WBS No: 38824.2.4
Contract No: DJ00596
County: Mecklenburg
Description: Clearing Along NC-73 (Sam Furr Rd.) from NC-115 to SR-2693 (Davidson-Concord Rd.)

Addendum No. 1
August 5, 2026, Letting

To: Prospective Bidders

The Department has received a question concerning the above-mentioned project. Please note the question and answer provided below:

- Q. The bid sheet lists 26,940 CY of silt excavation, the clearing and grubbing phase only shows 4,937 CY of retaining ponds to be built, 25,000SY of erosion matting, and 15,000LF of silt fence. These numbers seem to be for the project as a whole, not the clearing and grubbing phase. Could you please give some clarification?
- A. This project is for clearing only; however, erosion control plans were required. The quantities shown are developed from the erosion control plans. Items may be used at the discretion of the engineer.

The changes and attachments included with this addendum will become part of contract DJ00596.

The electronic bidding file has been updated to reflect this revision. Please download the Addendum File and follow the instructions for applying the addendum. Bid Express will not accept your bid unless the addendum has been applied.
