# CONTRACT No. DN11778942 IN CHEROKEE, CLAY, GRAHAM, HAYWOOD, HENDERSON, JACKSON, MACON, POLK, SWAIN AND TRANSYLVANIA COUNTIES, NORTH CAROLINA Date 2/20/2018

## DEPARTMENT OF TRANSPORTATION,

20

#### **RALEIGH, NORTH CAROLINA**

The Bidder has carefully examined the location of the proposed work to be known as Contract No. DN11778942; has carefully examined the plans and specifications, which are acknowledged to be part of the proposal, the special provisions, the proposal, the form of contract; and thoroughly understands the stipulations, requirements and provisions. The undersigned bidder agrees to bound upon his execution of the bid. The undersigned Bidder further agrees to provide all necessary machinery, tools, labor, and other means of construction; and to do all the work and to furnish all materials, except as otherwise noted, necessary to perform and complete the said contract in accordance with the 2018 Standard Specifications for Roads and Structures by the dates(s) specified in the Project Special Provisions and in accordance with the requirements of the Engineer, and at the unit or lump sum prices, as the case may be, for the various items given on the sheets contained herein.

The Bidder shall provide and furnish all the materials, machinery, implements, appliances and tools, and perform the work and required labor to construct and complete State Highway Contract No. DN11778942 in Cherokee, Clay, Graham, Haywood, Henderson, Jackson, Macon, Polk, Swain and Transylvania Counties, for the unit or lump sum prices, as the case may be, bid by the Bidder in his bid and according to the proposal, plans, and specifications prepared by said Department, which proposal, plans, and specifications show the details covering this project, and hereby become a part of this contract.

The published volume entitled North Carolina Department of Transportation, Raleigh, Standard Specifications for Roads and Structures, January 2018 with all amendments and supplements thereto, is by reference incorporated into and made a part of this contract; that, except as herein modified, all the construction and work included in this contract is to be done in accordance with the specifications contained in said volume, and amendments and supplements thereto, under the direction of the Engineer.

If the proposal is accepted and the award is made, the contract is valid only when signed either by the Contract Officer or such other person as may be designated by the Secretary to sign for the Department of Transportation. The conditions and provisions herein cannot be changed except over the signature of the said Contract Officer or Division Engineer.

The quantities shown in the itemized proposal for the project are considered to be approximate only and are given as the basis for comparison of bids. The Department of Transportation may increase or decrease the quantity of any item or portion of the work as may be deemed necessary or expedient.

An increase or decrease in the quantity of an item will not be regarded as sufficient ground for an increase or decrease in the unit prices, nor in the time allowed for the completion of the work, except as provided for the contract.

BONDS ARE NOT REQUIRED.

# CURED-IN-PLACE PIPE (CIPP):

# Description

The work consists of furnishing and installing cured-in-place pipe-liners at locations determined by the Engineer.

# Material

Pipe-liners must be from NCDOT Approved Product Listing for drainage pipe-liners, at the following link or an approved equal:

# https://connect.ncdot.gov/resources/Products/Pages/default.aspx

Upon installation, the pipe-liners should maintain the equivalent hydraulic conveyance as existing pipe and is subject to approval by the Engineer or his designated representatives.

The existing pipes to be lined may be comprised of varying materials such as corrugated metal, reinforced concrete, welded steel, etc..., and will range in diameter from 15 inches to 36 inches. Pipes are expected to be fully deteriorated.

# **Construction Method**

The pipes that are to receive liners will be determined by the Engineer or his designated representatives, and may have either exposed inverts or may be part of an urban drainage system with inverts contained inside drainage boxes. As drainage structures are considered Confined Spaces, by O.S.H.A., entry into drainage structures shall comply with 29 CFR 1910.146. This information can be accessed via the following link:

#### https://www.osha.gov/pls/oshaweb/owadisp.show\_document?p\_table=STANDARDS&p\_id=9797

All pipe-liners shall be installed in strict compliance with the manufacturer's installation requirements; any deviations made must be given written approval by the manufacturer. Contractor shall provide Department with 2 sets of cut sheets or installation specifications prior to beginning work. The Contractor shall perform manufacturer-required testing and provide documented results for that testing.

Existing pipes shall be cleaned by a method approved by the Engineer or his designated representatives, prior to placement of any pipe-liner.

# Video Recording of Pipes:

The video recording of pipes shall occur at least twice, during the CIPP process, once after cleaning, and once after installation of the pipe-liner. The video recording system shall use sufficient lighting to ensure that the interior of the pipe is fully illuminated for a minimum distance of 3 feet ahead of the camera lens, without washing-out or obscuring the camera view. The video camera lens, the recording mechanism, and the DVD shall be of sufficient quality to ensure clear visibility of the pipe's interior, as viewed from the DVD.

