ADDENDUM #1

To: Plan Holders

From: Wanda H. Austin, PE
Proposals Engineer

Wanda Austin

RE:

Contract ID: DN00210
County: Jackson, Macon, Cherokee
Letting Date: January 8, 2013

The following questions have been asked regarding the above project. Answers are provided in italics.

1. Is a certified traffic control supervisor required for these projects? *Yes Section 1101-13 of the 2012 Standard Specifications requires that at least one qualified work zone supervisor be available to assist with the project.*
2. Does the contractor have to be prequalified in all categories of work that the job details such as work zone signs, selective vegetation removal, landscape planting, seeding, and mulching? If yes and the contractor is not prequalified in those categories does that mean the work must be subcontracted to an approved contractor? *The bidder must be prequalified in at least 40% of the type of work in the contract. For the above contract the bidder would need to be prequalified in select tree removal and planting. Traffic Control is not a pay item of the contract. The prime contractor is required to subcontract any work that the company is not prequalified to perform; however, the prime is required to perform 40% of the contract quantities.*
3. Which trees are required to be cut in Macon County? *The Department will mark all the trees on the Macon County portion of the project to be removed today January 4, 2013.*
4. Can the contractor utilize a mini excavator in the median on the Macon County portion of the project? *Yes a mini excavator may be utilized.*

Please insert this letter into the addendum section of the proposal and sign the verification. Thank you for your attention to this matter.
