Batch Reverification Information and Instructions

This guidance applies to projects that only need Reverifications for previously issued permits. This may also be known as a permit renewal or permit reissuance.

If a project contains changes to impacts, this would be considered a permit modification and is not eligible for this batch- processing.

Documents:

Use the Word template found at the ECAP Website:

https://connect.ncdot.gov/resources/Environmental/EAU/ECAP

Distribution:

404 US Army Corps of Engineers:

Batched requests should be emailed directly to your Corps project manager.

RRS should not be used for reissuances.

401 DWR Water Quality Certification:

Batched requests should be emailed to Christi Lynn Carpenter and Faith Harding. Please do not include the DWR rep (Christi Lynn and Faith will route appropriately).

The Supplemental Information Form should not be used for reissuances.