Post-cleaning Video Recording

Prior to pipe-liner installation, each cleaned pipe shall be video-recorded with a television camera, and the video recording will be reviewed by the Engineer or his designated representatives, to verify that the pipe is clean.

The post-cleaning video shall be recorded on a DVD, which will become the property of the Department.

Post-lining Video Recording

Following the installation of the liner, a video recording shall be made of the finished product. This video must also be recorded on a DVD and shall become the property of the Department.

Subsequent Video Recording

In addition to the Post-Cleaning Video and the Post-Liner-Installation Video, a subsequent video recording shall be required; the Engineer or his designated representatives will review the subsequent video, under the following conditions:

- 1. When a precipitation event occurs between the post-cleaning recording and the viewing of that recording by the Engineer or his designated representatives.
- 2. When a post-cleaning video review, by the Engineer or his designated representatives, determines that the cleaning results are unacceptable.
- 3. When a post-liner-installation video review, by the Engineer or his designated representatives, determines that the results of installation of pipe-liner materials or workmanship are unacceptable.

Following liner installation, the Contractor shall make any necessary trimming or sawing required to make the drainage system neat and functional.

# **Measurement and Payment**

Any and all cleaning, videoing, trimming/sawing, and manufacturer-required testing shall be incidental to the unit price for \_\_\_\_\_ "*Cured-In-Place Pipe*.

The Contractor is responsible for opening and accessing all known and visible drainage boxes/structures necessary to complete the work. Any costs associated with access to these drainage structures is incidental to the unit price for \_\_\_\_\_? *Cured-In-Place Pipe*.

In the event that a 'blind' drainage or junction box is discovered, the Department shall provide all equipment and labor necessary to open and close these structures at no cost to the Contractor.

<u>*Cured-In-Place Pipe*</u> will be measured and paid for as the actual number of linear feet of pipe-liner that has been incorporated into the completed and accepted work. Such price and payment will be full compensation for this work, including but not limited to furnishing all labor, materials, supplies, tools equipment, and incidentals as needed to complete the work.

Pay Item "Cured-In-Place Pipe Pay Unit Liner Foot

# **DE-WATERING:**

## Description

The work consists of de-watering drainage pipes prior to and during the installation of pipe liners.

## **Construction Method**

The Contractor shall de-water by diverting or bypassing any water flow through an existing pipe or drainage system prior to and during the CIPP lining process. The method of de-watering shall to be determined by the contractor, but must be approved by the Engineer prior to implementing.

#### **Measurement and Payment**

*De-Watering* will be measured and paid as the actual number of water diversions or bypasses required to complete the assigned work. Such price and payment will be full compensation for this work, including but not limited to furnishing all labor, materials, supplies, tools equipment, and incidentals as needed to complete the work. Removal of de-watering equipment and materials, as well as the restoration of water flow through the repaired pipe shall be incidental to *De-Watering*.

(10-16-07) (Rev. 4-21-15)

#### Description

The North Carolina Department of Transportation will administer a custom version of the Federal On-the-Job Training (OJT) Program, commonly referred to as the Alternate OJT Program. All contractors (existing and newcomers) will be automatically placed in the Alternate Program. Standard OJT requirements typically associated with individual projects will no longer be applied at the project level. Instead, these requirements will be applicable on an annual basis for each contractor administered by the OJT Program Manager.

On the Job Training shall meet the requirements of 23 CFR 230.107 (b), 23 USC – Section 140, this provision and the On-the-Job Training Program Manual.

The Alternate OJT Program will allow a contractor to train employees on Federal, State and privately funded projects located in North Carolina. However, priority shall be given to training employees on NCDOT Federal-Aid funded projects.

# **Minorities and Women**

Developing, training and upgrading of minorities and women toward journeyman level status is a primary objective of this special training provision. Accordingly, the Contractor shall make every effort to enroll minority and women as trainees to the extent that such persons are available within a reasonable area of recruitment. This training commitment is not intended, and shall not be used, to discriminate against any applicant for training, whether a member of a minority group or not.

#### **Assigning Training Goals**

The Department, through the OJT Program Manager, will assign training goals for a calendar year based on the contractors' past three years' activity and the contractors' anticipated upcoming year's activity with the Department. At the beginning of each year, all contractors eligible will be contacted by the Department to determine the number of trainees that will be assigned for the upcoming calendar year. At that time the Contractor shall enter into an agreement with the Department to provide a self-imposed on-the-job training program for the calendar year. This agreement will include a specific number of annual training goals agreed to by both parties. The number of training assignments may range from 1 to 15 per contractor per calendar year. The Contractor shall sign an agreement to fulfill their annual goal for the year.

