Addendum No.2

RE: Contract ID: C201236
WBS # 34424.3.7
Bertie County (R-2404A)
US 17 (Windsor Bypass) From US 13/17 to East of SR 1503 (Davis Road)

December 21, 2004 Letting

To Whom It May Concern:

Reference is made to the RFQ document recently furnished to you on the above project.

Please void page nos. 4 and 5 in your RFQ document and replace them with the attached page nos. 4 and 5 dated **Revised 6-22-04**. New changes are highlighted.

If you have any questions or need additional information, I can be reached by telephone at (919) 250-4124.

Sincerely,

A handwritten signature in black ink, appearing to read "R.A. Garris".

R.A. Garris, P.E.
Contract Officer

SCOPE

The scope of work for this project will include design, permits, construction and construction engineering and management of the project. The design work will include all aspects to provide a four lane freeway. The designs shall meet all appropriate latest versions of AASHTO Policy on Geometric Design of Highways and Streets, AASHTO Standard Specifications for the Design of Highway Bridges, Manual of Uniform Traffic Control Devices, and all NCDOT design criteria.

Construction will include but not limited to all necessary roadway work, drainage, utility coordination, erosion and sediment control work items, foundation design, substructure work and superstructure work. Construction engineering and management will be the responsibility of the Contractor. Construction will comply with NCDOT Standard Specifications for Roadways and Structures Edition of 2002 and any special provisions.

Areas of work required for this project will include, but are not limited to the following items:

1. Supplemental Surveys
2. Permit Preparation/Application
3. Drainage Design
4. Roadway Plan Preparation
5. Preliminary and Final Bridge Design
6. Subgrade Stabilization
7. Erosion and Sediment Control
8. Signal Design
9. R/W Utilities, Conflicts and Construction
10. Traffic Control and Pavement Markings
11. Foundation Design for Structure and Roadway
12. Signing
13. Construction
14. Project Management
15. Construction Management
16. R/W Acquisition
17. Construction Surveying

All designs must be in Microstation format utilizing Geopak software.

QUALIFICATIONS AND EXPERIENCE

Listed below are the required items to include in a Statement of Qualifications from the proposing Design-Build Team. Also noted are the maximum length of each item and the maximum points available for each category.

Item	Maximum Points	Maximum Pages
A. Introductory Letter	0	2
B. Evaluation Criteria		16
1. Project Understanding & Approach	30	
2. Design-Build Project Team	30	
3. Proposer's Capabilities	25	
4. Quality Program	10	
5. Safety Program	5	
C. Supportive Material (May include charts, graphs, photos, references, etc. provided maximum page limit is maintained.)	n/a	4
D. Design-Build Proposer's Information Form (Complete the form attached or a facsimile thereof and include as part of your submittal.)	n/a	4
E. Work History Form (Complete the form attached or a facsimile thereof and include as part of your submittal.)	n/a	4
Total	100	30

A page shall be 8 1/2" X 11", printed on one side, font size of 12 is required throughout the entire RFQ (Items A, B, C, D, & E). Item B evaluation criteria is the only item of the RFQ that requires double spacing.

If dividers are used and contain specific project information they will be counted as pages. Fold out pages will not be permitted.
