

Questions	Answers
Do we expect FY22 Applications for both 5311 and 5307 to be reviewed and have contracts approved by the July 2021 timeframe?	5311 – Definitely  5307 – Stay Tuned we are working on when to open that.
How are the trips to homebound people being charged?	There is a lot of flexibility in both DHHS and Cares funding for this. Please speak to your planner for a more in depth conversation.
Do you have plans to procure a 28' low floor in the future?	We will certainly look at all feasible options for LTVs prior to that contract's end in October. As of now we don't have any specific plans to add low-floor LTV options but when we set up working groups for the specs for a new LTV contract we will keep that option in mind for discussion.
For the Q&A portion, is there an update on FY22 ROAP funding? Thanks!	No update currently.
Will the period of performance for any remaining CARES funding be extended into FY22?	Undecided so far. We have requested an additional year, more info to come. Extension was requested for the 5311 Cares in 2 <sup>nd</sup> Amendment.
Do you have any idea when CARES round 3 will be distributed?	Under review with the FTA currently.
Do you have any idea whether NCDOT has pulled out of the deficit they have been in? Will the overall trajectory for transit be positively affected in the future?	NCDOT is above the Cash Floor currently. Some of the restrictions have been lifted. We still must monitor what is being spent according to our Cash Spend Plan.
How long do POP extensions take to be approved? referring to POP ext for the raised roof vans...	Blanket POP Exts can take a little longer due to all being involved. IMD is currently working on the blanket POP extension on behalf of Subrecipients that were approved to receive the Raised Roof Van for FY21.
Do we have an estimated timeframe for FY21 5307 contracts to be back from the FTA?	We do not have a time frame for this.
If CARES round 3 is approved, we will be able to receive reimbursement for camera systems and tablets	No because cameras have a useful life of 7 years and tablets have a useful life of 5 years. Our cares funds are for operating with a useful life of 1 year or less.
Thanks to you Myra for asking for an extension for the CARES 5311 funding to be extended through FY22. If you could, please also ask the same for the 5307 CARES funds	5307 Cares does not expire until June 30, 2022. This is already in the agreements.

So do we need to do an individual application? (POP Ext question above)	There is no need to do individual POP Ext. We will update the POP end date and add the extended deadline in the Supplemental Agreements.
Should all systems have received the DHHS vaccine money on Feb 4th? My system still has not received this funding.	All funding was sent out in early Feb, we will follow up with you. Proof of payment was provided to the Subrecipient. Please follow up with your finance office.
