Notice to Contractors

To: Plan Holders

From: Terry Burleson
Proposals Engineer

Subject: 10.108411, 10.208411, etc. Miscellaneous Asphalt Resurfacing, Milling and Widening contract for Stanly County.

A question has been asked about the bid sheet quantity for "Asphalt Binder for Plant Mix". The approx. tonnage for asphalt binder for plant mix should have been 805 tons based on the quantity of asphalt listed on the bid sheet. However, the contractor's attention is directed to the fact that the tonnage for this line item will vary. The actual quantity of Asphalt Binder for Plant Mix, which will be paid for, will be based on the actual tonnage of asphalt that is placed by the contractor and the percentage of asphalt binder that is used in the mix.

Sincerely,

DocuSigned by:

A handwritten signature in cursive script that reads "Terry W. Burleson".
