Notice to Prospective Bidders

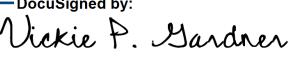

RE: **DD00257 – 17BP.4.R.78, 17BP.4.R.81**
Edgecombe County Bridges 67 & 113

To Whom It May Concern:

It has come to our attention that there was an error on the UC plan sheets for both bridges. The existing water lines are 14" and not 10" as originally noted. Also, a quantity for Class II stone for bridge 67 was increased before advertisement, however the structure bill of material sheet was not updated. We have updated both plan sets on our Division Letting page. Please use these plans for bidding purposes. Neither of these changes warrant an addendum as no items or quantities are affected.

If there are any questions, please contact me at (252) 640-6433.

Sincerely,

DocuSigned by:
