

Reciprocity Agreement

North Carolina currently holds reciprocal agreements with several other states for Escort Vehicle Certifications. If you hold an active Escort Vehicle Operator certification in one of the following states, you are approved to escort loads in the state of North Carolina.

Arizona
Colorado*
Florida
Georgia
Minnesota
Oklahoma
Pennsylvania
Utah
Virginia
Washington

Your official Escort Vehicle Operator/Pilot Car certification card and driver's license must be available for inspection by law enforcement while escorting loads through North Carolina.

*North Carolina certifications are **not** recognized in Colorado at this time.

Before escorting oversized/overweight loads in other states, please contact the appropriate states individually for any additional requirements they may have.

If you have one of these states' certifications, but would also like to obtain a North Carolina certification card, you may apply by submitting the EVO Certification Application, a copy of your State certified driving record and a copy of your out-of-state certification card to our office.
