DEPARTMENT OF TRANSPORTATION

BEVERLY EAVES PERDUE  
GOVERNOR

EUGENE A. CONTI, JR.  
SECRETARY

ADDENDUM TO BID PACKAGE 3CR.20671.131, 3C.067067 &  
43251

April 10, 2012

**Project Description: Mill Patch and Condition Existing Base & Pave in Onslow  
County.**

Onslow County

This Addendum is to clarify the current weight restriction postings for the 3 bridges located along SR 1331 (Project Map Number 1) in Onslow County. The NCDOT will consider all dump trucks, paving and milling machines to be single vehicles and the contractor should limit his construction equipment weight to meet the posting limits for these bridges. Any questions concerning the current bridge postings should be directed to Trevor Carroll NC DOT Division 3 Bridge Maintenance Engineer at 5501 Barbados Blvd. Castle Hayne , N.C. 28429 Telephone (910)341-2000.

All other questions regarding the proposal should be directed to Robert Vause, P.E. District Engineer or myself.

Sincerely,

A handwritten signature in black ink, appearing to read "W. Wayne Whorton".

W. Wayne Whorton  
Assistant District Engineer
