Michael,

Please see the email response from Steve Lund below regarding our bridge stimulus projects in Division 10 (BK-5113, **BK-5114** and BK-5115). These projects can be constructed under the Section 404 Nationwide 3 permit and the Section 401 Water Quality Certification No. 3687 without written notification.

The projects would also be exempt from mitigation requirements.

We need to include the attached permit conditions in the contract and we certainly need to require a preconstruction conference to discuss the permit conditions. Outside of that, it appears as if we can proceed with the planning/implementation for these projects.

Please let me know if you have any questions.

Larry
