Nonresident members of the teaching profession temporarily residing in North Carolina for the purpose of gainful employment, who do not commute to their home state each weekend are subject to the same reciprocal privileges granted other nonresidents who establish a North Carolina temporary residence to engage in gainful employment.

Requirements for Registration of Vehicles Which are Registered but Not Titled

4. Trailers:

Registration for a small trailer in another state just prior to titling in North Carolina, the Division requires two bills of sales from the last two out of state owners. Notarization is required on the Bill of Sale from the last owner to the NC buyer.

- a. If the Owner is able to furnish only one bill of sale, the Division requires an affidavit of facts.
- b. Allows a license plate to be issued but delays issuance of a North Carolina title for 4 months toensure that there are no undisclosed liens and that the trailer is not stolen.

5. Out of State Registration for homemade trailer:

- a. Out of state registration shows trade name as homemade and no serial number.

This is a reminder that North Carolina does not accept Kentucky red border titles for conversion to any form of NC issued title due to the previous history of junk-type branding as outlined by NCGS 20-71.3(g). Kentucky will accept vehicles that have previously been branded "Certificate of Destruction," "Junk," "Scrap or "Parts Only/Non-Rebuildable" from other states and convert them to the attached example of salvage title.

Notice the Kentucky title has the heading "May Not Be Eligible For Titling In All States." N.C.G.S. 20-71.3 (g): "Any motor vehicle that has been branded in another state shall be branded with the nearest applicable brand specified in this section, except that no junk vehicle or vehicle that has been branded junk in another state shall be titled or registered."

If the joint security interest holders request survivorship, the title shows "Y" in the 2nd position. "N" means no survivorship was requested. Survivorship means there is joint ownership or joint tenancy on the vehicle. Federal and state laws require that you (seller and buyer) state a vehicle's mileage when there is a transfer of ownership on vehicles 9 years old or newer. Failure to complete an odometer disclosure or providing a false statement may result in fines, imprisonment or both. Under Oregon law, the offense of submitting a false odometer disclosure is a Class C felony (ORS 815.430). Oregon law requires that an application for transfer of title be submitted to DMV within 30 days of the date you buy a vehicle. Failure to do so within 30 days may result in a late title transfer fee of up to \$50. Seller Notice ORS 803.112 requires a person who sells a vehicle covered by an Oregon title to notify DMV of the sale within 10 days of the date of the sales transaction. This requirement is also known as seller notice. A seller notice must contain the vehicle identification number, vehicle registration plate number, the full name of the seller, and the full name of the buyer. Seller notice may be submitted to DMV in any one of the following forms and must be received by DMV within 10 days of the sale of the vehicle: . In writing, in the form of a Notice of Sale or Transfer of a Vehicle (DMV Form 6890), a completed seller notice on the back of a registration card; or . Through DMV's website www.oregondmv.com or an official State of Oregon website that hosts or administers a DMV application or service. I certify the vehicle described has been transferred to the following (signature certifies to odometer disclosure and releases interest in vehicle): DATE OF SALE OR TRANSFER BUYER'S ADDRESS ODOMETER READING (NO TENTHS) I certify to the best of my knowledge that the odometer Stated mileage is in EXCESS of mechanical limits REASSIGNMENT reading is the actual mileage of the vehicle UNLESS one of The odometer reading is NOT the actual mileage. the following statements is checked: WARNING - ODOMETER DISCREPANCY All owners shown on the front of this title, who are releasing their interest, must sign. SELLER'S PRINTED NAME SIGNATURE SELLER'S PRINTED NAME SELLER'S ADDRESS (IF DIFFERENT FROM FRONT OF TITLE) I am aware of the above odometer disclosure made by the seller/agent. BUYER'S PRINTED NAME Security Interest Holder to be recorded and shown on new title: LEN SECURITY INTEREST HOLDER'S NAME SECURITY INTEREST HOLDER'S ADDRESS Title Brand A title brand does not necessarily indicate the extent to which a vehicle may have been damaged, whether a vehicle has been repaired, to what degree a damaged vehicle has been repaired or if the vehicle has been inspected for safety. A title brand issued outside Oregon indicates the jurisdiction that issued the brand (i.e., "LEMON CA," or "BRANDED WA"). Please contact the jurisdiction of issuance for information regarding the brand. A title brand issued in Oregon (e.g., a vehicle that is assembled or totaled in Oregon) does not include the name of the jurisdiction.

When a title, mailed to a lien holder by the Division of Motor Vehicles, is not received, affidavits by the registered owner(s) and lien holder(s) are required in order to obtain a duplicate title.

G.S. 20-109.1. Surrender of titles to salvage vehicles.

