N.C. Airport Community,

The 2025 State of Aviation Report, released Jan. 3, highlights the \$88 billion contribution airports contribute annually to North Carolina's economy. The full report and supporting documents are available [online on our connect site](#). Please share it with your community. Use the [Outreach Dashboard](#) to report your presentations and media coverage. Your submissions help demonstrate aviation's vital role in our state.

Below is our monthly email of links to guidance and requests for action, upcoming events and due dates and new guidance under development.

PLEASE NOTE: Deadlines to apply for federal funding are approaching fast, and 2020 and 2021 nonprimary entitlement (NPE) and other 2021 federal funds will expire if funding applications aren't submitted on deadline. We shared information about this in our [recent presentation](#) to the N.C. Airports Association. See the Upcoming Events and Due Dates section below for more details.

As always, contact your [airport project manager](#) with questions about these items.

Best Regards,

Your NCDOT Aviation Team

- April 10 Deadline to request federal fiscal year 2022 FAA Airport Infrastructure Grant (AIG) funding

View the complete [Master Calendar](#) of events and due dates for state fiscal year 2025 on the NCDOT Connect site.

### FAA AIG Grant Application and Expenditure Status

Please request all announced federal Airport Infrastructure Grant funding from your regional airport project manager as soon as possible. FFY 2022 AIG funds will be lost to your airport if you do not request them through application to your APM **by April 10, 2025**.

Applications must include:

- Approved Work Authorization, IFE & approved NEPA for Design grants
- Approved Work Authorization & IFE for Construction Admin & RPR services
- Final Bid estimate with minority goals set for construction. Bidding must occur during the application process to receive funds.
- Informal Bidding or Small Purchase contracts are eligible if utilizing FAA guidance: [https://www.faa.gov/airports/aip/procurement/small\\_purchase](https://www.faa.gov/airports/aip/procurement/small_purchase)
- Closing Documents with NEPA complete for land acquisition
- FAA Form 5100-100

Please note that FAA has specified that each work type cost must be represented in the request. Example: Corporate Hangar might have an application for taxiway, apron, and hangar.

Contact your APM immediately if you have not designated how these funds will be spent.
