

STATE OF NORTH CAROLINA
DEPARTMENT OF TRANSPORTATION

ROY COOPER
GOVERNOR

JAMES H. TROGDON, III
SECRETARY

March 28, 2018

WBS No: 44833
County: Cabarrus
Description: Grading, Paving, Drainage, Concrete Monolithic Island, Signal, Curb and Gutter,
and Thermoplastic Pavement Markings to realign Saddle Creek Court to NC 49.

Addendum No. 1
April 4, 2018 Letting

To: Prospective Bidders

It has been brought to our attention that there is contradictory language in the special provision for "Signals and Intelligent Transportation Systems" under section "4. Traffic Signal Supports". The question was who supplies the anchor bolts for the NCDOT supplied metal strain poles. Answer: NCDOT will supply the reused metal strain poles and all of the hardware that is need to assemble them. This includes caps, strain clamps and clevises, anchor bolts, nuts and washers, and bolt setting templates. The contractor will be required to provide the rebar need for the metal strain pole foundations. The poles and hardware will be available to be picked up by the Contractor from NCDOT's yard at 903 Coble Avenue, Albemarle, NC 28001.

If you have any questions, please contact me at (704) 983-4400.

Sincerely,

A handwritten signature in blue ink that reads "Dustin L. Simpson".
