Plan Holders

Content Summary: Department Answer to Bidder Question

The above contract has experienced the following revisions:

Bidder Question: A bidder has posed a question about line item 0031 Generic Pavement Marking Item Decorative Crosswalk Pavement Marking: Regarding the decorative crosswalks. "Does the Department require a specific specification for this work?"

Department Response: In accordance with the first page of the proposal "*The Bidder has carefully examined the location of the proposed work to be known as Contract No. DN01136; has carefully examined the plans and specifications, which are acknowledged to be part of the proposal, the special provisions, the proposal, the form of contract, and the forms of contract payment bond and contract performance bond; and thoroughly understands the stipulations, requirements and provisions.*" We recommend conducting a site visit to the project location, as the Department is only requiring replacement of the crosswalk currently in place. Also please refer to the Decorative Crosswalks TPPM (Thermoplastic Pavement Markings) provision on page R-1.

These revisions do not change bid items or the associated quantities.

There is no ebsx addenda file associated with this addendum.
