

bridge preservation activities.

The Engineer will identify the proposed work locations for the Contractor. NCDOT Personnel will monitor the Contractor's operations to ensure compliance with the NCDOT *Standard Specifications for Roads and Structures* and the *Roadway Standard Drawings*.

The Contractor shall comply with all applicable Federal, State, and local laws, ordinances, and regulations governing safety, health, and sanitation. The Contractor shall take any other needed actions that are reasonably necessary to protect the life and health of employees on the job and the safety of the public, and to protect property in connection with the performance of the work covered by the contract.

A Bridge Preservation Crew shall consist of a minimum of six (6) workmen with sufficient abilities, skills, hand tools, and equipment capable of performing any typical bridge preservation activity described elsewhere.

The NCDOT will provide all necessary materials that are to be incorporated into the work, including concrete, paint, lumber, and steel sheeting when required for dewatering. These materials are generally stored at the County Facilities or at remote permitted locations such as borrow pits or waste sites. It is the Contractor's responsibility to transport required materials from the County Facilities or other locations to the work site.

The required minimum personnel and equipment will consist of the following:

BRIDGE MAINTENANCE CREW COMPLIMENT		
PERSONNEL LEVEL	NUMBER REQUIRED	DESCRIPTION
Crew Supervisor/Operator	1	Job Site Leader / Operator / Truck Driver. Must be available to communicate with NCDOT personnel.
Operator	2	Operator / Truck Driver. May also serve as a General Laborer / Flagger.
Laborer	3	General Laborer / Flagger
EQUIPMENT	NUMBER REQUIRED	DESCRIPTION
Trailer	1	Capable of transporting the required materials/tools.
Crew Truck	2	Capable of transporting necessary hand tools, traffic control, and personnel.

All Contractors' personnel must always wear a reflective vest or outer garment meeting OSHA requirements while on the project.

The Contractor shall furnish all equipment in good operating condition and shall be operated by
