Southern Shores, NC 27949

**You're invited to attend the upcoming Citizens Informational Workshops for the Mid-Currituck Bridge Study.**

By attending a workshop, you will have the opportunity to learn about the project,

ask questions, and provide your input to the study team.

*There will be no formal presentation.*

# Mid-Currituck Bridge

The North Carolina Turnpike Authority (NCTA) proposes to make improvements in the Currituck Sound area between US 158 near Barco to NC 12 near Corolla. Several alternatives, including improving the existing US 158/NC 12 corridor and constructing a new bridge across Currituck Sound, have been considered. Several alternative corridors for a new bridge are being studied. As part of the project, NCTA will study the feasibility and impacts of developing the proposed project as a toll road. The project is intended to ease congestion, reduce travel times, and provide enhanced evacuation and emergency access. These workshops will present the project purposes, needs, and study alternatives that will be considered in the upcoming Draft Environmental Impact Statement.

NCTA will provide auxiliary aids and services under the Americans with Disabilities Act for disabled persons who wish to participate in the workshops. Anyone requiring special services should contact Ms. Jennifer Harris by February 18, 2008 so that arrangements can be made. If you are unable to attend the workshop, please submit your comments to either:
