DripDrop®

WORKS FAST. TASTES GREAT.

3X ELECTROLYTES
VS LEADING SPORTS DRINK

WORKS FASTER
THAN WATER ALONE

+V KEY VITAMINS
FOR HEALTH & WELLNESS

DOCTOR DEVELOPED

Developed by Dr. Eduardo Dolhun during humanitarian aid missions, DripDrop was designed to provide the fastest possible hydration to those in need. Backed by six decades of ORS (oral rehydration solution) science, our formula activates a hydration shortcut, working faster and more effectively than water alone. And unlike other electrolyte drink mixes, it tastes great. DripDrop is the trusted choice for industrial athletes, first responders, professional sports teams and anyone who demands the best.

FAST HYDRATION FOR

SAFETY
HEAT
PERFORMANCE
SLEEP
EXERCISE
WELLNESS

WHAT WE'RE MADE OF MATTERS

3X ELECTROLYTES	vs leading sports drink*
LOW OSMOLARITY	enables rapid absorption
MAGNESIUM	supports optimal rehydration
ZINC, VITAMIN C	added immune support

DAIRY FREE · GLUTEN FREE · NON GMO · SOY FREE · VEGAN · U

WHY WORKERS NEED HYDRATION

Dehydration on the job isn't just uncomfortable — it's a safety risk. Even mild dehydration (just 2%) can impair concentration, slow problem-solving, and increase the chance of job site accidents. More severe fluid loss (5%) can cut physical capacity by up to 30%. Staying hydrated reduces accidents, keeps productivity up, and boosts immunity — helping workers stay sharp, safe, and ready for anything.

WATER ISN'T ENOUGH

Effective hydration requires more than water — it needs sodium, the key electrolyte lost in sweat. DripDrop's doctor-developed formula delivers **3x the electrolytes and ½ the sugar** of the leading sports drink, accelerating fluid and electrolyte absorption. Prefer no sugar? We've got you covered with a Zero Sugar option too. And unlike other electrolyte drink mixes, DripDrop serves up a variety of **award-winning flavors** that taste as good as they work.

Contact us for more information: Industrial@dripdrop.com

3X the electrolyte sodium (670mg, 216mg) per 16oz. vs. the leading sports drink.

DripDrop®

FAST HYDRATION

THE DRIPDROP DIFFERENCE

	DripDrop		Squincher	Gatorade	Pedialyte	Liquid I.V.
Sodium Electrolytes	670mg	6x	110mg	184mg	500mg	110mg
Sugar Glucose	14g	1/2	32g	26g	12g	0g
Potassium	380mg	4x	85mg	66mg	370mg	330mg
Vitamin C	140mg		0mg	0mg	73mg	0mg
Magnesium	80mg		0mg	0mg	0mg	0mg

PREVENTION. REHYDRATION. RECOVER

WHEN TO USE	SUGGESTED USE	BENEFIT
Before and during your shift	Drink one 16 oz stick of DripDrop one hour prior and ad-lib throughout your shift as needed	Increases energy, agility, and mental clarity—improving performance while reducing injury risk
At the first signs of dehydration	Drink DripDrop until signs of dehydration resolve	Using ORS science, DripDrop works fast to return your system to a healthy state as quickly as possible
After your shift	Drink one 16 oz stick of DripDrop after your shift to replace lost fluid and support muscle recovery	Post-shift recovery starts with proper muscle hydration—DripDrop's magnesium, zinc, and citrate support muscle repair and recovery
