**Importance:** High

---

Transit Agency Partners,

Please click the link below to complete the NCDOT-IMD Strategic Training Program Annual Training Survey. This survey has been updated since last year and asks for information about satisfaction with current training, future training, technical assistance, and resource needs.

Your responses will help us meet the Strategic Training Program goal of improving the quality of information and technical assistance available through the development of training, technology, technical assistance, and resource materials. We will also use your responses to help grow the program and provide future training opportunities.

Survey responses are ***mandatory*** and are intended for *rural* transit systems receiving 5311 and 5310 funds as sub-recipients who operate a public transit service. Each agency must submit at least one response to the survey. However, if other staff could provide relevant information (specifically an individual who is involved in your training efforts), an agency can submit more than one response. Please share the link with others in your agency who are best suited to respond to this survey.

### **[IMD Strategic Training Program Annual Survey](#)**

Please complete this survey by COB on September 20, 2024. Your feedback is essential to creating a successful program. If you have any questions, please contact me at ext-kpangel@ncdot.gov.

Thank you for your help in making the NCDOT-IMD Strategic Training Program a valuable resource to NC Public Transit Systems!

*Kim Angel*

Training Coordinator  
Contractor for NCDOT-Integrated Mobility Division
