Dear Transit Partners,

This is a friendly reminder that we are updating the OpStats data collection process starting with the FY26 reporting year. We will no longer be using the Excel spreadsheet, so you will no longer have to deal with macros! We have scheduled webinars for the dates below, and there are still plenty of spaces available, so please make sure that everyone in your organization who is responsible for any part of reporting OpStats data is signed up. The webinars will explain why we collect OpStats, cover some do's and don'ts and tips & tricks, and include a demo of the new website. We will be recording the webinars, so if you can't make it, keep an eye out from IMD for the links to the recordings when they're made available on their website. We will also plan to make these available within the OpStats website. And, I am always available to answer any questions you have.

After the webinars, we will be sending out an email invitation to the primary contacts in IMD's Contact list that will allow you to sign in to the OpStats website. The primary contacts will then be responsible for adding additional users.

If you still need to register, please use the link below for the class(es) you will be attending. You must register for each class individually, so if you are a rural & urban recipient, you will need to sign up for one rural and one urban class.
