

Technical drawing of a concrete curb cross-section. The drawing shows a curb with a total width of 2'-9" and a total height of 12". The curb is composed of a base layer (6" thick) and a top layer (6" thick). The top layer has a sloped top surface with a 13/4" radius and a 3/4" radius. The base layer has a sloped bottom surface with a 1/8" radius. The curb is reinforced with 1/8" diameter bars. The drawing also shows a 4" vertical dimension and a 1" horizontal dimension on the right side, and a 7" vertical dimension on the bottom right.
