

Notice of Optional Industry Webinars

Express Design-Build Projects Statewide

State Funded Bridge Program

Due to the unprecedented approach to the procurement of Express Design-Build Projects for bridge replacements, a series of webinars will be held to present the overall scope of work for the various contracts statewide, the procurement timeline and the procurement process. After a brief presentation, time will be allotted for questions from industry partners.

All prospective bidders and Design-Build Team members are encouraged to attend one of the three identical industry webinars that will be held on October 25th.

Due to a 150 person limit for participation in the webinar, three identical webinars will be held. These webinars will begin at 9:00 am, 11:00 am, and 1:00 pm. It is requested that each person attend only one of the three webinars to ensure all interested parties can participate.

To participate in the webinar on October 25th, go the following internet address:
