PROJECT SPECIAL PROVISION
DEAD ANIMAL REMOVAL & DISPOSAL

The work covered by this provision consists of the removal and disposal of all types of dead animals from within the right of way limits of the state highway system in Edgecombe County. Domestic dead animals that have a collar must be picked up as well. The Contractor is required to record the information off of the tags on the collar and deliver the collar, tags, and documented information to the Department when the corresponding invoice is submitted. Any animal, domestic or wild, ranging in size from a cat to a deer is covered under this contract.

The Contractor shall photograph each dead animal on site to facilitate the documentation of animals that are disposed. The Contractor shall submit the photographs to the Department either by hard copy or on CD. Each photograph shall be numbered in the order in which the dead animals were picked up. The date and time shall be listed on each photograph. One photograph shall be taken at approximately 5 to 10 feet from the carcass to identify the animal. A second photograph shall be taken from 50 to 100 feet from the carcass to identify the location. Both photographs shall include the carcass. **The photographs must accompany all invoices.**

The Contractor is required to document the date, time, location, and type of each animal removed from the roadway. This information must be recorded on the Department provided log sheet. In addition, the photograph number must correspond to number on the log sheet. The log sheets shall be submitted to the Department on the next business day following removal and disposal of dead animals.

All removed animals must be disposed at the sanitary landfill on the same day which they are removed from the roadway. The Contractor is responsible for understanding all requirements for disposal of dead animals at the sanitary landfill. Disposal of dead animals at locations other than the sanitary landfill is not allowed.

All work is subject to inspection by the Engineer at any time. The Engineer will make periodic inspection of the completed work. The Contractor is responsible for informing the Engineer of completed work on a regular basis.

Measurement and Payment

Only dead animals that the Engineer notifies the Contractor of will be paid for. If the Contractor becomes aware of a dead animal that has not been reported, the Contractor may inform the Engineer and request permission to remove and dispose of the animal. Any dead animal that is removed without the Engineer's knowledge will not be eligible for payment.

In the event the Engineer notifies the Contractor of a dead animal that is no longer located on the right-of-way, the Contractor shall be paid for "Site Visit – No Dead Animal". The Contractor is required to provide the same photographs when the animal is no longer available as when the dead animal is still in place. These photographs must be submitted in the same way to verify that the Contractor did attempt to remove the dead animal.

Bid prices and payments will be full compensation for all work, including but not limited to, labor, disposal fees, transportation, fuel, traffic control, tools, and equipment necessary for completion of the work.

Payment for this item shall be as follows:

Dead Animal Removal & Disposal.....EA
Site Visit – No Dead Animal.....EA

WORK ZONE SAFETY:

The Contractor is responsible for locating the service vehicle in a safe location while work is being performed. On major routes, the Contractor shall position his vehicle behind the guardrail if possible. At work locations where guardrail is absent, the Contractor must position his vehicle a minimum of five feet (5') from the edge of pavement; however, the vehicle shall be as far from the roadway as is practically possible. When the Contractor is unable to protect his vehicle and the travelling public with the use of guardrail, he shall position a minimum of five (5) cones meeting approval of the *Standard Specifications*. No additional payment for cones will be made. The Contractor shall display a highly visible caution light on each vehicle throughout the duration of work. At no time is the Contractor allowed to close or narrow a lane of traffic.

No payment will be provided for traffic control or work zone safety as it is considered incidental to the other line item in the project.

DEBARMENT CERTIFICATION

Conditions for certification:

1. The prequalified bidder shall provide immediate written notice to the Municipality if at any time the bidder learns that his certification was erroneous when he submitted his debarment certification or explanation filed with the Municipality, or has become erroneous because of changed circumstances.
2. The terms *covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded*, as used in this provision, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. A copy of the Federal Rules requiring this certification and detailing the definitions and coverages may be obtained from the Municipality project representative.
3. The prequalified bidder agrees by submitting this form, that he will not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in Municipal contracts, unless authorized by the Municipality.
4. For Federal Aid projects, the prequalified bidder further agrees that by submitting this form he will include the Federal-Aid Provision titled *Required Contract Provisions Federal-Aid Construction Contract (Form FHWA PR 1273)* provided by the Municipality, without subsequent modification, in all lower tier covered transactions.
5. The prequalified bidder may rely upon a certification of a participant in a lower tier covered transaction that he is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless he knows that the certification is erroneous. The bidder may decide the method and frequency by which he will determine the eligibility of his subcontractors.
6. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this provision. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
7. Except as authorized in paragraph 6 herein, the Municipality may terminate any contract if the bidder knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available by the Federal Government.

DEBARMENT CERTIFICATION

The prequalified bidder certifies to the best of his knowledge and belief, that he and his principals:

- a. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
- b. Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records; making false statements; or receiving stolen property;
- c. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph b. of this certification; and
- d. Have not within a three-year period preceding this proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- e. Will submit a revised Debarment Certification immediately if his status changes and will show in his bid proposal an explanation for the change in status.

If the prequalified bidder cannot certify that he is not debarred, he shall provide an explanation with this submittal. An explanation will not necessarily result in denial of participation in a contract.

Failure to submit a non-collusion affidavit and debarment certification will result in the prequalified bidder's bid being considered non-responsive.

Check here if an explanation is attached to this certification.
