Ms. Celia Foushee
Assistant Division Project Manager
N.C. Dept. of Transportation - Division 3
5501 Barbados Blvd.
Castle Hayne, NC 28429

Dear Ms. Foushee:

Attached is CAMA Minor Development Permit #02-14 for the construction of sidewalks along NC 210 from Broadway Street to 9th Street within the Town of Surf City, Onslow County.

In order to validate this permit, please **sign** both copies as indicated. **Retain** the original (yellow copy) for your files and return the signed copy to us in the enclosed, self-addressed envelope.

Your early attention to this matter would be appreciated.

Sincerely,

Stephen Lane
Coastal Management Representative

DIVISION 3 OFFICE

**CAMA
MINOR DEVELOPMENT
PERMIT**

as authorized by the State of North Carolina, Department of Environment,
and Natural Resources and the Coastal Resources Commission for development
in an area of environment concern pursuant to Section 113A-118 of the
General Statutes, "Coastal Area Management"

Issued to N.C. Department of Transportation, authorizing development in the Ocean Hazard (AEC) within the Right-of-Way of NC 210, in Surf City, Onslow County as requested in the permittee's application, dated received on February 24, 2014. This permit, issued on March 18, 2014, is subject to compliance with the application and site drawing (where consistent with the permit), all applicable regulations and special conditions and notes set forth below. Any violation of these terms may subject permittee to a fine, imprisonment or civil action, or may cause the permit to be null and void.

This permit authorizes the construction of sidewalks along NC 210 from Broadway Street to 9th Street within the Town of Surf City.

- (1) All proposed development and associated construction must be done in accordance with the permitted work plat drawing dated received on February 24, 2014.
- (2) All construction must conform to the N.C. Building Code requirements and all other local, State and Federal regulations, applicable local ordinances, and FEMA Flood Regulations.
- (3) Any change or changes in the plans for development, construction, or land use activities will require a re-evaluation and modification of this permit.
- (4) A copy of this permit shall be posted or available on site. Contact DCM Transportation Representative at (252) 808-2808 for a final inspection at completion of work.

(Additional Permit Conditions on Page 2)

This permit action may be appealed by the permittee or other qualified persons within twenty (20) days of the issuing date. From the date of an appeal, any work conducted under this permit must cease until the appeal is resolved.

This permit must be on the project site and accessible to the permit officer when the project is inspected for compliance.

Any maintenance work or project modification not covered under this permit, require further written permit approval.

All work must cease when this permit expires on

December 31, 2017

In issuing this permit it is agreed that this project is consistent with the local Land Use Plan and all applicable ordinances.

This permit may not be transferred to another party without the written approval of the Division of Coastal Management.

Stephen Lane
Coastal Management Representative

Permittee (signature required if conditions above apply to permit)

Name: N.C. Department of Transportation

Minor Permit # 02-14

Date: March 18, 2014

- (5) The structure must be set back a minimum of 120 feet from the first line of stable vegetation, as determined by the DCM, or other assigned agent of the DCM.
- (6) The permittee is required to contact the DCM Transportation Representative at (252) 808-2808, shortly before he plans to begin construction to arrange a setback measurement that will be effective for sixty (60) days barring a major shoreline change. Construction must begin within sixty (60) days of the determination or the measurement is void and must be redone.
- (7) All unconsolidated material resulting from associated grading and landscaping shall be retained on site by effective sedimentation and erosion control measures. Disturbed areas shall be stabilized with vegetation (planted and mulched) within 14 days of construction completion.
- (8) Any structure authorized by this permit shall be relocated or dismantled when it becomes imminently threatened by changes in shoreline configuration. The structure(s) shall be relocated or dismantled within two years of the time when it becomes imminently threatened, and in any case upon its collapse or subsidence. However, if natural shoreline recovery or beach renourishment takes place within two years of the time the structure becomes imminently threatened, so that the structure is no longer imminently threatened, then it need not be relocated or dismantled at that time. This condition shall not affect the permit holder's right to seek authorization of temporary protective measures allowed under CRC rules.
- (9) This permit does not authorize development within any wetlands or open water areas.

Signature Celia Faushee Date 3/21/14
