Ms. Lentine began the meeting with general information regarding the bidding of Division Let Projects. She reviewed attachment #1, "Information for Bidders." Common mistakes found on bids that were highlighted were;

- Leaving corporate seal off of the Execution of Bid form
- Not having the Execution of Bid form Notarized
- Incorrect math on the Itemized Proposal Sheet
- Missing signatures of the Authorized Agent and Witness on Signature Sheet

Mr. Medlin then reviewed the attachment #2, regarding the use of DBE subcontractors. The items he highlighted were;

- How to find and use the Vendor Directory to search for DBE subcontractors
- The difference between DBE, MBE, WBE, and HUB
- Meeting contract goal requirements
- Submission of a Good Faith Effort if contract goal is not met
- Providing Letters of Intent from committed DBE subcontractors, after project is awarded
- Other ways to meet criteria using Manufacturers (Producers), which count 100% of dollar amount towards goal, or using Suppliers, which count 60% of dollar amount towards goal

Ms. Lentine then drew attention to the following information in the Project Special Provisions;

- Codes, Permits and Inspections, page 10
 - "All work under this contract shall conform to the North Carolina State Building Code and other state, local and national codes as are applicable. The cost of all required inspection and permits shall be the responsibility of the Contractor."
 - "Inspection and certification of compliance by the NC Department of Insurance is required on the electrical work on the project."
- Roof Guarantee, page 10
 - "...the Contractor shall guarantee the materials and workmanship of the roofing against defect due to faulty material, workmanship and negligence by Contractors for a period of twenty-four (24) months following final acceptance of the work..."
- Guarantee, page 12
 - "The Contractor shall guarantee the materials and workmanship against defect due to faulty materials or faulty workmanship or negligence for a period of twelve (12) months following the final acceptance of the work"
- Disadvantaged Business Enterprise (Divisions), page 25-33
 - "The following DBE goal for participation by Disadvantaged Business Enterprises is established for this contract: Disadvantaged Business Enterprises 3.0%"

Ms. Lentine then opened the meeting up for questions.

Question:

What work code is required to be a prime contractor on this project?

Answer:

In order to bid on the project as a prime contractor, either work code Rest Area Building or Other – General Contractor for Vertical Construction are required. Please look your company up on our Vendor Directory to check your prequalification status.

Additional Information (not provided at meeting):

The work code numbers are “00400 – Rest Area Building” or “00099 – Other – General Contractor for Vertical Construction”

Question:

Is there a bid bond required for this project?

Answer:

There is no bid bond required for this project.

Question:

Are Level II Erosion Control Certifications required for this project?

Answer:

This project involves land disturbing activity and Level II Erosion Control Certifications will be required.

Additional information (not provided at meeting):

It was determined that since this project has less than 1 acre of disturbance there will not be a need for Level II Erosion Control Certifications.

Question:

Does the generator shown on plan sheet U1.3 come with an Automatic Switch?

Answer:

The plans state on sheet U1.3 that the generator will be provided “with service entry rated manual transfer switch”, there is no automatic switch.

There were no further questions.

Mr. Farkas stated that the contractors should take note that product substitutions will only be reviewed when they are received from a General Contractor only. They will not be reviewed when submitted by a producer or supplier.

Mr. Wells provided the attachment #3, plan sheet with the trees to be removed numbered and a list with the description and size of each tree.

There being no further business the meeting was adjourned.

Sincerely,

A handwritten signature in black ink, appearing to read "Sarah Lentine", written in a cursive style.

What is the Directory of Firms?

The Directory of Firms is a real-time consolidated list of firms that have been certified through North Carolina's Unified Certification Program as Disadvantaged Business Enterprises (DBE), Airport Concession Disadvantaged Business Enterprises (ACDBE), Small Professional Services Firms (SPSF), Minority Business Enterprises (MBE), Woman Business Enterprises (WBE), and/or Small Business Enterprises (SBE).

The Directory also contains real-time information on firms that have been prequalified to perform work on and/or bid on NCDOT contracts. Prequalification is not a warranty or assurance that a firm is qualified or has the capacity to perform the type(s) of work the owner has represented it's firm as competent to perform. Prequalification by NCDOT does not relieve the prime contractor of his responsibility for determining if the subcontractors selected are, in fact, qualified to perform the work for which they are engaged.

The Directory is provided as an informational source for prime contractors, subcontractors, and consultants as well as local and federal agencies.

Disclaimer

ATTENTION

Please be advised that certification as a Disadvantaged Business Enterprise (DBE) with the North Carolina Department of Transportation is a separate and different certification than the North Carolina Department of Administration's Historically Underutilized Business (HUB) certification. Please check the contract proposal or advertisement to verify and confirm the funding source for the transportation project. This can be done by checking the type of minority goal(s) associated with the contract proposal. Projects with federal funds require that the proposal has a federal (DBE) goal and that the DBE goal is achieved by utilizing certified DBE firms found in the NCDOT Directory of Firms. For projects that have state funds only (no federal funds), the proposal will have two goals: Minority Business Enterprise (MBE) and Woman Business Enterprise (WBE). These MBE and WBE goals are achieved by utilizing certified MBE and WBE firms, also found in the NCDOT Directory of Firms.

The Historically Underutilized Businesses (HUB) data displayed in this directory is maintained by the Department of Administration. For information on HUB vendors, contact the Department of Administration at:

INSTRUCTION
LYNDO TIPPETT
SECRETARY

July 15, 2008

Mr. W. Reade Dawson
ST Wooten Corporation
PO Box 2408
Wilson, NC 27894

Subject: Contract Goal Requirements
County: Durham and Granville
TIP No.: I-4903

Dear Mr. Dawson:

ST Wooten Corporation has been awarded the above project from the June 17, 2008 Division letting. The bid proposal indicated inadequate DBE participation to satisfy the Advertised Contract Goals. However, through your good faith efforts, the North Carolina Department of Transportation has accepted your committed participation:

The advertised contract goal for the subject project was set at:

DBE = 6%

Your bid proposal indicates a commitment to the following participation:

DBE = 4.4%

The DBE Goal Commitment of 4.4% will be the **Contract Goal Requirement**.

In accordance with Article 102-16(J) of the NCDOT *Standard Specifications*, failure to satisfy the Disadvantaged Business Enterprise requirements of the project Special Provisions is cause for disqualifying a Contractor from further bidding.

Based on your bid proposal, the Department has listed the following approved DBE subcontractors and dollar amounts to meet the Contract Goal Requirement. These firms are required to be utilized under the regulations in Special Provision (SP1G61), and any changes in the work affecting the DBE firms or replacement of a DBE firm will need to follow these provisions.

Committed DBE Firm	Committed Amount
1. Harold A. Puryear Trucking Co.	\$4,134
2. Young's Tree Service	\$22,260
