ADDITIONAL NOTES TO CONTRACTOR:

- If the operation can sustain a 3 MPH progression, this will be considered a slow-moving operation. If the operation is slower than 3 MPH, a single lane closure will be required.
- Approximately 70% of this work will be performed on Secondary Roads in each county, approximately 25% of the work will be performed on Primary Routes; in a special circumstance, this contract work could include work on Interstate Routes.
- This contract can utilize NCDOT borrow/waste sites as authorized by the County Maintenance Engineer in each county. Mobilization is incidental to this work, as this work is intended to be assigned upon award of contract at the discretion of the County Maintenance Engineer.
