

a CULTURE where we PROMISE what we are GOING TO DO and DELIVER what we PROMISE. — NCDOT's Project Delivery Vision

## **October 2021 IPD Newsletter**

#### **Preconstruction Workshop Internal Registration Open**

Registration for the N.C. Department of Transportation's (NCDOT) Preconstruction Workshop will open to internal staff in early October. Industry partners can already register on the N.C. State University website. The workshop will be held Jan. 25-26 at N.C. State University's McKimmon Conference & Training Center in Raleigh.

Also at the McKimmon Center on Jan. 25, the NCDOT will host an outreach event for certified small professional services firms (SPSF) from 10 a.m. to noon. Registration for the outreach is free, but space is limited. Be sure to save your spot early!

#### **Project Management Guide Rollout Rescheduled**

Rollout of the *Project Management Guide* on the Project Management webpage has been rescheduled for October. The rollout will include an introduction video of major concepts and a comment form for questions or feedback. These resources will assist project managers in leading project teams from the end of Project Initiation through Plans, Specifications, & Estimates/Letting.

Associated training resources are being developed. More information is coming soon.

## **Quality Management Manual Coming Soon**

PDN Stage # – Unit Name QA Checklist					
County: Click to edit.					
Activity Code & Name					
Item #	Review Item		Acceptable	Unacceptable	N/A
No.	Name				
1					
2					
3					
For items marked Unacceptable, provide comments or action items in the table below.					
Item # Comments and Action Items

QA Review	ver (Signature):				
Version 21	1.09.30			Page	1 of 2

The NCDOT plans to release the *Quality Management Manual* on the Project Management webpage later this year. The new quality management process is designed to reduce review time in the delivery process. It is also intended to increase consistency and accuracy in project documents and letting packages.

Alongside the manual, quality control and quality assurance checklists will be available to ensure consistency within reviews. Training for the new process is still in the planning stage.

#### **Invoicing and Progress Report Templates End of October**

The NCDOT will release standard invoicing and progress report templates on the Professional Services webpage at the end of October. The templates provide consistency while allowing customization to meet project-specific needs.

The NCDOT expects these templates to be used on all technical and construction services projects. For questions or comments, please submit a contact form.

#### **Utilities Process Improvement Updates**

The NCDOT's Utilities Unit has developed strategies and action plans for implementing improvements to utility processes. The efforts will help the NCDOT deliver projects with more realistic cost estimates and schedules. They will also strengthen relationships with industry partners to achieve goals.
