RE: **Question/Concern & Answer/Clarification**
Contract ID: DN11604108
County: Jackson
Letting Date: May 24, 2016

A bidder has raised a question regarding the contract language as it relates to the number of pieces of equipment and how these are to be bid.

Question/Concern

“What if a bidder only has tandem trucks? Can they still submit a bid for just tandem trucks without submitting a bid for the other trucks described in the equipment list?”

Answer/Clarification

The bidder does not have to bid each piece of equipment. The bidder can bid on any or all of the pieces of equipment listed, providing a minimum of one of each type of hauling equipment, for which he submits a bid.

In addition, provide a listing of the number of each type of hauling equipment for which the bidder intends to provide services, see attached equipment list form.

The contract or multiple contracts will be awarded to the lowest bid or bidders of combined hauling equipment offered.

These revisions do not change bid items or the associated quantities.

Please insert this letter into the addendum section of the proposal and sign the verification. Thank you for your attention to this matter.