Z-10

# **Training Classifications**

The Contractor shall provide on-the-job training aimed at developing full journeyman level workers in the construction craft/operator positions. Preference shall be given to providing training in the following skilled work classifications:

Equipment Operators Truck Drivers Carpenters Concrete Finishers Pipe Layers Office Engineers Estimators Iron / Reinforcing Steel Workers Mechanics Welders

The Department has established common training classifications and their respective training requirements that may be used by the contractors. However, the classifications established are not all-inclusive. Where the training is oriented toward construction applications, training will be allowed in lower-level management positions such as office engineers and estimators. Contractors shall submit new classifications for specific job functions that their employees are performing. The Department will review and recommend for acceptance to FHWA the new classifications proposed by contractors, if applicable. New classifications shall meet the following requirements:

Proposed training classifications are reasonable and realistic based on the job skill classification needs, and

The number of training hours specified in the training classification is consistent with common practices and provides enough time for the trainee to obtain journeyman level status.

The Contractor may allow trainees to be trained by a subcontractor provided that the Contractor retains primary responsibility for meeting the training and this provision is made applicable to the subcontract. However, only the Contractor will receive credit towards the annual goal for the trainee.

Where feasible, 25 percent of apprentices or trainees in each occupation shall be in their first year of apprenticeship or training. The number of trainees shall be distributed among the work classifications on the basis of the contractor's needs and the availability of journeymen in the various classifications within a reasonable area of recruitment.

No employee shall be employed as a trainee in any classification in which they have successfully completed a training course leading to journeyman level status or in which they have been employed as a journeyman.

# **Records and Reports**

The Contractor shall maintain enrollment, monthly and completion reports documenting company compliance under these contract documents. These documents and any other information as requested shall be submitted to the OJT Program Manager.

Upon completion and graduation of the program, the Contractor shall provide each trainee with a certification Certificate showing the type and length of training satisfactorily completed.

# **Trainee Interviews**

All trainees enrolled in the program will receive an initial and Trainee/Post graduate interview conducted by the OJT program staff.

# **Trainee Wages**

Contractors shall compensate trainees on a graduating pay scale based upon a percentage of the prevailing minimum journeyman wages (Davis-Bacon Act). Minimum pay shall be as follows:

60 percent	of the journeyman wage for the first half of the training period
75 percent	of the journeyman wage for the third quarter of the training period
90 percent	of the journeyman wage for the last quarter of the training period

In no instance shall a trainee be paid less than the local minimum wage. The Contractor shall adhere to the minimum hourly wage rate that will satisfy both the NC Department of Labor (NCDOL) and the Department.

# Achieving or Failing to Meet Training Goals

The Contractor will be credited for each trainee employed by him on the contract work who is currently enrolled or becomes enrolled in an approved program and who receives training for at least 50 percent of the specific program requirement. Trainees will be allowed to be transferred between projects if required by the Contractor's scheduled workload to meet training goals.

If a contractor fails to attain their training assignments for the calendar year, they may be taken off the NCDOT's Bidders List.

#### **Measurement and Payment**

No compensation will be made for providing required training in accordance with these contract documents.

# DEBARMENT CERTIFICATION OF PREQUALIFIED BIDDER

Conditions for certification:

- 1. The prequalified bidder shall provide immediate written notice to the Department if at any time the bidder learns that his certification was erroneous when he submitted his debarment certification or explanation that is file with the Department, or has become erroneous because of changed circumstances.
- 2. The terms *covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this provision, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549.* A copy of the Federal Rules requiring this certification and detailing the definitions and coverages may be obtained from the Contract Officer of the Department.
- 3. The prequalified bidder agrees by submitting this form, that he will not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in NCDOT contracts, unless authorized by the Department.
- 4. For Federal Aid projects, the prequalified bidder further agrees that by submitting this form he will include the Federal-Aid Provision titled *Required Contract Provisions Federal-Aid Construction Contract (Form FHWA PR 1273)* provided by the Department, without subsequent modification, in all lower tier covered transactions.
- 5. The prequalified bidder may rely upon a certification of a participant in a lower tier covered transaction that he is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless he knows that the certification is erroneous. The bidder may decide the method and frequency by which he will determine the eligibility of his subcontractors.
- 6. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this provision. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- 7. Except as authorized in paragraph 6 herein, the Department may terminate any contract if the bidder knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available by the Federal Government.

# **DEBARMENT CERTIFICATION**

The prequalified bidder certifies to the best of his knowledge and belief, that he and his principals:

- a. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
- b. Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records; making false statements; or receiving stolen property;
- c. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph b. of this certification; and
- d. Have not within a three-year period preceding this proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- e. Will submit a revised Debarment Certification immediately if his status changes and will show in his bid proposal an explanation for the change in status.

If the prequalified bidder cannot certify that he is not debarred, he shall provide an explanation with this submittal. An explanation will not necessarily result in denial of participation in a contract.

Failure to submit a non-collusion affidavit and debarment certification will result in the prequalified bidder's bid being considered non-responsive.

Check here if an explanation is attached to this certification.