(a) Option to Keep Title. — When a vehicle is damaged to the extent that it becomes a salvage vehicle and the owner submits a claim for the damages to the insurer of the vehicle, the insurer must determine whether the owner wants to keep the vehicle after payment of the claim, the procedures in subsection (b) of this section apply. If the owner wants to keep the vehicle after payment of the claim, the procedures in subsection (c) of this section apply.

- (b) Transfer to Insurer. If a salvage vehicle owner does not want to keep the vehicle, the owner must assign the vehicle's certificate of title to the insurer when the insurer pays the claim. The insurer must send the assigned title to the Division within 10 days after receiving it from the vehicle owner. The Division must then send the insurer a form to use to transfer title to the vehicle from the insurer to a person who buys the vehicle from the insurer. If the insurer sells the vehicle, the insurer must complete the form and give it to the buyer. If the buyer rebuilds the vehicle, the buyer may apply for a new certificate of title to the vehicle.
- (c) Owner Keeps Vehicle. If a salvage vehicle owner wants to keep the vehicle, the insurer must give the owner an owner-retained salvage form. The owner must complete the form and give it to the insurer when the insurer pays the claim. The insurer must send the completed form to the Division within 10 days after receiving it from the vehicle owner. The Division must then note in its vehicle registration records that the vehicle listed on the form is a salvage vehicle.
- (d) Theft Claim on Salvage Vehicle. An insurer that pays a theft loss claim on a vehicle and, upon recovery of the vehicle, determines that the vehicle has been damaged to the extent that it is a salvage vehicle must send the vehicle's certificate of title to the Division within 10 days after making the determination. The Division and the insurer must then follow the procedures set in subsection (b) of this section.
- (e) Out-of-State Vehicle. A person who acquires a salvage vehicle that is registered in a state that does not require surrender of the vehicle's certificate of title must send the title to the Division within 10 days after the vehicle enters this State. The Division and the person must then follow the procedures set in subsection (b) of this section.
- (f) Sanctions. Violation of this section is a Class 1 misdemeanor. In addition to this criminal sanction, a person who violates this section is subject to a civil penalty of up to one hundred dollars (\$100.00), to be imposed in the discretion of the Commissioner.
- G.S. 20-85 sets the fee for issuing a salvage certificate of title.

RULES AND REGULATIONS CONCERNING CHANGES OF MOTORS, BODIES, FRAMES, ETC.

- 1. A certificate of title follows the vehicle rather than the motor. When another motor is placed in a vehicle, an application for correction of the certificate of title should be filled with the Division of Motor Vehicles. (Exceptions: The V-8 Ford, Mercury and Lincoln products are not assigned motor numbers. Therefore, the change of motor will not affect the identification numbers located on the frame and will require no notice to the division. The registration of vehicles manufactured in 1954 and subsequent years is by the identification number (serial number), consequently, when motors are changed in these vehicles, a notice to the Division of Motor Vehicles is not required.)
- 2. If the replacement motor is a new one, a bill of sale covering the purchase of it should be attached to the application for correction; and if the motor is used and currently registered in North Carolina, the title properly assigned to the applicant is required for cancellation or correction, depending on the disposition of the body and chassis from which the motor was removed. If the motor is used but not currently registered in North Carolina, a bill of sale is required to establish ownership.
- 3. Body changes require a correction of the certificate of title. When one body is removed and another factory-built body is used to replace it, the certificate of title for both vehicles should accompany the application for cancellation or correction, depending on the disposition of the chassis and motor from which the body was removed.
- 4. The certificate of title for a vehicle in which a motor is being placed must accompany the application for correction. If the certificate of title is lost, an application for a duplicate certificate of title must accompany the application for correction.

NOTES

- Note A If the registered owner's name has been changed by permission of the courts, a certified copy of the court order, authorizing the change, must accompany the application.
- Note B Firm and trade names may be corrected when the ownership remains principally the same. The incorporation of partnerships and proprietorships requires a transfer of the title and a correction of the registration plate record.
- Note C If the application is to correct an error in the motor or serial number(s), it is recommended that a pencil rubbing be made and attached to the application.
- Note D A change in the name of the lienholder requires a confirmation by the lienholder whose name is recorded incorrectly.
- Note E If the application is to correct the identification number(s) due to a change of a motor or a body, give the former number(s) replaced, the date and the source of purchase of the motor or body used for replacement and whether purchased new or used.
- Note F An assignment of a certificate of title by an owner(s) can be voided only if no sale occurred. An application for a substitute title must be accompanied by affidavits, signed by all parties concerned, that no sale was made.

MVR-6 (Rev. 9/21) North Carolina Division of Motor Vehicles

LIEN RECORDING APPLICATION

APPLICATION MUST BE FILED WITHIN 20 DAYS OF DATE OF SECURITY AGREEMENT OR LIEN DATE WILL BE PERFECTED BY THE DIVISION TO THE DATE OF RECEIPT OF APPLICATION.

