

**E-ZPass Transponder (TDM & 6C) Request for Proposals (RFP)**  
**Solicitation Number 2019-IAGPA-0001**

**Addendum No. 4**

May 17, 2019

**Addendum 4, Item A: You are hereby notified of the following request for extension:**

<b>Request:</b>	<b>Response:</b>
<p>On behalf of [REDACTED] I respectfully request an extension to submit a proposal responsive to the referenced solicitation.</p> <p>Ten years after delivering our first IAG compatible transponder model in North Carolina, we are aware that the acceptance test plan is the key technical lynch pin to determine if a company and/or product can meet the requirements of a solicitation such as this one. Just recently, we received an e-mail from the IAG technical committee chair that “Tag Only test plan” requirements will only be available in June, after the current due date for submittals.</p> <p>In light of the strict terms and conditions of multiple agencies, [REDACTED] requests that the deadline for proposal submittal be extended to at least 4 weeks after the release of the test plan. The 4 week timeframe is to allow 2 weeks for plan evaluation and 2 weeks to conduct our own testing before submitting a proposal.</p>	<p>Thank you for your interest in the IAGPA’s Tag Only Procurement.</p> <p>North Carolina Turnpike Authority (NCTA) with guidance from IAG Participating Agencies (IAGPA) has reviewed your request for a 4-week extension of time to start after the release of the Tag Only Procurement Test Plan. The request as stated is denied. The RFP contains sufficient details on the nature of the tests, number of passes and vehicle types to be used to allow a proposer to conduct internal testing and the Tag Only Test Plan serves to assure that data gathered is consistent from proposer to proposer such that product performance can be compared.</p> <p>However, NCTA with guidance from the IAGPA has decided that in order to maintain a competitive environment the deadline for submission will be extended by 2-weeks to June 13, 2019 4:00 PM EDT.</p> <p>In addition, please refer to RFP Part 1: Administrative, Section 2.5 Non-Solicitation Provision, regarding contacting any employee or agent of IAG, IAG Members, or NCTA regarding this procurement.</p>

**Addendum 4, Item B: You are hereby notified of changes to the following information regarding the referenced RFP:**

- Part 0: Overall Table of Contents
- Part 1 Administrative

All other terms, conditions and requirements of the original RFP dated February 28, 2019 remain unchanged unless modified by this addendum, or previous addenda to this RFP.

**Part 0. Revisions (deletions are shown in red text strikethrough mode and additions are in red text and underlined)**
