MEMORANDUM TO PROSPECTIVE BIDDERS

NCDOT is in possession of 78M and #9 stone available for the Contractor’s use on this project. Stock pile locations and approximate aggregate tonnages have been provided for informational purposes. The Contractor will be responsible for loading and hauling aggregate to the job site from the stock pile locations, as needed. Any unused aggregate shall be returned to a stockpile location at the end of the business day. A representative from NCDOT shall be on-site at all times during loading operations. There will be no separate pay item for Asphalt Surface Treatments based on the source of stone. Costs associated with loading and hauling state provided aggregate shall be incidental to the Asphalt Surface Treatment pay items included in the contract.
