

[UPDATE] Expiration of 2020 NPE funds

1 message

From: Bingham, Rachel S

Date: Wed, Feb 19, 2025 at 8:12 AM

Dear NC Airport Sponsors and Consultants:

While 2021 funds have been extended, 2020 funds will still expire. If you are receiving this email, **your airport has expiring 2020 funds** that have not been obligated **and/or** have been obligated and still need to be spent after the one-year extension provided last year.

NCDOT Aviation is willing to process **new grant agreements** with required project request documents (Work Authorization, Bid tab, etc.) **and a written request** from the sponsor that includes:

- acknowledging the missed deadline
- acknowledging that NCDOT/FAA cannot be liable for the loss of any unspent/unobligated funds
- the airport will replenish any lost funds with newer NPE or local funds.

NOTE: Local funds (other than match) would be eligible for reimbursement with future NPE once received.

NCDOT Aviation will not have State Aid funds to replace any gap in federal funding should the remaining deadlines not be met.

The following deadlines/options still apply:

- **February 28, 2025** – deadline to relinquish your funds to another NC airport for expenditure on their airport by June 30, 2025.
 - Your airport must provide a signed & sealed letter to your APM to request the transfer of funds
 - CARES & ARPA match cannot be relinquished and will be lost to your airport and the recipient requiring use on a 90/10 grant
 - FAA has stated that there is no federal requirement for the recipient to replace the funds
 - The receiving airport must spend the funds by June 30, 2025
- **April 1, 2025** – deadline to finalize grant modifications to existing 2020 grants
 - Grants using funding from other years are currently 90/10 grants and cannot be modified with 100% funding
- Final Billing for all outstanding funds must be completed by **June 30, 2025**

To prevent delays, do not respond to this email. **Please contact your APM with questions.**

Thank you,

Rachel S. Bingham, PE
