TREE CLIMBING

Description

Tree Climbing may be required when a tree service crew is not capable of performing the requested tree service work due to site conditions or other factors. Tree climber(s) provided must be properly trained and certified as an ISA Certified Tree Worker Climber Specialist, TCIA Tree Climber Specialist, or approved equivalent.

Equipment

The Contractor shall furnish all safety and operational equipment sufficient to perform the required work. Climbers shall perform climbing activities and utilize all necessary harnesses, rigging, lanyards, blocks, pulleys, and other equipment in accordance with all applicable OSHA requirements, ANSI requirements, and industry standards.

Construction Methods

The use and number of climbers shall be approved by the Engineer prior to work being performed. Provide properly trained and certified tree climbers and perform pruning and removal of limbs or trees using sound, established arboricultural principles. Personnel designated as “tree climbers” are in addition to tree service crew members and shall not be counted to satisfy the required number of crew members.

Measurement and Payment

Tree Climbing will be measured and paid for by the actual number of hours that each tree climber approved by the Engineer is used during tree service operations. The contract unit price for *Tree Climbing* will be full compensation for supplying all labor, tools, equipment, and incidentals necessary to complete the required work. . **Any tree climber performing dual duties (equipment operation, flagger, etc.) on a jobsite will only be paid under Tree Climbing for the actual hours he/she is performing the specific duties described above.**
