**NOTICE TO PROSPECTIVE BIDDERS**

Subject: Material Availability on Purchase Order Contract 11901232

County: Buncombe

Project Description: I-40 Eastbound Weigh Station Upgrade

There has been concern expressed by potential bidders that the availability of the metal poles required on this project may be an issue. The NCDOT ITS & Signals Management Section has contacted several approved metal pole suppliers and believes the contract time as advertised is adequate.

Any material availability issues can be dealt with during construction. Time extension considerations will be contingent upon the Contactor's timely ordering of materials and Section 108 of the *2018 Standard Specifications for Roads and Structures*. The Contractor will be allowed adequate time to complete the project (minimum of 6 weeks on revised progress schedule) upon the delivery and receipt of all required metal poles on site should the availability of the metal poles be an issue.

Sincerely,

A handwritten signature in blue ink that reads "Dan Johnson".

Dan Johnson  
Division Proposal Engineer
