

Design-Build Release for Construction (RFC) Document List

R-2616 - US 601 from North of SC State Line to North of Marion Lee Rd.

Last Updated: 06/18/08

The purpose of this Design-Build Release for Construction (RFC) Document List is to insure that the Design-Build Team, the Alternative Delivery Unit, the Resident Engineer, and other North Carolina Department of Transportation (NCDOT) representatives are moving forward on the DB Project using the most current RFC Documents. This list is to serve as a single point of reference to identify the latest revision available for all RFC documents pertaining to this DB Project.

The presence of an RFC plan on this list in no way relieves the Design-Build Team from satisfying all prerequisites contained in the contract for construction.

Note: Dates in parentheses indicate that the referenced RFC sheets contain multiple seals with different dates.

Primary Contacts:

Design-Build Engineer: Jeffrey M. Garland, P.E., P.M.P., 919-212-3150

Resident Engineer: Dennis Cloud, P.E., (704) 289-1330