This application must be accompanied with the certificate of title unless it is in the possession of a prior lienholder. The Division, upon receipt of the application, will procure the title from the prior lienholder for the purpose of recording the new lien and will return the title to the first lienholder and notify the subsequent lienholder(s) that additional lien(s) has been noted on the certificate of title.

Authorized Medical Certifiers

Medical certification and recertification requirements for handicapped parking privileges must be satisfied by the certification of a licensed physician, a licensed physician assistant, a licensed nurse practitioner, a licensed ophthalmologist, a licensed optometrist or the Division of Services for the Blind or by a disability determination by the United States Department of Veterans Affairs that the applicant is handicapped.

For an initial application for temporary placard only, the certification that the applicant is handicapped may be made by a licensed certified nurse midwife.

Disability Parking Placards

A licensed medical provider certifies that the applicant is a person with an affliction, disability or handicap defined under G.S. 20-37.5. The Disability Parking Placard is issued for five years and requires a medical provider's recertification upon re-issuance to continue parking in disability accessible areas. Applicants will be mailed a renewal application to be re-certified by their medical provider. Applicants may renew their Disability Parking Placard up to 90 days prior to the expiration date of the placard.

Temporary Disability Parking Placards

A licensed medical provider certifies that the applicant is a person with an affliction, disability or handicap defined under G.S. 20-37.5. The Temporary Disability Parking Placard is issued for a period of one to six months. If an extension is needed beyond the expiration date, a new application with medical provider's re-certification will be required. Upon expiration, Temporary Disability Parking Placards should be destroyed.

Total and Permanent Disability Parking Placards

A licensed medical provider certifies that the applicant is a person with an affliction, disability or handicap defined under G.S. 20-37.5 and is of a total and permanent nature. The Total and Permanent Disability Parking Placard is issued for five years and does not require a medical provider's re-certification upon re-issuance to continue parking in disability accessible areas. Applicants will be mailed a renewal application. Applicants may renew their Total and Permanent Disability Parking Placard up to 90 days prior to the expiration date of the placard.

1. OUT OF STATE RESIDENTS MOVING TO NORTH CAROLINA MUST OBTAIN A NORTH CAROLINA DRIVER LICENSE PRIOR TO TITLING A VEHICLE.

2. APPLICATION (FORM MVR-1)

- a) <u>Driver License Number:</u> Each owner of the vehicle must present a valid North Carolina Driver License or Special Identification Card to register the vehicle in North Carolina. The name on the Driver License and application should be the same. After successfully completing the driver license process, you will be given a Temporary Driver Certificate. A Temporary Driving Certificate is valid for 20 days from the date issued. The driver license is mailed to your residence within 20 days of application. In order to register a vehicle you must have your valid out of state driver license along with your valid Temporary Driving Certificate.
- b) Name: For single or joint ownership, the full name of each owner is required. No initials are accepted unless they stand in lieu of a name. For corporations, the full corporate name is required. For partnership and proprietorship, the trade name is required, if one is used, or if partnership, both partners' full names are required.
- c) Address: The North Carolina residence address, including the zip code and county (not post office number), is required for individuals; for business firms, the business address is required. Include the mailing address when it is different from the residence address. The county declared is the North Carolina county in which the vehicle is located.
- d) Liens: All liens must be declared in order of their priority.
- e) Odometer Disclosure Statement (MVR-180): Seller shall disclose the mileage to the buyer in writing on the application with signatures and hand printed name. If a vehicle is 10 years old and older, odometer reading is not required.
- f) Witness: The application must be witnessed by a notary public or other person authorized to act in the capacity.

3. FINANCIAL RESPONSIBILITY

To obtain or transfer a North Carolina registration plate, the law requires your vehicle be insured by a company licensed to do business in the State of North Carolina in minimum amounts of \$30,000/\$60,000/\$25,000. This certification must be furnished at the time of application for registration.

4. DOCUMENTS OF OWNERSHIP REQUIRED

a) New Unregistered Vehicles

The manufacturer's certificate of origin, properly assigned, is required with a bill of sale showing price and trade-in vehicle and credit.

b) New or Used Vehicles Registered in Certificate of Title States

The certificate of title in the name of the applicant (properly assigned) must include the purchaser's name and address, date of sale or date of delivery, seller's signature and notarization. If the title is in the possession of a lienholder who can produce evidence of registration and lien, the Division of Motor Vehicles will accept the application without the title and will issue a plate.

c) New or Used Vehicles Registered in Non-Title States

If the vehicle was last registered in a state with no title requirement for registration, the North Carolina Division of Motor Vehicles requires current registration certificate, proof of purchase, and evidence of registration for three consecutive years.
