

15_13 Location of Pattern Line File

Question:

Where should the file that contains pattern lines be located?

Answer:

1. If the file containing pattern lines is a pattern line file (TIP_rdy_pat.dgn), then it should be located in the 'XSC' folder for cross section processes.

2. If the file containing pattern lines is a shear point diagram (TIP_rdy_spd.dgn), then it should be located in the 'Proj' folder.
