Contract Time and Liquidated Damages	1
Other Liquidated Damages and Incentives	1
Payout Schedule	2
Mobilization	3
Substantial Completion.....	3
Submittal of Quantities, Fuel Base Index Price and Opt-Out Option	4
Individual Meeting with Proposers	5
Execution of Bid, Non-Collusion Affidavit, Debarment Certification and Gift Ban Certification.....	6
Submission of Design-Build Proposal.....	6
Alternative Technical Concepts and Confidential Questions	7
Value Analysis	11
Schedule of Estimated Completion Progress	11
Disadvantaged Business Enterprise.....	12
Certification for Federal-Aid Contracts.....	25
Contractor's License Requirements	26
U. S. Department of Transportation Hotline.....	26
Resource Conservation	26
Subsurface Information	27
Domestic Steel	27
Cooperation between Contractors	27
Bid Documentation	28
Twelve Month Guarantee	31
Erosion & Sediment Control / Storm Water Certification.....	32
Procedure for Monitoring Borrow Pit Discharge.....	37
E-Verify Compliance.....	39
Clearing and Grubbing	39
Burning Restrictions	39
Building and Appurtenance Removal / Demolition.....	39
Pipe Installation.....	40
Drainage Pipe	40
Cement and Lime Stabilization of Sub-Grade Soils	40
Cement Treated Base Course.....	45
Price Adjustments for Asphalt Binder.....	46
Price Adjustments - Asphalt Concrete Plant Mix	46
** NOTE ** Deleted Field Office PSP	
Foundations and Anchor Rod Assemblies for Metal Poles	47
Overhead Sign Supports	53
Overhead and Dynamic Message Sign Foundations	60

conditions, Tier II Methods may be required by regulators on a case by case basis per supplemental agreement.

The Design-Build Team may use cation exchange capacity (CEC) values from proposed site borings to plan and develop the Price Proposal for the project. CEC values exceeding 15 milliequivalents per 100 grams of soil may indicate a high potential for turbidity and should be avoided when dewatering into surface water is proposed.

No additional compensation for monitoring borrow pit discharge will be paid.

E-VERIFY COMPLIANCE

(2-17-14)

DB1 G200

The Design-Build Team shall comply with the E-Verify requirements of N.C.G.S. Chapter 64, Article 2. The Design-Build Team is directed to review the foregoing laws. By signing this Price Proposal, any awarded Design-Build Team certifies its compliance with the E-Verify requirements and will do so on a periodic basis thereafter, as may be required by the Department.

CLEARING AND GRUBBING

(9-1-11)

DB2 R01

With the exception of areas with Permanent Utility Easements, perform clearing on this project to the limits established by Method “III” shown on Standard No. 200.03 of the 2012 *NCDOT Roadway Standard Drawings*. In areas with Permanent Utility Easements, clearing shall extend to the Right of Way limits.

BURNING RESTRICTIONS

(7-1-95)

DB2 R05

Open burning is not permitted on any portion of the right of way limits established for this project. The Design-Build Team shall not burn the clearing, grubbing or demolition debris designated for disposal and generated from the project at locations within the project limits, off the project limits or at any waste or borrow sites in Cabarrus and Mecklenburg Counties. The Design-Build Team shall dispose of the clearing, grubbing and demolition debris by means other than burning and in accordance with state and local rules and regulations.

BUILDING AND APPURTENANCE REMOVAL / DEMOLITION

(9-1-11)

DB2 R12A

Unless otherwise as agreed upon by the Department, seal all wells and remove or demolish all buildings and appurtenances, in their entirety, that are located either partially or completely within the project’s right of way limits or are located outside the project’s right of way limits but within property purchased as an uneconomical remnant in accordance with Sections 205, 210 and 215 of the 2012 *Standard Specifications for Roads and Structures*.

The Department will perform all assessment, removal and disposal of asbestos. Once the Design-Build Team has acquired a parcel and all buildings and appurtenances have been vacated, the Design-Build Team shall immediately notify the Division Right of Way Agent in writing. Upon receipt of the written notification, the Department then requires 60 days to assess and remove any asbestos prior to the Design-Build Team demolishing any building or appurtenance.
