Importance: High

Dear Transit Partners,

In preparation for Tropical Storm Elsa passing through North Carolina tomorrow, we need to update your emergency contact information. Below is a survey asking you a few questions we need answered by every system. Please click on the following link and complete this as soon as possible. This survey will stay live, so if you need to make any changes in the future, please click on the same link.

[Emergency Management Contact List Update](#)

Additionally, while we do not anticipate a major event currently, we have created the following status update survey for transit systems to use in the event you are affected. Please click on the following link and enter as many updates as needed to keep us in the loop with any changes in service you put in place. This link will be live throughout the storm and after and can be used over and over again. If you do have a change in status and add a change, please be sure to add new entries each time your status changes until you are back to a normal status (please let us know when you are back in a normal status as well).
