Dear Transit Agencies,

NCDOT is requesting agencies complete the survey linked below to understand agencies' existing technology use, which new technologies would improve agencies' service and operations, and any potential barriers to implementing new technologies. Survey results will be used to develop expansion requests by NCDOT to the General Assembly. Though new funding is not guaranteed by completing the survey, survey responses will demonstrate what technology needs exist and agencies' preparedness for implementing new technologies.

[NCDOT-IMD's 2026 Transit Technology Survey](#)

Survey responses will be accepted through end of day on **August 28th**. One response per agency will be accepted and agencies are encouraged to coordinate internally to complete the survey.

If there are any questions, please contact me.

Thank you,

Timothy Blair Chambers, Jr.
