Vehicle Injury Prevention for a Very Important Person

WHY WE DO WHAT WE DO

40% (almost half) of teen deaths are due to motor vehicle accidents If you die as a teenager, it will most likely be in an auto accident.

In North Carolina 95 teens died in motor vehicle accidents in 2010...

There are 98 students in this photo

Vehicle Injury Prevention for a Very Important Person

OUR MISSION / VISION

Founded in 1998 on the concept "if they could only see what we see" as emergency responders, maybe they would think more about their driving decisions.

Our Mission is to bring the sight, sound, and smell of a fatal vehicle accident to high school students in a dramatic way with the hope of embedding the consequences of these often senseless events into the minds of teenage drivers.

At the end of the day we believe that we provide the student with a realistic look at what can happen as a result of one moment of inattention. It's not just driving while impaired, it's also sending that quick text message, partying in the car, aggressive driving, and other distractions and risky behaviors that set in motion a horrifying, irreversible chain of events.

THANK YOU TO OUR VOLUNTEERS!

Our most valuable assets are the volunteers that participate in the programs. Both the VIP core group, and the hundreds of local emergency service members, make the VIP for a VIP program successful in delivering it's message to our vulnerable teen drivers. Their reward at the end of the day is knowing that they may have been a part of saving one teenager's life.
