

The following products and materials shall meet the requirements of Subarticle 106-1(C) of the *Standard Specifications*:

Material Type	Material
<i>Geosynthetics</i>	Engineering Fabric, Paving Mat
	Engineering Fabric, Type I (Shoulder Drain)
	Engineering Fabric, Type II (Under Rip Rap)
	Engineering Fabric, Type IV (For Soil Stabilization)
	Engineering Fabric, Type V (Geotextile Reinforcement)
	Filter Fabric
	Geomembrane
	Permanent Soil Reinforcement Mat
	Polypropylene Woven Monofilament Geotextile Fabric
	Techo Mesh
<i>Pavement Interlayers</i>	Pavement Interlayer - Option A
	Pavement Interlayer - Option B
	Pavement Interlayer - Option C
<i>Piles, Timber</i>	Treated Timber Piles
	Untreated Timber Piles
<i>Pipe, Outlets and Drains, PVC</i>	PVC Outlet Pipe
	PVC Perforated Subdrain Pipe
	PVC Shoulder Drain Pipe
	PVC Sanitary Pipe Accessories
	PVC Subdrain Cleanout w/Plug
	PVC Subdrain Pipe Wyes, Tees, and Elbows
<i>Structural Timber</i>	Treated Structural Timber
	Untreated Structural Timber
<i>Timber Products</i>	Block, Guardrail, Wood
	Cross Tie Replacements
	Electric Service Poles
	Post, Fence
	Post, Guardrail, Wood
	Split Rail Fence
	Support, Wood
	Treated Timber
	Treated Timber, Rub Rail
	Wood Pedestal
	Wood Pole
	Wood Sign Supports
