MICHAEL L. HOLDER  
Acting Secretary

January 10, 2017

WBS No: 44799.3.1  
TIP No: R-5778  
County: Cabarrus  
Description: SR-3049 (Bill McGee Rd) from SR-1119 (Wallace Rd) to Proposed Industrial Site

**Addendum No. 1**  
**February 01, 2017 Letting**

To: Prospective Bidders

This addendum is to make all bidders aware that the clearing and grubbing for this project will be completed by others and will not be part of the *Grading* line item. In an effort to have all utilities relocated the clearing and grubbing will be completed prior to project availability.

Please note the following revisions to the proposal for the above referenced project.

Please remove the special provision titled "Clearing and Grubbing-Method II" and insert the following paragraph in the special provision for "Grading" **All requirements of Section 220 of the 2012 Standard Specifications for Roads and Structures covering Clearing and Grubbing will not be included in the contract line item for Grading. This work will be completed by others prior to the availability of this contract. All other requirements listing in Section 226 of the 2012 Standard Specifications for Roads and Structures dealing with Grading will apply.**

If you are submitting a written bid, please download and submit the revised proposal which has the statement "addendum #1 included" on the cover sheet and sign the addendum acknowledgement form on page 176 of your bid package. If you are submitting an electronic bid package you must go to the Division 10 Letting site and download the DJ00223.001 addendum file. The Division 10 Letting site can be accessed at the following link
