Dear Transit Partners,

Inspired by similar efforts in other states and supported by the NC Governor's Highway Safety Program, the NC Friendly Driver Program provides important information to help motorists safely co-exist with bicyclists and other vulnerable road users. This interactive (and even entertaining) workshop discusses:

- Motorist driving habits that impact people who bike and pedestrians;
- Explanation of common bicyclist practices;
- How to avoid common crashes between motorists and vulnerable road users;
- Active transportation infrastructure (like bike lanes); and
- Complete Streets concepts.

Please register here: [Bike/Walk NC Presents Transit-Focused Friendly Driver Program to NC Transit Agencies Registration](#)

The Friendly Driver Program info is here: <https://www.bikewalknc.org/safety-education/education-resources-for-motorists/>

Target Audience:

Transit Directors, Trainers, Lead Drivers, and Safety positions.

Presenters:

Terry Lansdell, Executive Director, BikeWalkNC

Terry comes to BikeWalk NC from Clean Air Carolina where he held several positions, most

recently that of Public Policy Manager. In addition to his work with Clean Air Carolina, Terry has extensive experience with non-profits, including work with both Trips for Kids and the Safe Routes to School National Partnership. Terry's work to advance sustainability is well known and was recognized by Sustain Charlotte in 2015 when he received their Outstanding Leader Award. Terry's background with bicycle advocacy is substantial, and his passion for both sustainable transportation and a cleaner environment made him the ideal person for the job. Terry is also an accomplished distance cyclist who has competed in four solo Race Across America events (RAAM), the Race Across the West on a fixed gear bicycle and holds the UMCA state record for North Carolina.

Oliver Sendall, Programs Manager, BikeWalkNC

Oliver executes BikeWalkNC's social media strategy while building and sustaining partner relationships to support programs and grant initiatives. Oliver grew up exploring the Raleigh Greenways system, which led to a love of cycling in all forms. After receiving his BS in Parks and Recreation Management from North Carolina State University, he worked extensively in community recreation programming before pursuing a Masters of Public Administration at Florida Gulf Coast University. While enrolled in the program, Oliver concentrated his studies in planning, in particular issues related to bicycle and pedestrian infrastructure. In addition to several years of experience working in private sector planning after the completion of his masters degree, Oliver has extensive professional experience in event management.

Kylie Robinson, Community Outreach Coordinator, BikeWalkNC

Kylie is originally from Northern Virginia and now calls Raleigh home. She graduated from George Mason University with a degree in Art & Visual Technology. It was at a small nonprofit in Asheville called MemoryCare that she saw firsthand how powerful communication can be in making a difference. Outside of work, you can find her with a camera in hand, capturing

moments, or out in nature, hiking, camping, and running. Kylie is deeply passionate about using language and communication as tools for positive change and her goal is to continue combining those skills with her desire to help others, driving initiatives that make a real impact in our communities.
