Questions from the Mandatory Pre-Bid Conference held on January 26, 2016 for the
Greenfield Lake Culvert Replacement

- 1) Does a contractor have to submit a hard copy and an electronic copy of the bid documents?
 - a. Yes_ when using the EBS file, this produces a printed copy of the bid form that must be signed, and the proposal must also be signed for the package to be complete. Failure to return the entire bid package will result in that bid package to be considered irregular and not awardable.

- 2) Are the bid documents from the previous letting available?
 - a. No_ Since that bid was not awarded, NCDOT has not released that information
