ADDENDUM # 2

To: Plan Holders

From: Wes Jamison
Project Manager

RE: **Revised Summary of Quantities sheets to reflect Typical Section corrections and questions and answers**
Contract ID: DN00669
County: Macon
Letting Date: November 10, 2020

The above contract has experienced the following revisions:

1. Plan sheet 8, the Summary of Quantities has been revised to correctly associate each typical section with its corresponding map. See attached.
2. The following questions were posed by a potential bidder and the associated response has been provided by NCDOT.

Question 1. “According to the Lenscradle Snowplowable Marker specification, there are (2) reflective markers in each groove at each location. So would each location be paid as a quantity of 2 Ea. or 1 Ea.?”

Answer 1. The groove, epoxy, and 2 markers are paid as 1 each.

Question 2. “Are the temporary Pavement Markings paid for by the LF or are they part of the Lump Sum Temporary Traffic Control?”

Answer 2. On DN00669, after milling, the paint will serve as the temporary marking until such time as the temperatures are warm enough to complete paving operations and laying thermo.

Question 3. Is it the intention of the Department to use S9.5B on all of the Maps listed in the DN00669 – Macon contract?

Answer 3. Yes. The ADT for the route dictated the S9.5B.
